**MAIN FEATURES**

Suitable for **Optical Media high security shredding**. Dedicated to CDs, DVDs (including 3.15" mini disks), Blu-Ray and credit cards shredding, up to and including the **"Top Secret" level**. KOBRA 400 HS OM can shred up to 2,550 optical media per hour through the **special 1.5x2 mm cutting system**, which is the highest security level today available for optical media to meet the strictest Military and Governments shredding needs. Shreds an optical media disk into over 3000 microchips exceeding the Optical Media Destruction Devices guidelines and the ASIO T-4 standards for TOP SECRET level destruction of Optical Media. The tiny size of the shreds doesn't allow retrieving or reading any information left on small optical media particles even through specific and dedicated electronic equipments. KOBRA 400 HS OM has been evaluated by NSA and meets the requirements of NSA/CSS Specification 04-02 for Optical Media Devices Destruction.

- **SPECIAL 1.5x2 mm HIGH SECURITY CUTTING SYSTEM** for Optical Media shredding up to "Top Secret" security level
