FREEDOM BEGINS AT HOME

At VOX, we believe that true freedom begins at home and rather than a defined interior style, what really matters are the needs and lifestyles of your family members. That's why it is our goal to inspire, advise and deliver complex interior solutions - matching collections of furniture, doors, floors and wall systems.

HOW TO ARRANGE A WHOLE INTERIOR

A beautiful home can be created in various ways. Therefore, we have been working for years on solutions for designing personalized spaces that suit everyone's needs. And so our library of materials was created - you can find it in chosen VOX salons. It allows to compare hundreds of real textures, fabrics, colours and accessories. This is how we make it easy to fulfil individual visions and turn the usually arduous task of choosing matching floors, doors, walls and furniture into an aesthetic adventure. All this, in order for everyone to be able to live how they want.

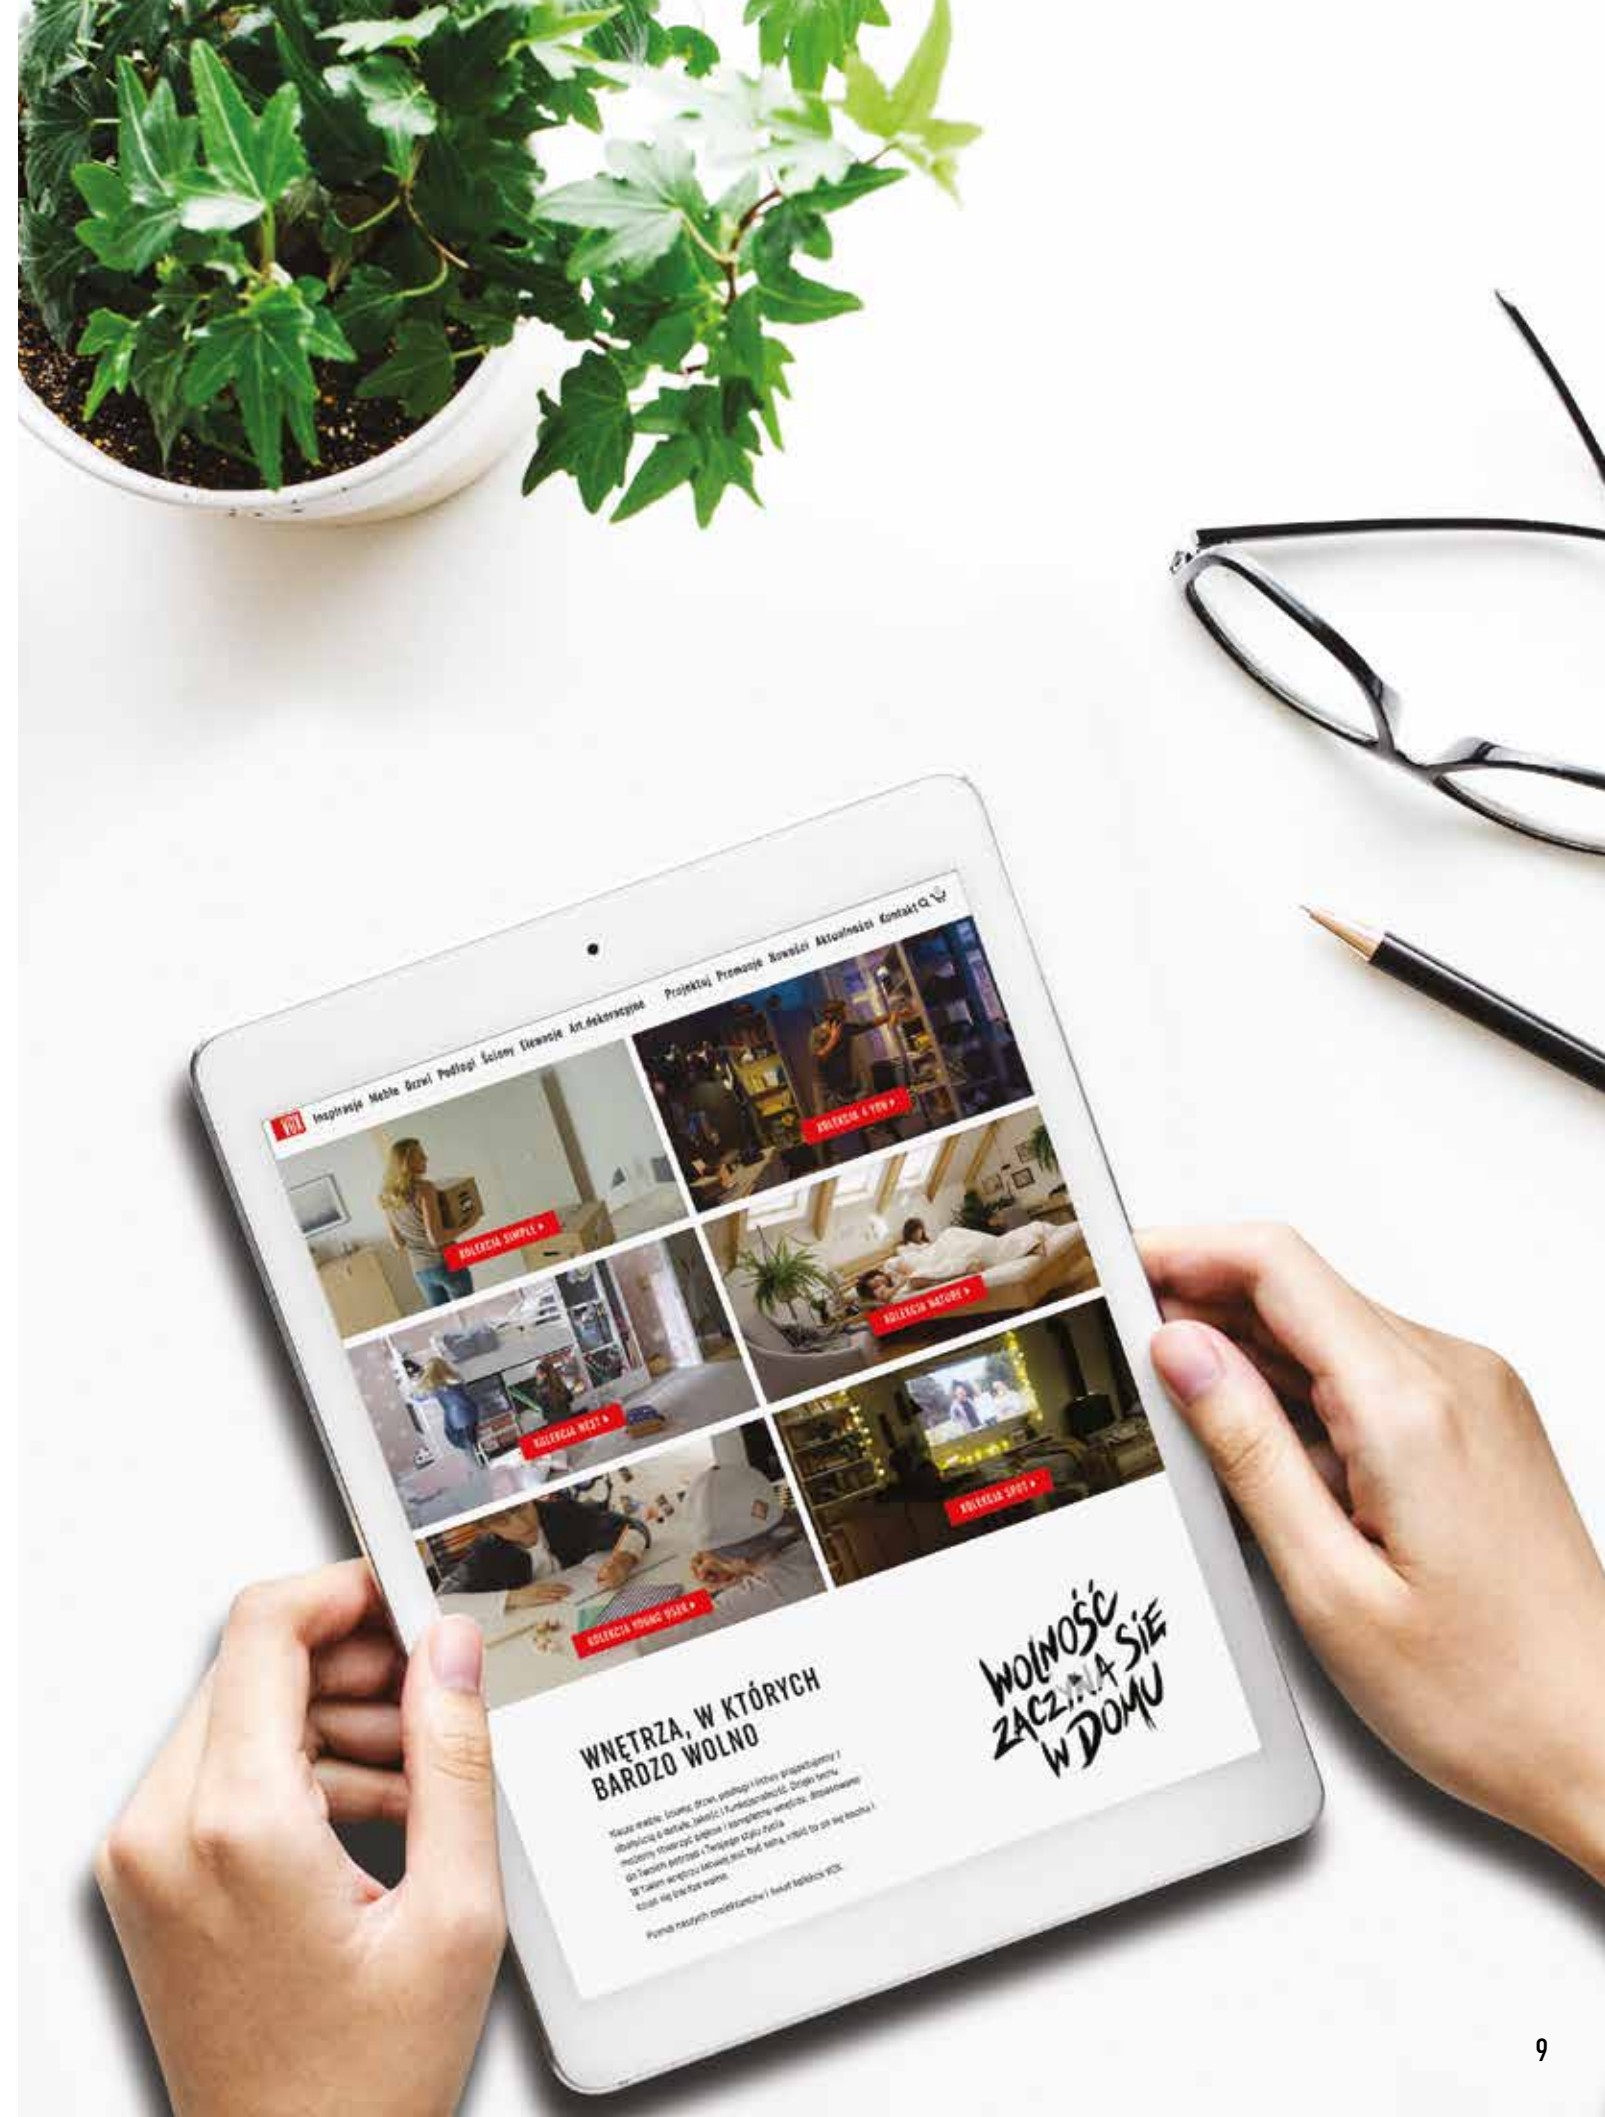

THE WORLD OF VOX COLLECTIONS

When designing our collections, we follow your needs. Go to vox.pl or to our YouTube channel - VOX Interiors and check out the videos presenting Simple, 4 You, Nature, Spot, Young Users and Nest. Meet the designers behind the collections. Find out what challenges they had to overcome to create furniture adjusted to your needs. Discover the functionality of our products, see the clever solutions they contain. Get inspired and create a beautiful interior to fit your needs and lifestyle.

NEW **CREATIVE SYSTEM.**
TURN DREAMS
INTO FURNITURE.

Creative System
 Catalogue

Following the changing world and various lifestyles of our clients, we have designed a new furniture system that grants almost unlimited possibilities of configuration. Thanks to this system, you will create exactly the kind of furniture you need. A rich colour palette, various types of legs and handles - we have thought it all through so that you can arrange your dream interior. In 2021 it was awarded the prestigious quality mark for best innovations proposed by Polish designers and producers.

HOW TO CREATE YOUR DREAM FURNITURE WITH CREATIVE

YOU HAVE A CHOICE OF 11 FRONT AND BODY COLOURS:

