

COM/COL Policy and Requirements

All American Leather® Collections are available in COM/COL. In order to maintain quality standards and quick delivery expected from American Leather®, each COM/COL order must adhere to the following requirements:

1. Refer to the COM/COL yardage requirements included in this section and on the COM/COL guides.
2. A completed COM/COL: information sheet must be submitted with each purchase order. *See page 14. Please note, all COM fabrics need to have CAL TB1 17-2013 without flame retardant chemicals before we can process the order.*
3. COM yardage must be received in one continuous piece. COL in full hides only.
4. Please note that some fabric/leather defects may not present themselves before the upholstery process. In this case, American Leather® will not be responsible for replacement or repair. Furthermore, our inspection process will not and cannot determine if, all COM/COL is appropriate for the intended purpose. As an example, seam slippage or durability are not part of our testing process and should any of these issues occur after production, American Leather® will not be responsible for COM replacement or repair.
5. We do not guarantee against excess or shortage on COM/COL due to variations in patterns and cutting characteristics.
6. Seaming details may vary from those on showroom samples or on photographic literature with certain narrow or patented fabrics. These changes are made at the discretion of the factory as required.
7. If a customer has a checkered, plaid, or horizontal striped fabric, please contact American Leather® for additional yardage requirements, as the welt for these must be cut on the bias.
8. We reserve the right to refrain from applying any COM/COL, which we deem to be unworkable.
9. COM/COL orders are not returnable for any reason.
10. American Leather® is not responsible for using match point on fabric if not specified.
11. Orders are not scheduled until all COM/COL are received by American Leather®. Please ensure that your fabrics are shipped prepaid promptly.
12. By submitting a purchase order and COM/COL, you are agreeing to this policy.
13. The lead time starts once American Leather® receives COM/COL material.
