

Waterite presents The Answer.

Presenting the redesigned *TriPlex™* and *DuPlex™* filter systems – The answer for many small system water treatment problems, from seasonal camps to process treatment. With sleek, rugged stainless steel brackets - available in 10" and 20" full flow housings with flow rates to 20GPM. Mix and match cartridges to achieve your answer, from sediment and chlorine reduction to absolute cyst and parasite control. Ask about Waterite's quality line of *Excelpure™* nominal cartridges, our line of *ExcelPlus+™* absolute rated cartridges, and high performance *hypurion* cartridges to assist in your system solution.

Both *TriPlex™* and *DuPlex™* are available featuring ultraviolet disinfection, for added system protection.

TriPlex™ and DuPlex™ available options