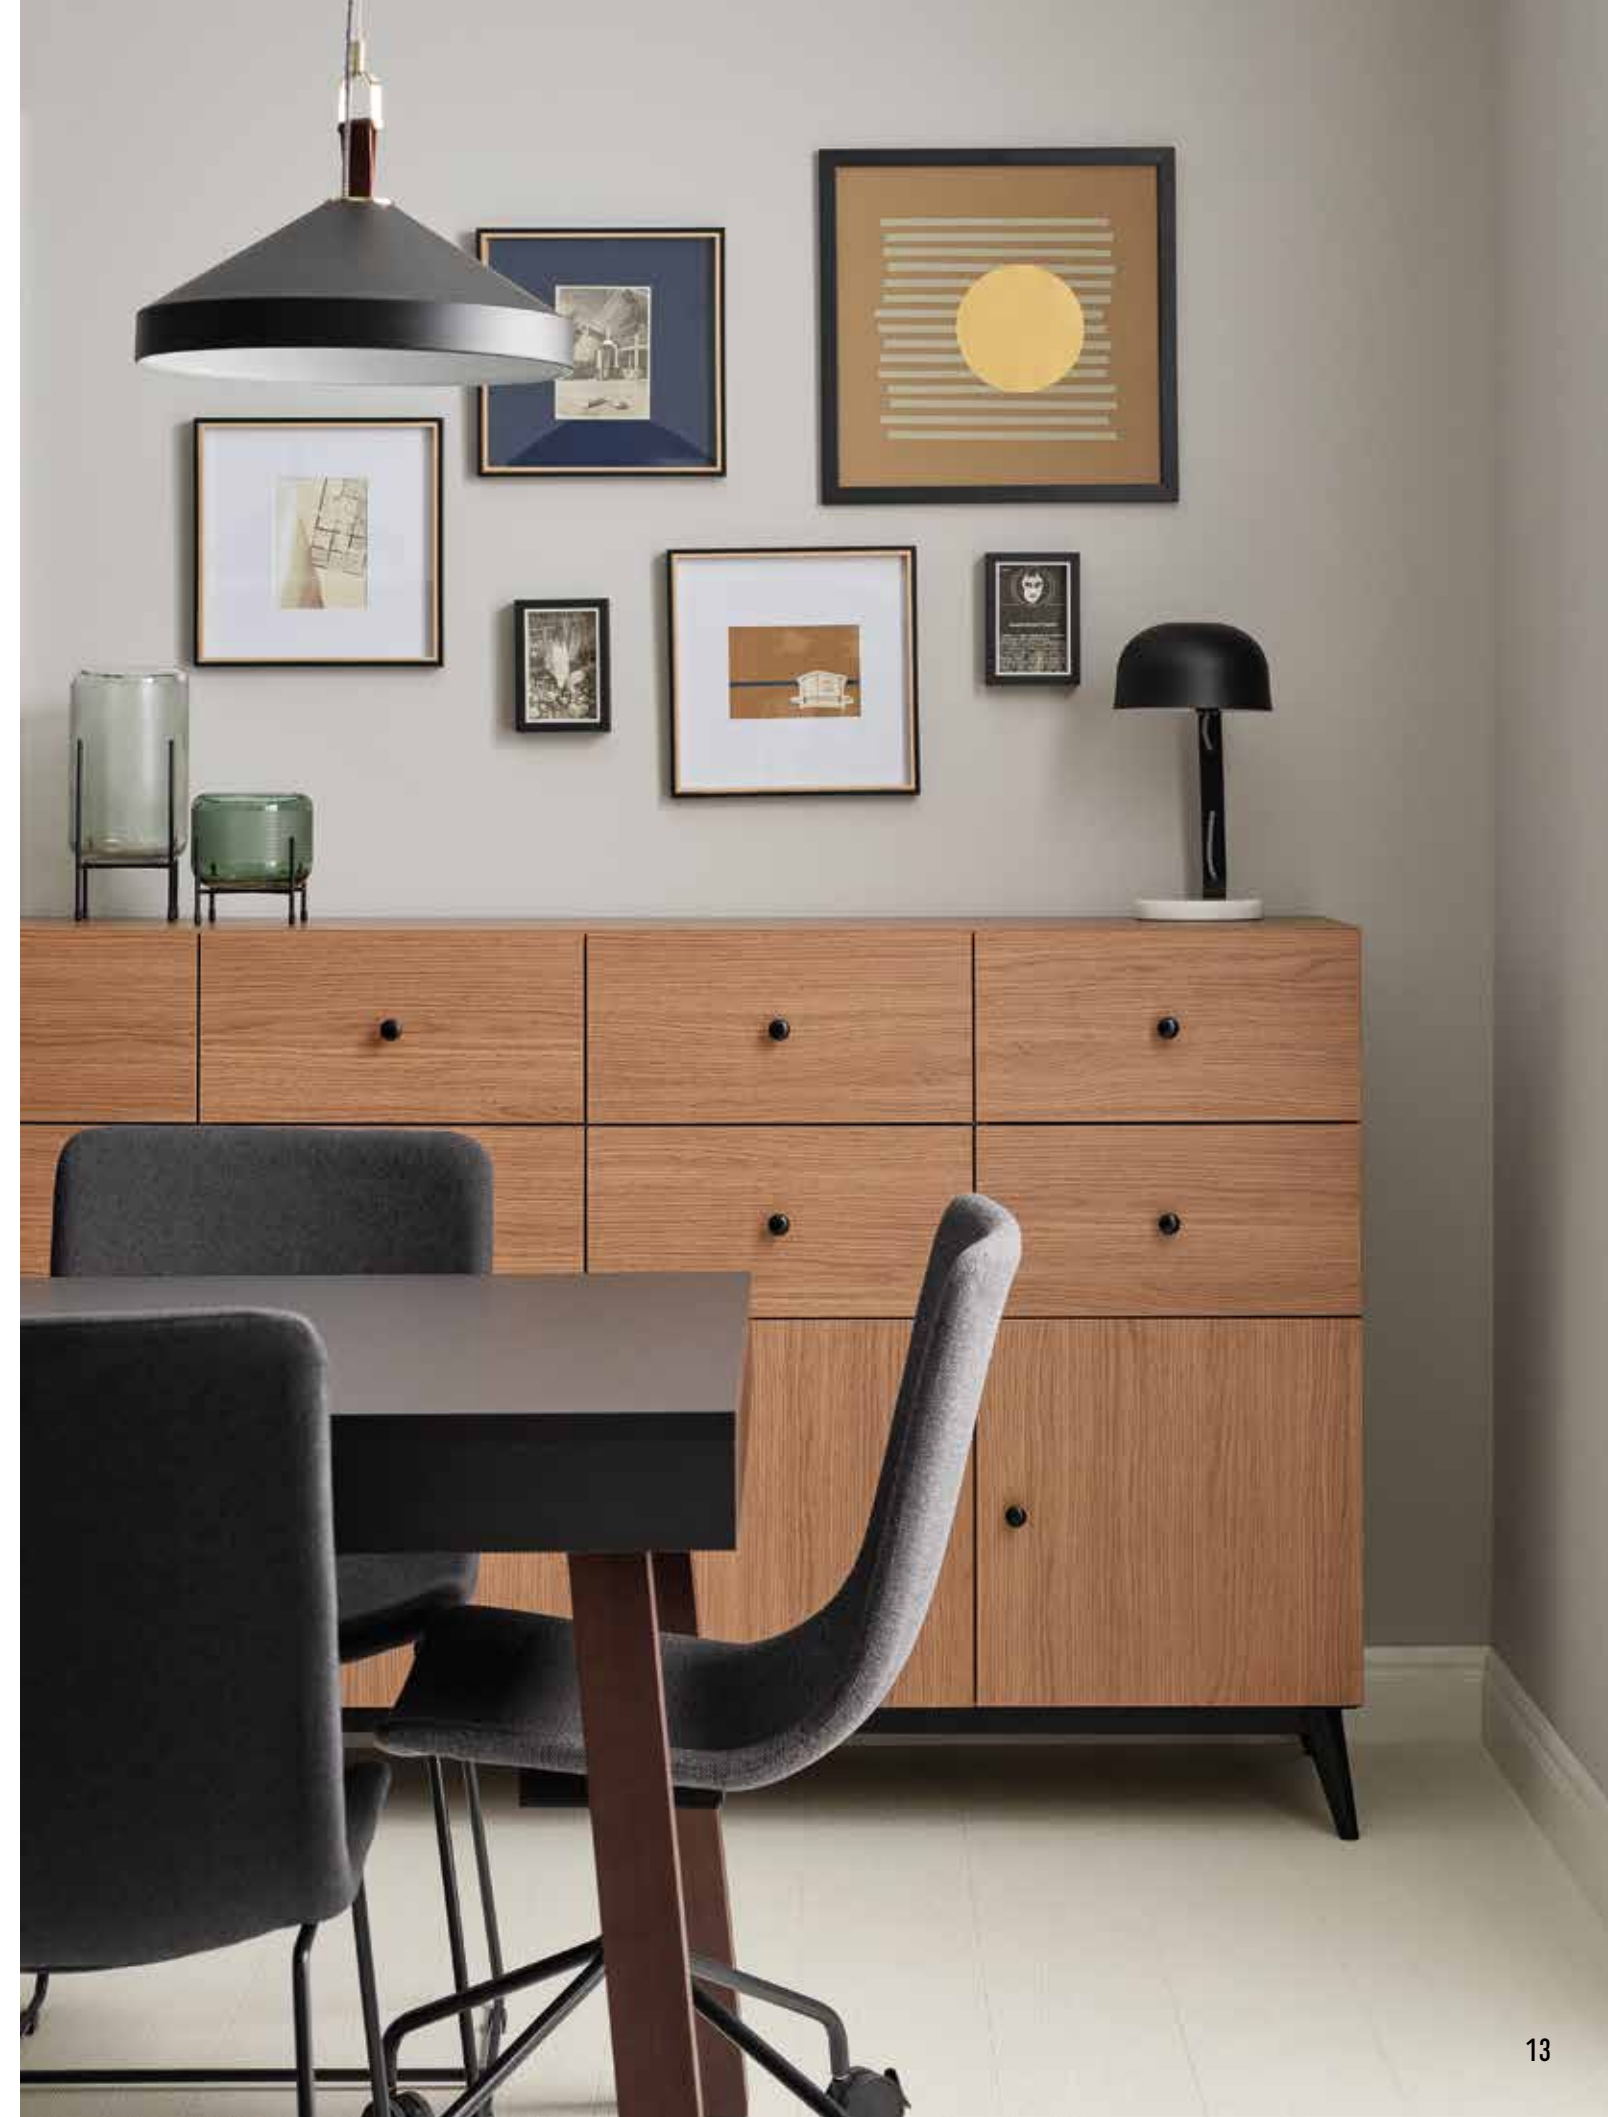

YOU HAVE A CHOICE OF 12 TYPES OF HANDLES

YOU HAVE A CHOICE OF 12 TYPES OF LEGS

11 body and front colours, 12 types of handles including a push-to-open option, 12 types of legs. This wide palette of choices will allow you to create furniture perfectly fitted to your needs. You can create from scratch or use our ready-made compositions and change just some elements such as the colours. Feel free to experiment. The configuration tool won't let you design non-functional furniture.

CHOOSE A READY-MADE OPTION AND ALTER IT AS YOU PLEASE

Creative is a system of unlimited possibilities. To make your choices easier, we have prepared ready-made options in the configuration tool. We have suggested a given colour, layout of shelves and cabinets, legs and handles. If you like one of the suggested options as it is, you can order it straight away. You can also freely change any feature to make it into your perfect piece of furniture.

CHANGE

You can change any aspect of the suggested configurations. Move the doors and shelves as you please in your wardrobe or bookcase. Experiment with colours, test various options of handles and legs. A small alteration can completely change the character of the furniture piece.

ADD

By removing certain elements, you can alter the functionality of the piece. Remove a door to get more open storage. Instead of handles on the doors, you might decide to go with the push-to-open system.

