

WHICH SUPPLEMENT TO CHOOSE?

Considering a supplement to support milk supply?

Let us help!

Drop in Supply / Build Freezer Stash -- Need to optimize breast milk supply for reasons such as: wanting to increase freezer stash, returning to work, baby's growth spurt, or a recent separation from baby? We recommend 1 of the following:

More Milk Plus | More Milk Moringa | Moringa

Didn't See an Increase in Breast Size During Pregnancy -- Or, is there a history of PCOS, IGT/breast hypoplasia, or past breast surgery?

We recommend 1 of the following:

More Milk Special Blend | Goat's Rue

Fenugreek-Free Options -- Many mothers have great success with fenugreek; however, if an alternative is necessary because of a thyroid condition or a sensitive stomach, we recommend 1 of the following:

More Milk Moringa | Moringa | Goat's Rue | Shatavari | More Milk

Adoptive Feeding or Relactation -- Trying to induce lactation for an adopted baby or trying bring back a previously established milk supply?

We recommend 1 of the following:

More Milk Special Blend | Goat's Rue

Delivered Prematurely -- Was the baby delivered prior to 37 weeks gestation?

We recommend 1 of the following:

More Milk Special Blend | Goat's Rue | Shatavari

Period Returned -- Did milk supply decrease or even stop with the return of a menstrual cycle? We recommend:

Shatavari

Pregnant and Breastfeeding -- Currently breastfeeding while pregnant and want to continue breastfeeding? We recommend:

More Milk Two
