

DECAF

LA SERRANIA
COLOMBIA

TASTY AND SWEET

WITH NOTES OF BUTTERSCOTCH, APPLE STRUDEL AND HONEYCOMB

La Serranía Decaf is grown along an isolated set of mountains within the central cordillera of the Andes that go through Pitalito, Acevedo, Palestina, Timaná, and Suaza. This coffee represents the work of more than 50 producers who are committed to quality and excellence.

La Serranía is carefully hand-sorted and processed at each individual farm, with special attention paid to the drying process to ensure consistency, uniformity, and a clean cup profile.

La Serranía Decaf is a Natural EA Decaf Coffee, processed at the Descafecol plant in Manizales. The decaffeination process uses ethyl acetate derived 100% from sugar cane mixed with mountain water, together removing 99.7% of the caffeine present. The beauty of the Natural EA process is that it helps preserve most of the original flavors of the coffee while adding fruity notes and some complexity to the cup..

WE BELIEVE IN HONEST COFFEE

We determined a sustainable, profitable price for the growing longevity with the producer. We've listed the Freight on Board (FOB) price we paid to our origin partner, Caravela. The producers receive the Farmgate price directly for his coffee as parchment. In addition to the FOB, we incur further costs in shipping the coffee to Melbourne, completing a quality assessment, roasting (resulting in a 15% weight loss) and packaging for retail sale. You can read more about the way we source coffee via our website.