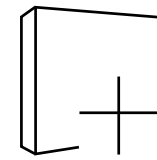

REMOVE

Do you prefer storing things in drawers or on shelves? Or maybe your most needed element is a steel bar for hanging clothes?

CREATE YOUR OWN

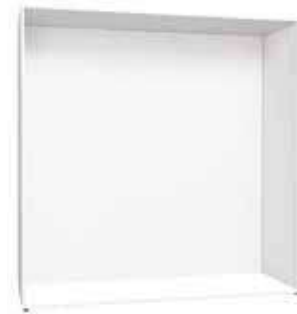

1. CHOOSE READY-MADE FURNITURE OR CREATE YOUR OWN

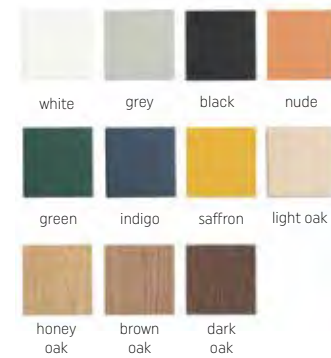

CREATE YOUR OWN

Creative is a furniture system of unlimited configuration possibilities. Create a piece of furniture just for you - exactly the way you want it - or use the sets we have prepared for you. Change the layout of the pieces or their appearance. A rich colour palette, many types of handles and legs - we have thought it all through so that you can create your dream interior.

SITTING ROOMS

The sitting room is a place where you... live! It is where our daily lives go on, where we need comfort, which plays a key role along with aesthetics and functionality. What is your definition of comfort?

Moderate minimalism, an eclectic storm of colours, or a home oasis of peace? Here are our proposals made in Creative System. Find your inspiration, create a space that will fulfil the needs of the whole family and let everyone find their place of comfort.

Creative System allows to create incredibly diverse worlds. By choosing subdued colours, you can create a serene rest zone. On the other hand, going with vibrant green or saffron will take you on an exciting journey to the warm South.

