

Three ways to find that (other) perfect fit.

Don't forget to UNCHECK the "SCALE TO FIT PAGE" checkboxes.

1

- Print out on 8.5 x 11" letter size paper. Cut out the ring sizer shown above. Cut a small slit next to the arrow.
- Place the ring sizer around your finger. Slip the pointed end through slit with the numbers facing out.
- Tighten the ring sizer by pulling the pointed end toward your finger. The fit should be snug but comfortable.
- Read the number pointed to by the arrow next to "read size here". (Easy peasy.)

2

- Wrap a string around your finger.
- Find the length of string that wraps around your finger exactly one time.
- Measure that length of string against the closest circumference in the reference chart printed below.

size (USA)	circumference		diameter	
	in	mm	in	mm
0	1.44	36.5	0.46	11.6

- Place your ring on top one of the circles to determine the size.
- Align your ring so its INSIDE EDGE fits against the matching circle.
