100%
made from solid
North American
birch

A leader of high performance
in wood coating products

Pedestals selection for Denali Collection

Experience the difference!

Features	Benefits
Our main material: solid North American birch	High quality, long-lasting, carefully selected even-grained hardwood North American birch from sustainable, biodegradable and renewable trees
8-step finishing process	5 steps more than the standard 3-step process used in the furniture industry Superior finish offering much better and longer protection – a solid investment
Toner	Wood grain unified and enhanced, with colour evened
Dinalshield catalysed varnish*	Very hard-wearing varnish added as last coat to ensure greater durability and protection from spills and stains

*The catalysed varnish takes 30 days to harden completely and be fully efficient. You should be careful and avoid scratching the surface for that period of time.

Our 8-step finishing process

Step 01

Toner application for even shade of colour

Step 02

Wood stain application

Step 03

Stained finish is hand-wiped

Step 04

Uniformity of colour

Step 05

Seal

Step 06

Sanding sealer

Step 07

Dinalshield catalysed varnish

Step 08

Drying (1h30) at 104 °F

Finishing quality

What is Dinashield?

Dinashield is a premium quality catalysed varnish that has become the standard for lifetime wood protection and durability. In fact, it is the most durable finish available for wood. It will resist moisture and damage from most household chemicals. Catalysed varnish will protect furniture from most spills and stains. We are proud to offer you this high quality finish.