DINING ROOM

For some a dining room is mainly a place to have their meals, for others - an open, multifunctional area where they celebrate their everyday lives, one where practically everything happens. Our expectations towards the dining room should be the main factor marking the direction of its arrangement. Do you want the dining table to play the main role in your house or do you prefer it to be part of a big living room, always full of life? Is it your goal to achieve inner peace or a vibrant space bursting with energy?

A dining room brings us together not only for family meals. It's the epicentre of home chaos where we engage in various activities. If you want your family and guests to always feel comfortable at your dining table, make sure the surrounding space is full of harmony and well organized.

The Creative colour palette will allow to arrange a subtle, soothing dining room as well as a vibrant, energetic management centre of home affairs.

The table is the key element of the dining room. A white tabletop will perfectly stand out against a background of natural wood coloured furniture. To showcase it even more, choose legs in a similar tone in the Creative system.

By putting together two dressers with 8 drawers each, you will achieve an extraordinary visual effect and lots of storage space.

BEDROOM

You should arrange your bedroom with great care. The place where we begin and end every day should be our home oasis of tranquility and comfort, which means something different to everybody. Some feel best in bright, minimalistic interiors, others need the depth of dark colours to fully relax, and there are also those who want to wake up to vibrant colours that awaken all senses. The possibilities of Creative allow to fulfil all these needs. What bedroom do you dream of?

STUDY AND HOME OFFICE

At a time when working from home more and more often becomes our everyday reality, it's a good idea to provide a space allowing to focus in peace. A home office in an especially designated room or a work corner in your bedroom or living room? The possibilities are plenty. Sometimes a desk and bookcase are enough to create a perfect work space. And if you are arranging a professional office, you can endow it with a friendly home atmosphere. This will make it a place you happily return to. See for yourself that even the smallest details from Creative have the ability to transform an interior into one where work will be sheer pleasure!

You don't need a separate room to create a perfect desk for your work. A little corner or compartment is enough to organize an office space that will be divided from daily home chaos. All you need is a comfortable and appealing desk that will make your work sheer pleasure.

From time to time, we all need personal space. Sometimes it has to be set up quickly only to be disassembled shortly after. Especially when home office and school use the same table. Our felt screens allow to divide one's space easily. Depending on your needs, you can use simple screens with metal stands or folding screens that can be shaped as you wish. All come in three colours: orange, green and grey. Just choose your favourite type and colour.

What space works best for you? Do intensive colours invigorate you at work or do you prefer subdued, calming colours? The Creative palette makes it possible to create a desk matching your needs. You can choose an option with one drawer, a few smaller ones or just a spacious open recess. The final touch will be completed by choosing handles for the drawers - gentle wood, slender metal or soft leather? The choice is yours.

RIBBON COLLECTION

For those who appreciate beauty and want to be surrounded by it, and for those who besides the functionality, enjoy the aesthetics of things, we have prepared something special. The geometric shapes of the Ribbon collection will bring a new lighter dimension to your interior. If you believe that both beauty and elegance come from simplicity and you would like to smarten up your interior, you couldn't have come to a better place

Feeling overwhelmed by the weight of traditional shelves and bookcases? Ribbon, thanks to its numerous openings, will give you a feeling of space. The bookcases will display your favourite objects: books, flowers or souvenirs from your journeys. The coffee table modules can be put together as you wish and easily move around.

The innovative approach towards furniture design has won the jury's approval. In 2019, the Ribbon collection won an award at 'Dobry Wzór' - a competition organized by the Institute of Industrial Design. It is a contest that distinguishes design products and services of highest quality.

A GENTLE CONNECTION

Ribbon will add a new twist of sophistication to your familiar living room or home office. Like a work of art, it will draw the looks of your guests. Warning: it could become your favourite furniture piece. The Ribbon Collection has been appreciated by the jury of 'Must Have', a competition held during the 13 Łódź Design Festival. In 2019, it received an award for best solutions by Polish designers and producers.

You don't have to go all in right away. The Ribbon collection furniture pieces look great solo, too. The elaborate bookcase will beautifully blend in with an already arranged interior.

The ready-made elements of the Ribbon collection are made using a unique technology: they are in the form of a ribbon with soft, subtle edges. The openwork shapes will bring order, clarity and balance to your interior.

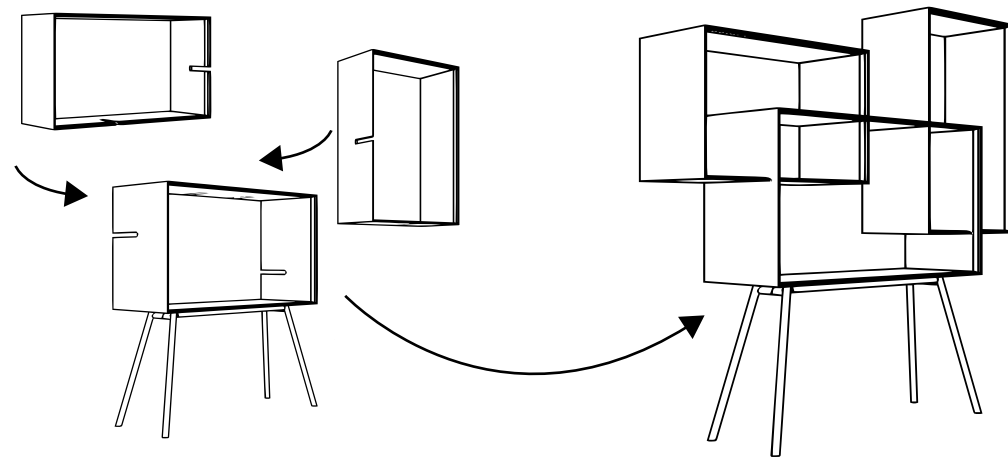

STEP 1:

Unpack the set of elements and find out how easy and pleasant assembling furniture can be.

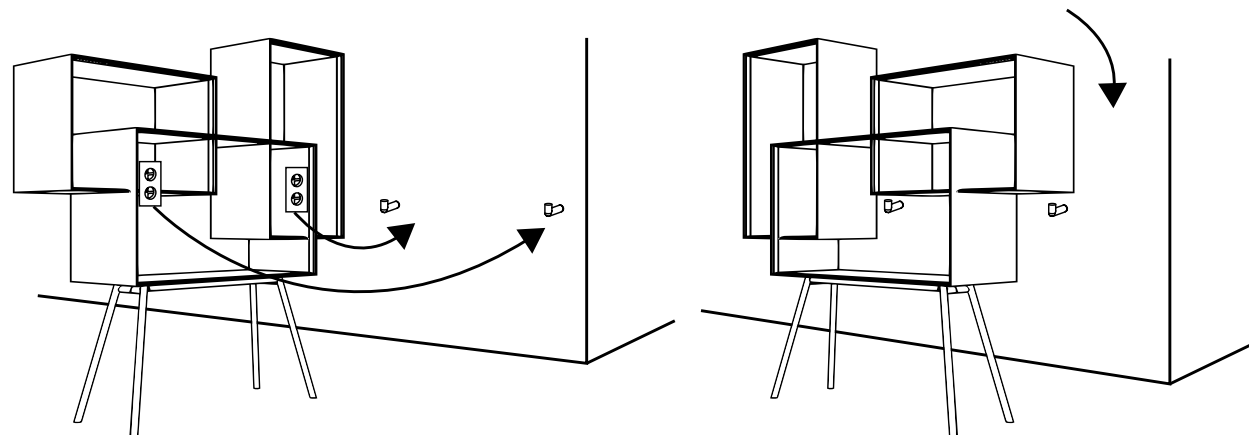

STEP 2:

Connect them by sliding one element into the other.

STEP 3:

Attach the legs and fix the bookcase to the wall.

SIMPLE COLLECTION

See video

The Simple collection furniture can be arranged in many ways, putting together colours and choosing the legs. Everything fits together here. We have checked it, and we know that any possible configuration looks great. Thanks to Simple you can create different interiors, all according to your taste and needs.

A TABLE THAT CAN MEASURE UP TO ANY PARTY

The handy 4 seat table easily extends (from 1.1 m to almost 2.1 m) to one that can host 8 guests. The round shape balances the geometrical forms of this collection and provides a warm, homely atmosphere. For those who prefer more festive gatherings, we have prepared the square and rectangular extendable tables.

