

The POINT 3 Story

We are the ones in the gym shooting extra jumpers after everyone has gone home. We are the ones working on our handle while waiting for next. We are the ones leaving everything on the court, every time. We are the ones who know it can all happen in :00.3 seconds, which means every fraction of a second will make a difference. We then, are just like you.

POINT 3 was born based on a need - to keep our hands dry without having to leave the court. This was the idea that launched the brand. Our first line centered around a pair of shorts with what we now call DRYV® Technology - like a towel built right into our gear, which Dime Magazine dubbed a "Basketball Shorts Revolution."

After the launch of our shorts, we quickly realized that basketball apparel on the market was not directed toward the needs of ballplayers. We set out to do something about it. Since 2010, POINT 3 has been producing performance gear specifically Made for Basketball, which now includes all types of basketball apparel from socks with built-in compression, to shooting shirts with a shooter's notch on the sleeve, and now, a full catalog of team uniforms.

We are proud to be the outfitter for youth programs of the NBA's Atlanta Hawks, Brooklyn Nets, Chicago Bulls and New York Knicks and thousands of youth basketball teams and players around the world. But nothing makes us as proud as the reviews we get from our customers on the quality of our gear and the direct, hands-on customer service we provide. Our team is made up of current and former ballplayers and coaches who love the game and are committed to helping you pursue and maximize your basketball goals. Above all else, WE CARE ABOUT BASKETBALL.

Your passion for the game keeps you working to gain every advantage to improve. POINT 3 will do the same, continuing to help you and your programs find the advantage you need to succeed. See you on the court.
