FREEDOM BEGINS AT HOME

We believe that the space around us affects us in a direct way: beautiful and creative surroundings stimulate our development and make us more attentive. That is why we want to provide the best possible environment for our children, enabling them to grow to their full potential and be free. Our furniture and accessories have been designed to let you welcome your little one safely and comfortably into your home.

DEAR MUM, DEAR DAD

We know how important the moment you are waiting for is. Don't worry, we are well prepared for it. Choose VOX to make sure that your interior will look exactly how you want it to. All this is possible because we first examine your needs thoroughly and then – during the design process – create furniture that is not only beautiful and safe, but also grows with your child. We rely on what experts say, including teachers, psychologists, physiotherapists and midwives. We also listen to parents. Supported by such a great team, we are getting more and more convinced that the value of our products is multidimensional, and we are striving to achieve even more. Now we go a step further by starting to design products such as doors, floors or decorative walls. All of them are safe and of high quality, they also match our furniture collections perfectly. As a result, our stores are where you can furnish your baby's nursery from A to Z by yourself, including creating a design in the form of a visualisation. We also remembered about the details that allow you to make every room warm and cosy. That is why VOX offers decorations for your little one's nursery – lamps for mood lighting, soft bed linens made in Poland using top quality fabrics, warm blankets with certificates, frames for your pictures together, and many more lovely items that are absolutely necessary for all of you to be happy.

Come and visit one of our many stores in Poland and abroad.

TULI

A Tuli room is a place where your child can explore the world on his or her own. This collection features articles that are just right for those little hands and for the motor skills that are constantly developing.

COLOURS FOR YOUR INTERIORS

Selecting the right colours for your interior is already half the battle. Take a look at our inspirations, presented according to the Natural Color System (NCS):

TABLE AND STOOL

Slide the stool under the table to save some space and tidy up the play area.

I CAN DO IT ON MY OWN

A Tuli room is a child-friendly place, adapted to the child's needs and capabilities. The bookcase has open shelves at an appropriate height, allowing your little one to see everything that's inside and easily reach their toys and books. Every shelf has a label where you can draw a pictogram that would make it easier to put toys and other items where they belong.

WHEREVER YOU GO, THEY WILL FOLLOW

Your child wants to be with you no matter where you are or what you are doing — be it cooking, working or cleaning. By mimicking adults, children learn new skills. Tuli tables and stools can be moved around the house to help you play together. You no longer need to put extra furniture adjusted to your child's height in the living or dining room. Just take Tuli with you to where you are in at the moment.

IDEAL FOR CHILDREN-FRIENDLY PLACES

The Tuli collection has also been designed with public spaces in mind. It can be an alternative to traditional creative corners that you can find in cafés, shops or museums. Thanks to its simple modern design, Tuli blends well with any interior. The furniture is light and handy, so you can quickly and easily set and fold it up. By stacking stools and tables, you can gain additional space for storing bits and pieces. Slide the stool under the table to save some space and tidy up the play area.

2 STACKING STOOLS

By stacking stools and tables, you can gain additional space and quickly clean up children's room.

With Concept furniture, age doesn't matter. Use it to furnish a room for children at different stages of development. The little ones have a cot, a chest of drawers with a changing table and a bookcase for storing the most necessary accessories and baby care products, while the older ones — a small divan and a spacious wardrobe. Every parent knows that time rushes by very quickly. Before you even know it, a smaller cot will turn into a sofa for a toddler, and a larger one (140x70) into a divan for a little boy or girl.

They will hold whatever you need: clothes, blankets, nappies or baby care products. Many parents embrace the philosophy of attachment parenthood and turn their bedroom into a place for three — mum, dad and baby. That is why the Evolve collection has been designed with great attention to aesthetic qualities.

WHAT IF THE WHOLE TINY WORLD OF YOUR BABY WAS MOBILE?

That was exactly what we were thinking of while designing a moving cot bed 4 YOU. When the baby becomes a part of your life, you can easily bring a cot bed to your canopy bed. It is possible due to an easy to dismount side of the cot bed and the perfectly matching bases of the two beds. Now, the family mornings can start with the family being together!

4 YOU

It is a room for great discoveries! When the time comes, every step will become a new challenge, and a true adventure will start right in the baby's room.

GABBA ARMCHAIR

An ideal armchair for a child's room, which also proves as a comfortable place for feeding the baby.

MINT BLANKET AND PILLOW

WE KNOW WHAT A SMALL HUMAN BEING NEEDS – FREEDOM

By removing three bars from a cot bed you will open the very first door to the world of small but great discoveries for your child. The bed offers three possible heights for adjusting to your child's changing needs. Now the baby can freely travel around the room and get to know their space. And you will make a good use of the big, comfortable changer over the gap between the dresser and the he wall.

4 YOU

First read books, first diary pages filled with words, first CDs with favorite songs. It's a good moment to choose the furniture and accessories together with your child.

A DANDELION CLOCK PATTERN

A soft cotton bedding with a dandelion clocks pattern, decorated with a yellow edges.

BISO DESKTOP LAMP

A stylish desktop lamp, which will become an original accessory in your interior due to its interesting shape.

THREE IN ONE

When your child will slowly start to enter the adult world, the room will change as well. When the child does not need the bars anymore, you can turn a cot bed into a child bed and a desk. Impossible? Not anymore! When you turn the frame of the cot bed upside down, you will create a stable and safe desk. The bars may be used as hangers for organizers, which will keep important little objects in order. The dresser, now without a changer, will be a perfect storage for clothes and toys. The room will be complemented with a bookcase: the place for your child's favorite titles.

FURNITURE WILL BE USEFUL FOR A VERY LONG TIME!

In a collaboration with experts in psychology, anthropology and sociology we have conducted extensive research related to needs of children, adolescents and their parents. The collection which has been designed as a result of said research overcomes contemporary thinking: it keeps up with the age, demands and interests of your child. The possibility of changing the appearance of the whole collection makes the furniture grow up alongside with their user – from the colorful children's room, through the inaccessible adolescent's territory, until a functional flat for a single or a couple.

ACCESSORIES AND TEXTILES

Decorations make your baby's room look warm and cosy. That is why we have something very special for you – lamps for mood lighting, soft bedding made in Poland using top quality fabrics, warm blankets with certificates, frames for your pictures together, and many more lovely items that are absolutely necessary for all of you to be happy.

FOR EVERY MOOD

Mr Moods is a cuddly toy that adapts to your baby's moods. It's up to your little one to decide if this soft friend is happy, sad or sleepy. Mr Moods is a perfect companion when travelling around the world of shapes and textures.

Mr Moods is neither a cat nor a fox, but its shape is so versatile that just a bit of imagination is enough to turn it into your child's favourite pet. There are ribbons at the top of Mr Moods's arms. Small children love to play with them, while the older ones can try to tie them in a bow.

MR MOODS – A CUDDLY PILLOW

Using Mr Moods's arms, your child can cover or uncover these lovely embroidered eyes to show his or her own moods.

Mr Moods can have a soft pillow inside, or you can fill it with groats, rice, sand or beans to enhance your child's sensory development. Use Mr Moods as a bed warmer by filling it with warm cherry stones or mustard seeds which are very good at retaining heat for a very long time.

ANNA DUSZA FOR VOX

With our smallest and cutest customers in mind, our favourite illustrator, Anna Dusza, created a collection of textiles, pictures and wall stickers.

WALL STICKER – FLOWERS

Decorate the nursery wall with lovely flowers to stimulate your baby's imagination and to brighten up any interior.