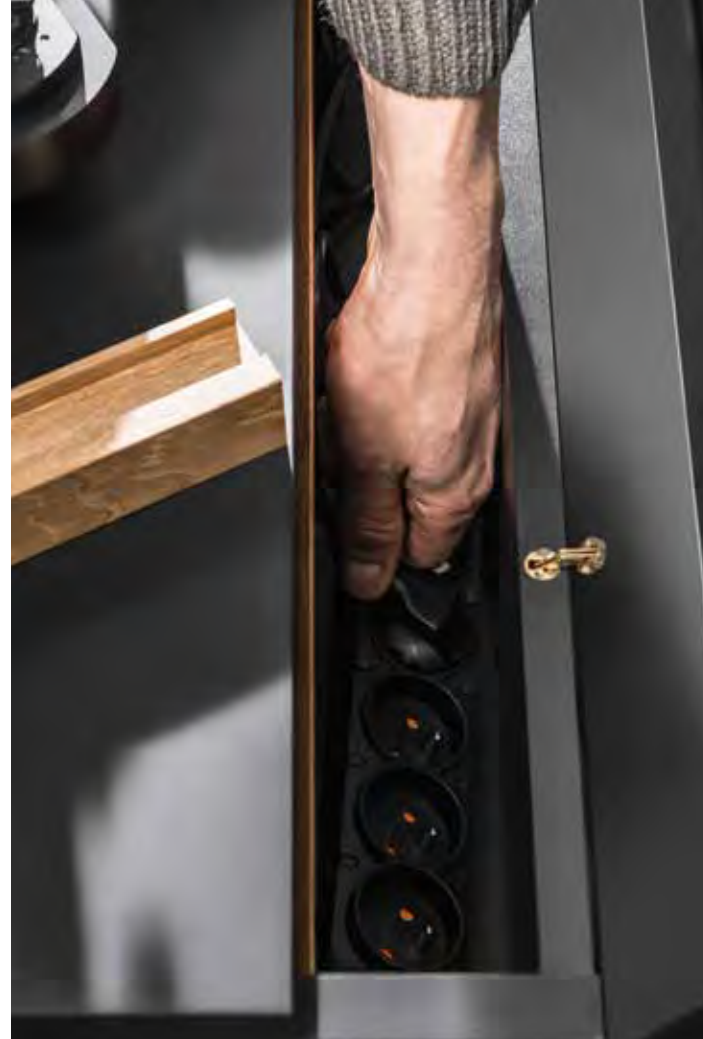

IN THE BEDROOM EVERYTHING RESTS WHERE IT SHOULD LAY

The bed from the Simple collection will fit into your interior. You can choose the right width from five available sizes: from 90 to 180 cm. Under the liftable bed frame you can keep your extra linens. An upholstered cushion hung on the headboard will allow you to wind down before sleep with your favourite book. Don't forget to choose the best mattress for your needs.

SHINE ON, YOU BEDSIDE TABLE!

A good bedside table puts all the little things in order. That's why in the Simple table you will find a recess and a matching functional slat with room for your phone, a picture frame, or notes. In the recess, you can also hide a power strip with wires and cover it using a neat oak lid. The warm discreet lighting in the top drawer will make it easier to find things. All you need to do to switch on the light inside, is touch the tabletop.

ALL IS SOUND WHEN THE INTERIOR IS IN HARMONY

We have solved the problem of tangling wires once and for all by creating a clever organizing compartment in the TV unit. The TV unit has a recess in which you can hide the power strip to plug in all devices. Nothing can be seen but everything can be heard. A living room can also use a well organized liquor cabinet. The light switches on automatically when you open the folding door. Special grips will protect your wineglasses and the sliding shelf is a handy place to put your glasses.

4-DOOR WARDROBE

A VERY ACCOMMODATING WARDROBE

With a wardrobe like this, all things will fall into place. And thanks to a backlit inside they can be easily found. Handy folding doors don't take much space and allow to access everything quickly. The inside has been designed to enable storing all kinds of clothes and shoes. If you want to alter the default layout, you can do it very easily. It will take a moment to place them at chosen heights. Simple offers four kinds of wardrobes from a 1-door unit, through a corner option to a spacious 4-door wardrobe.

FURNITURE YOU CAN COUNT ON

The designer has calculated, measured and double-checked everything so that we know what is used where and when in the house. And so we created some of the best thought-through and helpful furniture pieces. The folding door of the sideboard save space and grant easy access to all contents. It can serve as a tall TV unit. And the tables with their hidden drawers will store all remotes, chargers and other little items we usually have no good place for.

WE'VE MEASURED UP TO THE DESK

At this desk, the designer has measured all the most commonly used office supplies and adjusted all its dimensions: the volume of the drawers, the height of the shelves, the depth of the cabinet, the size of the desktop. She also checked what you usually keep on top of your desk and created the perfect storage system: a functional slat. Choose the best set for yourself at vox.pl

