### Legs selection for Everest Collection

**E24**

**E25\***

**E29**

\*With **E25** leg choice the number of seats around the table might be reduced. Please validate your chairs measurements before placing your order.

# EVEREST Collection

## 3" thick table top

### Experience the difference!

Features	Benefits
Our main material: solid North American birch	High quality, long-lasting, carefully selected even-grained hardwood North American birch from sustainable, biodegradable and renewable trees
8-step finishing process	5 steps more than the standard 3-step process used in the furniture industry Superior finish offering much better and longer protection – a solid investment
Toner	Wood grain unified and enhanced, with colour evened
Dinalshield catalysed varnish*	Very hard-wearing varnish added as last coat to ensure greater durability and protection from spills and stains

\*The catalysed varnish takes 30 days to harden completely and be fully efficient. You should be careful and avoid scratching the surface for that period of time.

### Finishing quality

A leader of high performance in wood coating products

#### What is Dinashield?

Dinashield is a premium quality catalysed varnish that has become the standard for lifetime wood protection and durability. In fact, it is the most durable finish available for wood. It will resist moisture and damage from most household chemicals. Catalysed varnish will protect furniture from most spills and stains. We are proud to offer you this high quality finish.

#### Dinashield's performance tests

Heavy stain	<ul style="list-style-type: none"> <li>Hair dye</li> <li>Shoe polish</li> </ul>
Light stain	<ul style="list-style-type: none"> <li>Mustard</li> <li>Ballpoint pen ink</li> </ul>
Slight ring	<ul style="list-style-type: none"> <li>Nail polish remover*</li> </ul>
No effect	<ul style="list-style-type: none"> <li>Water</li> <li>94% ethanol</li> <li>Isopropyl alcohol</li> <li>Naphtha</li> <li>Household detergent (5%)</li> <li>Household soap solution (5%)</li> <li>Javel water (100%)</li> <li>Ketchup</li> <li>Cooking oil</li> <li>Coffee</li> <li>Milk</li> <li>Vinegar</li> <li>Red lipstick</li> <li>Grape juice</li> <li>Wax crayon</li> <li>Whiskey</li> </ul>

The panels were tested 10 days after varnishing. All were placed under a watch glass for four (4) hours unless otherwise stated.

\* 2-minute exposure

### Our 8-step finishing process

**Step 01**  
Toner application for even shade of colour

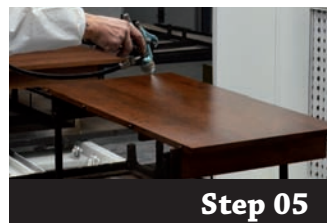

**Step 02**  
Wood stain application

**Step 03**  
Stained finish is hand-wiped

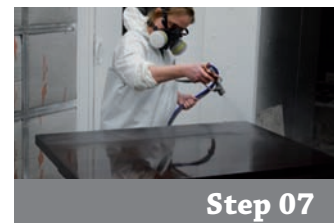

**Step 04**  
Uniformity of colour

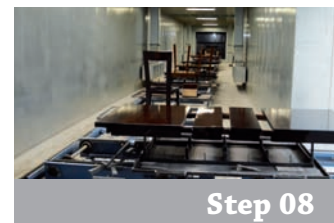

**Step 05**  
Seal

**Step 06**  
Sanding sealer

**Step 07**  
Dinashield catalysed varnish

**Step 08**  
Drying (1h30) at 104 °F
