

GOLDSTRIKE™ MIRROR TRIM

Parts Included:	1	Left mirror trim
	1	Right mirror trim

INSTALLATION INSTRUCTIONS:

1. Park on a level surface and shut off the motorcycle. Ensure the engine has time to cool before installation.
2. Clean the front and top of the mirrors with soap and hot water to remove all dirt and debris.
3. **ATTENTION: Thoroughly clean the mounting surface with denatured alcohol to remove all wax, oil, and residue.**
NOTE: New motorcycles are delivered from the factory covered in protective oil. Remove it before installing this product.
NOTE: Do not install if the temperature is below 50° F. The adhesive will not cure properly.
4. Test fit the mirror trim to familiarize yourself with its natural location. The mirror trim is designed to fit at the front edge of the rearview mirrors, above the turn signal lens. (Fig.3)
5. Place masking tape around the edge of the mirror trim so you can see where to install it. (Fig.1)(Fig.2)
6. Remove the red adhesive backing and install the mirror trim. Press the mirror trim firmly onto the surface for 60 seconds. The adhesive cures within 24 hours.

WARNING:

This indication alerts you to the fact that ignoring the contents described herein can result in potential serious injury or death if not followed.

CAUTION:

This indication alerts you to the fact that ignoring the contents described herein can or will result in material damage and/or personal injury.