HOME WORK

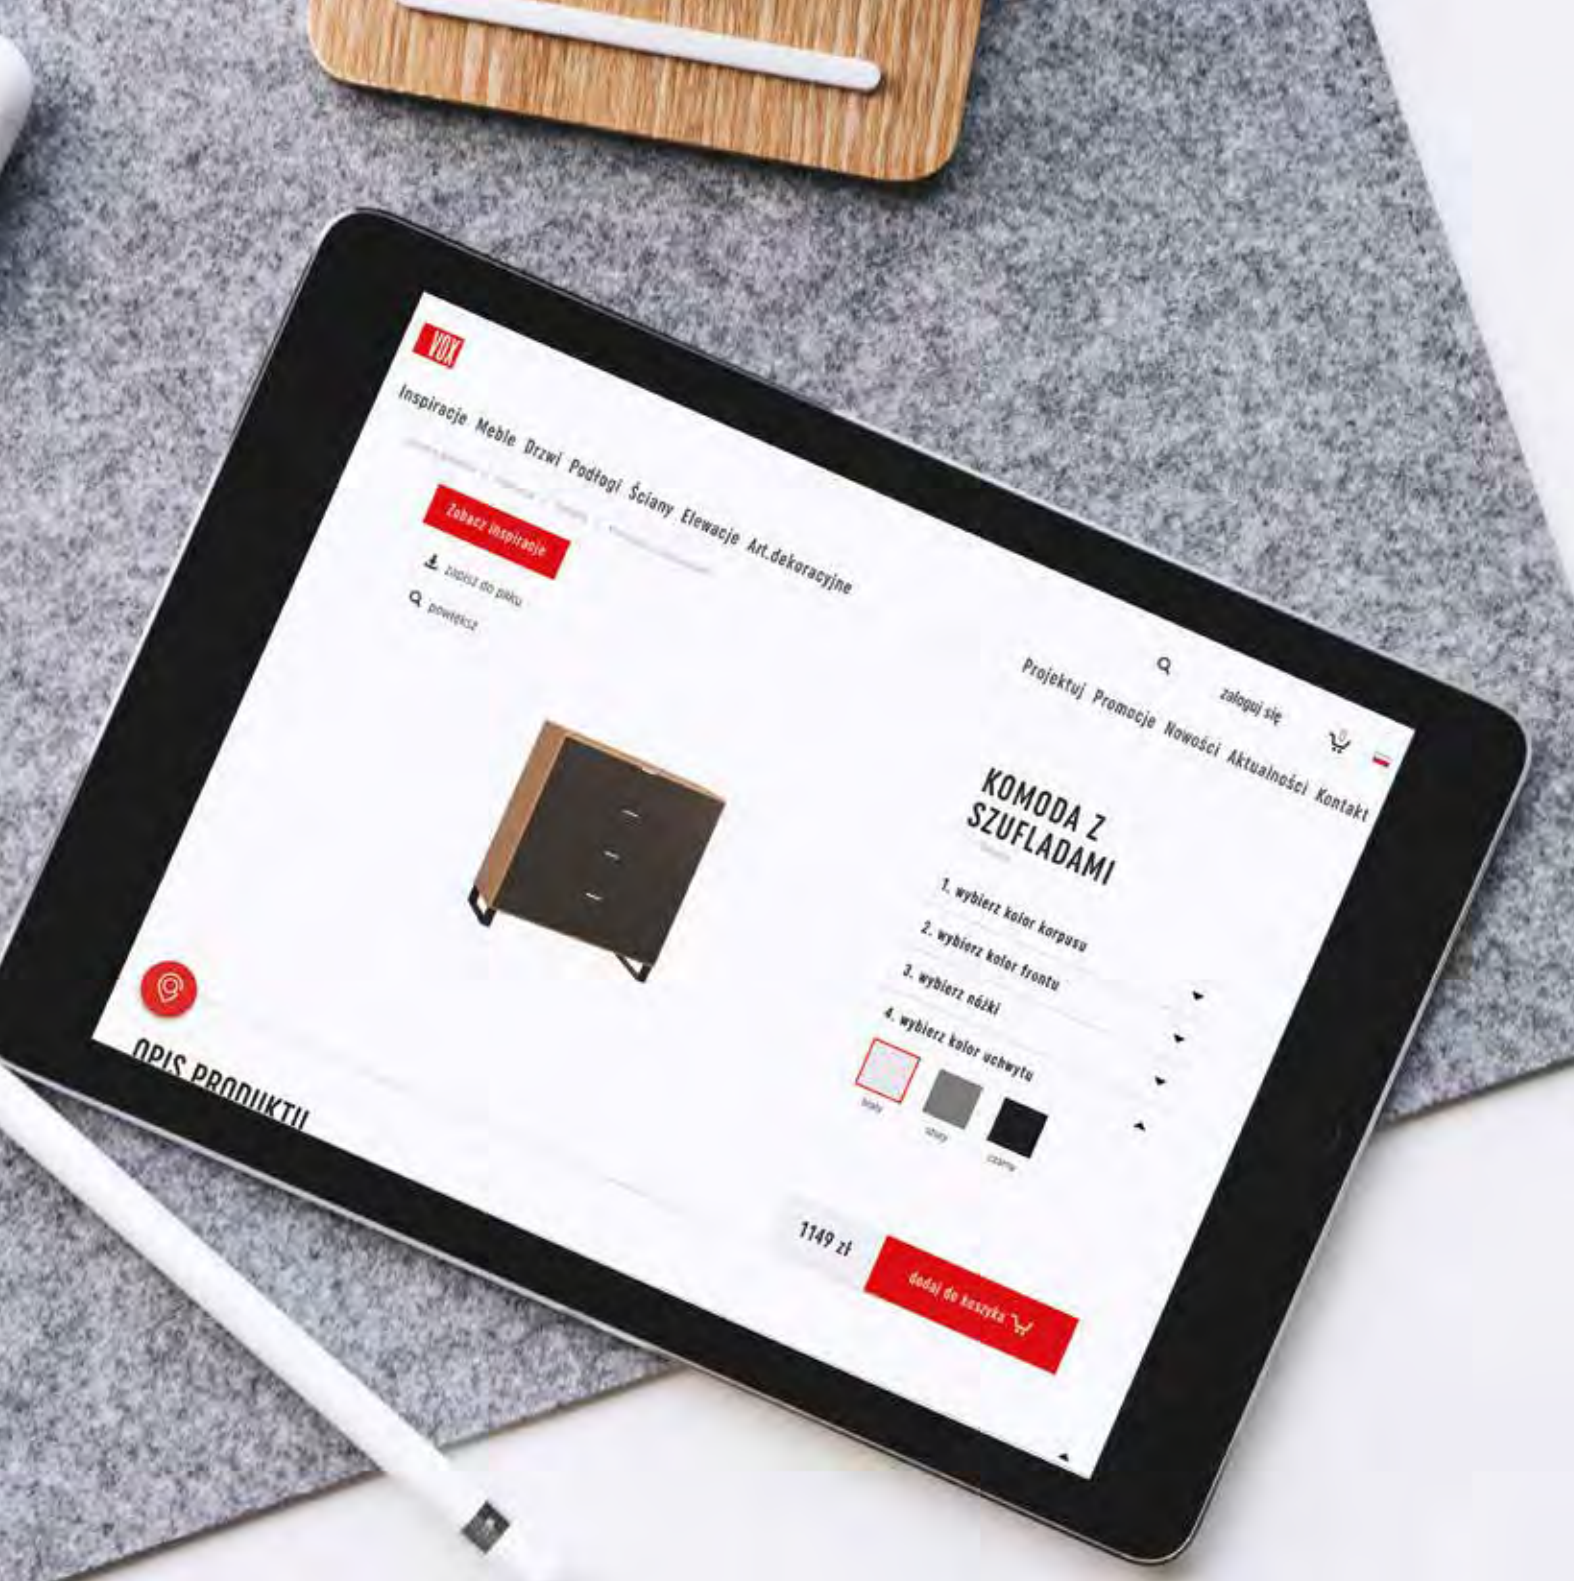

Any work will be easier and more pleasant in a well-organized space. The height of all shelves in the bookcase can be adjusted to the size of the objects you want to store on them.

A TIMELESS COLLECTION FOR THE BIG AND THE SMALL

Simple is one of our unique collections bringing all generations together. It will let you create a coherent interior that suits the needs of everyone in your family - from a baby room, through a teenager's realm to the parents' bedroom and dining room.

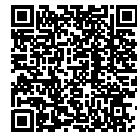

YOUR EVERY MOVE WINS

The furniture from the Simple collection can be arranged in many ways, putting together colours and choosing the legs and handles. Everything fits together here and any possible configuration looks great. Thanks to Simple you can create different interiors, all meeting your taste and needs. How is it possible? Simple was created according to the ten iconic rules of design by Dieter Rams, where the product's purpose is to give the user the freedom for realising their ideas.

NATURE COLLECTION

See video

The Nature collection was inspired by the love of natural materials and the conviction that any space can be wisely and beautifully used. Nature will easily match all kinds of interiors: large open spaces, those classically divided into rooms or even the smallest ones that require exceptional care when being arranged. The solid shapes can fit a lot in and the skew wooden legs carrying them will add lightness to the room.

IT'S WOOD, NATURALLY

Natural materials change and mature together with us. The oak tabletop will accompany you in your everyday life, will encourage everybody to spend time together and will awaken memories. The metal recess is a handy place for herbs, spices and after covering it with a metal lid, you can rest hot pots on it.

**must
have**
SELECTED BY LUXE DESIGN FESTIVAL 2017

Must have is a prestigious award for the best Polish designers. It's a quality badge given by the Council of Experts associating top designers. It's a consumer recommendation - the awarded piece is worth having. In 2016, the 'Must have' label was awarded to the Nature table.

DIVIDE THE CONQUER THE DECOR!

It takes some skill to divide a large space without closing it but rather opening it for many new possibilities. The two-sided bookcase will subtly divide large spaces assigning them with different functions.

MULTIPLE SOLUTIONS

Live and mix: put wider pieces together with narrow ones; the fully closed with the open or two-sided. Choose the front colours: white will bring in Scandinavian minimalism, oak will give the interior more warmth.

FACING LARGE SPACES

Putting together even the most various pieces from the Nature collection will let you enjoy a coherent and harmonious interior. Using two different harmonizing front colours will break the monotony, which works great for large spaces.

The dressing table can serve as a desk during the day and in the evening, under the slow-drop desktop, you will find a mirror that will help you prepare for going out. Then just pick a suitable outfit from your spacious 3-door wardrobe and you're ready to go!

CLOSE TO NATURE

The oak headboard of your bed and its wooden legs will introduce a mood of tranquility to your bedroom. Thanks to the subtle colours and modest aesthetics of all the Nature pieces, this exceptional interior will become your favourite in the whole house.

FOR WORK OR NOT

Writing a memoir? Catching up on some backlog? Building model airplanes? The Nature Desk is a helpful companion in any situation. Its size and shape don't overwhelm the interior while its worktop (130x60cm) allows for a lot of freedom. It contains a covered recess with space for wires and an electric board. The double-sided drawers - coloured white and oak - complete the set. They have no guide rails so after removing them you can use that space for storage - or you can use just one of the drawers. Naturally.

SPOT COLLECTION

See video

Spot will charm you with its light form and will help you organize your bedroom, living room and dining room. The slender geometric shapes in natural colours offer plenty of space for things you don't want to have on display. Clever solutions and ergonomic shapes are a perfect foundation for a little bit of flair such as your favorite accessories like blankets, cushions, books or crockery.

PURE PLEASURE AND COMFORT

Spot brings much more into your dining room than just a unique look. The comfortable table on wooden legs can be extended to a chosen length. How many times have you lacked space for spices, napkins or cutlery? The practical compartments in the middle of the tabletop are the perfect space for all dining room bits and pieces.

COUNT ALL THE STOOLS

Brilliant solutions are Wiktorja Lenart's trademark. The Spot stools stacked one on another make a clever chest of drawers making room on the floor. The tall glass case will perfectly complement your dining room decor.

SPOT ADJUSTMENTS

When you want to rest, there's no better place than a Spot bedroom. Spacious wardrobes, chests of drawers - Spot will fit in more than just your dreams. The Spot shelf will hold your favourite books and various bits and pieces. The headboard its removable cover is fitted at a comfortable angle - you will appreciate this comfort as soon as you start using it.

A TIMELESS COLLECTION FOR THE BIG AND THE SMALL

Spot is one of our unique collections bringing all generations together. It will let you create a coherent interior that suits the needs of everyone in your family - from a baby room, through a teenager's realm to the parents' bedroom and dining room.

4 YOU COLLECTION

See video

Comfortable during day and night, cosy when you're alone and welcoming when your friends come to visit. The 4 You furniture will allow you to arrange all of the most important spaces of your home: your bedroom, living room, dining room and your child's room.

WHO SAID A BED IS ONLY FOR SLEEPING?

Over two hundred people, including psychologists and ethnographers, worked on creating the final shape of the 4 You bed. Nevertheless, as the designers Joanna Leciejewska and Piotr Kuchciński point out, the input of users and their expectations towards the bed's functionality played the key role in the process. The whole 4 You collection was designed that way.

YOU WILL NOT WANT TO LIVE THE TABLE

This table supports your passions! The especially designed recess in the middle of the table and drawers underneath the tabletop help organize and store little things. Fresh herbs in pots and the possibility of heating meals will encourage you to celebrate and cook together with friends and family.

