

GOLDSTRIKE™ TIE DOWN BRACKETS

Parts Included:

- 2 Tie Down Brackets
- 2 M8 x 30mm Screws

Installation Instructions:

1. Remove the two circled screws with a 5mm allen and pull off the plastic cover. (Fig. 1)
2. Remove the two circled factory bolts. The silver one will be re-used. (Fig. 2)

3. Determine left and right sides marked on the bracket and install with the tie down hook at the top. Use the included M8 screw in the top hole and the factory bolt in the lower hole. Finger tighten and ensure the bracket is laying flat against the mounting points. Torque each bolt to factory specification. (Fig. 3)
4. Reinstall the plastic cover removed in step 1. Note that this cover may be trimmed on some bikes in the circled area to increase clearance between the bracket and cover. (Fig. 4)

5. Perform steps 1-4 to install the opposite side bracket. When complete, check the function and rigidity of the brackets to ensure installation was completed correctly.

WARNING:

This indication alerts you to the fact that ignoring the contents described herein can result in potential serious injury or death if not followed.

CAUTION:

This indication alerts you to the fact that ignoring the contents described herein can or will result in material damage and/or personal injury.