A TABLE TO MEASURE UP WITH OUR TIME

A large modern table is much more than a dining place. It's the center of gatherings, work, studying and family entertainment. Indispensable.

YOU MIX IT AND IT MATCHES

The ash-grey and white 4 You parts can be mixed with other collections too. To make it easier for you, we have introduced boxes in colors matching the Balance colours palette.

ITS MORE THAN JUST A WARDROBE

This wardrobe can be your boudoir. Comfortable folding doors will give you easy access to your clothes. So will the extendable hanger bars for shirts and shelves with bars.

A TIMELESS COLLECTION FOR THE BIG AND THE SMALL

4 You is one of our unique collections bringing all generations together. It will let you create a coherent interior that suits the needs of everyone in your family - from a baby room, through a teenager's realm to the parents' bedroom and dining room.

BALANCE COLLECTION

What kind of an interior do you wish to create? Do you dream of peace and harmony, or do you combine creative chaos with your everyday life and aren't afraid to go a little wild? Do you need a place for focused work, a comfortable relax zone or are you designing a dining area? No matter what the answer is, the Balance collection will meet your expectations. Balance is an innovative system that gives you the freedom to create unique furniture designs.

THE FREEDOM OF CREATION

The designers Joanna Leciejewska and Wiktoria Lenart made sure that the appearance and functionality of the Balance system depend only on your imagination. Choose your colours, define functions and freely combine its elements without the use of screws or bolts. Balance allows to build bookcases, dressers, TV units, wall units. The boxes have classic doors with the push-to-open mechanism.

SELECTED BY LUXE DESIGN FESTIVAL 2017

The Up&Down chair, designed by Joanna Leciejewska, comes in two options: with adjustable seat height and without it. Made of natural wood, the chair is also an exceptional decoration to the interior it is in.

STEP 1:

Choose the boxes and the base (long or short).

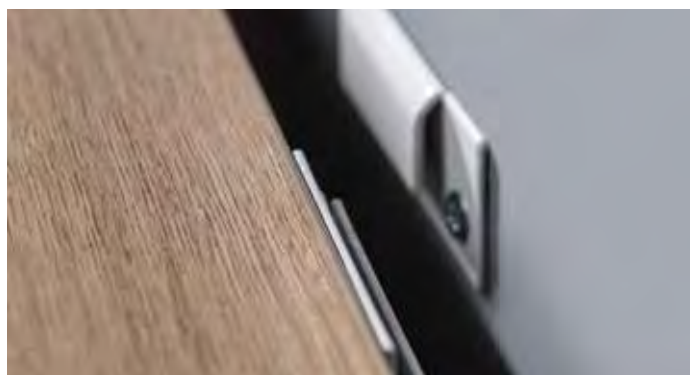

STEP 2:

Glue pieces of the anti-slip mat onto the boxes.

STEP 3:

Build your furniture by placing the boxes and shelves on one another.

STEP 4:

Secure the furniture to the wall.

SET UP YOUR BOOKCASE

Feel like a real interior designer. Check out the possibilities of the Balance collection. Use the Balance configuration tool in VOXBOX (available at vox.pl) and arrange your space.

IT'S EASY

Building exceptional furniture can be exceptionally easy. The Balance system is based on only a few key modules that give unlimited possibilities of creating individual solutions. See for yourself how easy it is.

YOUNG VOX. YOUTH COLLECTIONS

At VOX we carefully watch how young people live in order to design furniture that will keep on inspiring them. The youth collections don't offer ready, static solutions. It's furniture that motivates to explore and play in a creative way. Additionally, it grows with the users and allows them to change its appearance, colours and configuration. It encourages to experiment, rearrange, tinker, tamper and to look for surprising solutions. Thanks to this feature, children can build their own worlds full of hideouts and dens.

NEW

CREATIVE SYSTEM. TEENAGERS' ROOMS

Youth has its own rules and such rules should be followed when arranging a room for a teenager. An artistic soul, sport spirit, tenderness and girlishness in every detail - no matter what character we are dealing with, the inside of a teenager's room should be its reflection. Sit down together, and go crazy with Creative - create a unique space that will help develop teenage hobbies.

CREATIVE SPACE

Instead of looking for furniture that will fulfil all the requirements of a charismatic young personality, use the possibilities of the Creative system and configure it your way. Create a space with character that will follow even the most creative spirit. An imaginative composition of several colours from the Creative palette used in furniture of different styles will create a colourful, inspiring space.

STIGE COLLECTION

Climbing, conquering new territories - this is how the little ones learn and discover their surroundings. Older children are ready to create their own worlds and want to decide on their appearance themselves. Stige is a collection of modular furniture that enables children to build their first room, fully adapted to their needs.

Ordinary ladders can be bridges to fantastic adventures. The construction of ladders inspired the Stige designers to create exceptional furniture for young people. In Danish and Norwegian, 'stige' means 'ladder', but it also means to 'grow'. Bartłomiej Pawlak and Łukasz Stawarski have designed exactly that - a space facilitating constant development and continuous creative findings.

Dobry Design (Good Design) is a competition that evaluates the most interesting interior design products. The winner is chosen by a jury consisting of 150 designers and interior architects. Stige was awarded the first prize in Dobry Design 2019 in the 'Children's Space' category.

TWO HEADS ARE BETTER THAN ONE

A room for two children needs a well-organized study area. A desk ladder will help create a peaceful work area. Additional support will be provided by spacious cubic shelves that can be installed on the sides of the desk on specially designed wooden frames. If the children want to have more interaction with each other, all they have to do is hang the accessories and organisers in a different place.

The sleep area should be equally comfortable. A sofa with a ladder and a pull-out lower bed will be perfect when our children invite their best friends to their world.

COLOURFUL REQUIREMENTS

Every parent of a teenager knows how important colour can be. The pencil case, the rucksack, the T-shirt -even choosing such small objects is never accidental. Not to mention the design of the whole room! The furniture from the Stige collection give the possibility to create different types of interiors adjusted to the colour preferences of your child. If you decide on a universal base i.e. white cabinets and pinewood handles, with pistachio cubic shelves and delicate grey cupboards, you can create a subtle and girlish world.

The Stige colour palette combined with a wide range of accessories will give your child's space an individual character. The Cubic shelves with hooks can be hung on the ladders to build a dressing table or a small library. Denim organizers will introduce a stronger colour accent and help to organize the creative chaos.

FURNITURE VARIATIONS

The beloved, hand-decorated piece of furniture that belongs only to your child can become a real kingdom. Some teenagers prefer to keep their desk clean, other choose a comfortable area to work on the sofa.

The Stige furniture is open to change and can adjust to any idea - they can satisfy even the most demanding young owner.

A wide selection of modular blocks in different colours allows to create monochromatic sets or more powerful colour mixes. You can connect the individual modules with each other using metal grips and secure the whole construction to the wall.

SIMPLE COLLECTION

The youth version of Simple will look great with notebooks, a ball and a guitar. The intuitive configuration tool will help you create a colour palette suitable for your child's space but at the same time coherent with the aesthetics of other rooms.

IT JUST FITS

The designer Marta Krupińska made sure that all the furniture pieces of Simple also match the size of its younger users. You can also pick a smaller bed or desk.

NEST COLLECTION

See video

Childhood is a time when the imagination is unlimited. To keep it this way into adulthood, it's good to nurture it from the earliest years. Nest is a safe microworld that allows the youngest for creative play and learning. For teenagers, it makes it easier to explore their creativity and express their emotions. All that just to let your child bravely create their dream world.

FURNITURE JUST LIKE ME

Our designers know that change is a natural element of growth. Every little human being needs their own space that belongs only to them and changes with them. Nest will surround the energetic little ones with warmth, keep up with first school duties and after a few years will be the companion of a resolute teenager.

IT'S ALL TIDY

Keeping the crazy teenage world tidy is not an easy task. With the movable dressers, hangers and wardrobes with compartments for specific things, it becomes much easier. You stack, hang, hide and the mess is gone.

An award given yearly by the 'Dobrze Mieszkaj' (Live Well) magazine and dobrzemieszkaj.pl website for the best interior design products. The Jury consists of almost 130 Polish architects and designers.

CONCEPT COLLECTION

Need an idea for a teenager's room? The Concept collection can cleverly fit all the teenage matters. And when your child wants a change, it will be easy to replace the coloured fronts and create a brand new room

AESTHETICS HAND IN HAND WITH COMFORT

A desk as a teenager's favourite furniture piece? Yes, sir! The drawers without tracks can be taken out and used as boxes for storing all important gadgets. Learning goes smoothly in a comfortable environment. That's why the bed is additionally equipped with a profiled headboard, suited for many hours of studying notes or an evening laptop film viewing.

SIMPLE CHANGE - GRAND EFFECT

A strong accent changes everything. Blue, red, saffron, black, pink and oak decor - choose the front colour and give a character to your interior. This collection's special element - the silicone holes - serve as handles and always match the colours of the front. Natural oak legs give lightness to the capacious geometrical shapes and their height makes cleaning easier

SPOT YOUNG COLLECTION

Spot Collection is an invitation to the world of childhood play. Inspired by the hours spent at the playground, on swings, building bases and playing hide and seek - it brings in energy and dynamics captured in the levitating slender shapes and swinging organizers.

To complement the collection, we have also designed a classic sofa bed and bed 90x200 cm with an exciting Tipi trolley. You can hang fabric over it as an inspiration for young children to create the first Indian wigwams, and for teenagers the way to separate their personal area. At the bottom of the sofa you can instal a drawer or a pull-out bed as an additional sleeping area.

A DESK AS THE CENTERPIECE

A two-sided desk will work well both for two siblings and four friends playing board games. You don't have to place the desk in the corner or at the wall. You are the designer of your room and you decide which spot is best for playing, studying and working.

Can a bed be at the same time a place to sleep, a bookcase and a wardrobe? Of course! Check how many functions the Spot bunk bed hides - storage for seasonal clothes, two mobile hangers and two bookcases. This bed has won one of the world's most important design awards - iF DESIGN AWARD 2015 in the Home Furniture category.

4 YOU YOUNG COLLECTION

Let your child be the architect of their own world. Where is the safest place to experiment but home? Furniture from the 4 You collection encourages first experiments with space and making one's own decisions concerning interior design.

HERE EVERYTHING IS MY WAY

The functional 4 You bed has many possibilities. The more narrow version of the 4 You bed allows to arrange smaller spaces still maintaining the functions of a classic-sized bed.

YOUNG USERS COLLECTION

See video

Is there a way to cross boundaries between worlds? There is - and especially the ones between the worlds of kids, teenagers and adults. These seemingly contradicting elements have finally found a common platform. And all those hiding spots and corners, too! The Young Users furniture grows alongside its user. No matter who you are and how old you are, YU will adjust to you and your needs.

We call it the world's most personal furniture for a reason.

A NATURAL PHENOMENON

For all those who already live in a Young Users room and those who are only thinking of a space open for creativity we have come up with a new world. The designer, Marta Krupińska, inspired by nature, added new elements that will completely change the character of this familiar collection.

An impressive and functional interior can be created in a few simple steps. Combine oak and grey coloured covers with other accessories in natural colours. Magnetic cubes, letters and numbers from natural wood put together with plants will let you build your home ecosystem easily.

THE RULE OF CONTRAST

The world belongs to the brave! Combining black fronts with oak, you will get a strong effect that will work well in a space for creative tasks. Put your interior in order to get your thoughts in order. Geometric shelf fillers will not only help you to organise the space, but also will give character to the entire interior.

A NATURAL CHANGE

If you are familiar with the Young Users world but you would like to introduce some freshness to it, you can freely mix the new elements from the Eco extension with those that you already have.

IT WILL ENDURE ALL YOUR IDEAS!

The Young Users collection, designed by Marta Krupińska, allows to create all kinds of arrangements for children's and teenagers' rooms.

A shelf design created by the students of Poznań School of Form within the faculty of industrial design.

WHAT DOES THE DESK HIDE

1. Deep double drawers.
 2. A capacious storage unit.
 3. A sliding, strong desktop.
- Available in three colour variations.

INNOVATIVE DESK TRANSFORMERS

Winning the prestigious TOP DESIGN AWARD badge confirms the outstanding design quality of the product. The products, taking part in the competition, are assessed by an independent jury of international experts in the field of design. The purpose of the competition is to promote excellent design at the European level.

RESISTANT TO EVERYTHING EXCEPT CREATIVITY

Simple in its form, the Young Users furniture is made of modern laminated board, resistant to damage and easy to clean. The metal front covers can be quickly changed. Your child can use magnets, posters, games and school materials as well as dry-wipe markers to easily label the cabinets and so their unique own room is ready.

BABY VOX. BABY COLLECTIONS

We believe that the space around us has a direct impact on us. Beautiful and creative surroundings help us develop and grow more sensitive. That's why we want to create the best possible environment for children, where they will be able to freely grow and become great people. Our furniture and accessories have been designed to welcome a little human into your house with safety and comfort.

NEW CREATIVE SYSTEM

The Creative system will work perfect in baby rooms. Thanks to the configuration tool you can not only test interesting colour sets that will stimulate the young imagination, but first and foremost create functional and comfortable furniture - for you and your curious, quickly growing little one. Ensure the baby's comfort and safety in the smallest details by creating pieces like a handle-free wardrobe or a low bookcase with easy access to favourite toys.

ALTITUDE COLLECTION

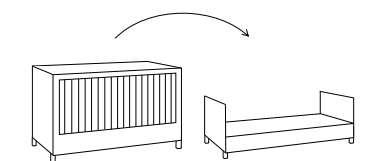

Less is more - this idea guided us while creating the Altitud collection. We have combined simplicity and functionality. The wooden finish gave the furniture a modern character and the universal colours of the fronts, graphite and white, made it suitable for any interior.

NATURE/MITRA COLLECTION

Inspired by the 50s and 60s design, we decided to introduce it in our new collection - Mitra. The slender wooden legs give lightness and elegance to the furniture and the universal colour palette will never go boring. The timeless beauty and functionality of this furniture will you want to keep it in your house longer. When the time comes, you will easily remove the changing table from the dresser and turn the crib into a little bed.

BABY BED

SIMPLE COLLECTION

At the earliest stages of their development, a baby needs closeness. The universal Simple bed can be attached to any adult bed so that your little darling is at your hand's reach. Additionally, the whole collection grows together with your child, accompanying them at all stages of their development. Try different front colours, choose the legs and handles to create the perfect room for your child.

CONCEPT COLLECTION

Age doesn't matter for Concept. It will help you arrange a room for children at different stages of their development. For the youngest, there is a crib, a dresser with a changing table and a bookcase for storing the essential accessories and care products. For their older siblings, there is a children's bed and a capacious wardrobe.

4 YOU BABY COLLECTION

When you become a parent, you begin to think about the future. We understand that and therefore we have designed a bed that will help follow all the changes. The baby crib, when the time comes, you will easily turn into a bed for a young child. But that's not all! The remaining elements can be put together into a desk with practical bars for organisers. Three pieces at the price of one? What a smart and practical choice.

BABY BED

SPOT COLLECTION

A collection inspired by the hours spent at the playground, on swings, building bases and playing hide and seek. It brings energy and dynamics to the baby room. We made sure that our furniture will serve you longer and made it possible to change the dresser into a desk and the crib into a young child's bed.

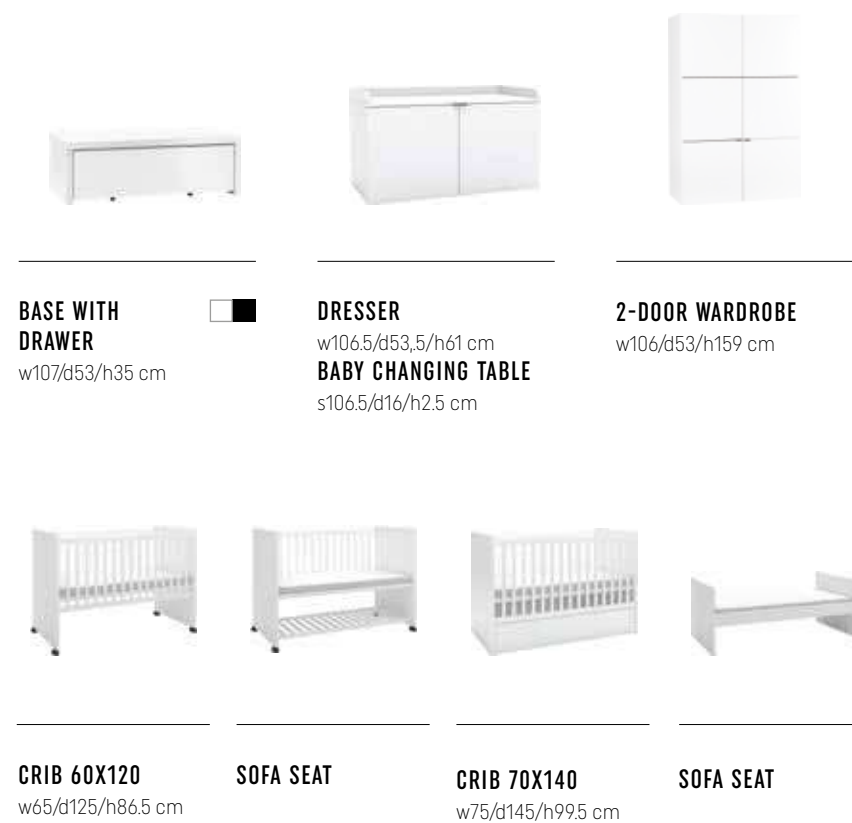

CHARACTERISTICS:

- The dresser with baby changing table - absolutely essential when dealing with a little baby - can be converted into a desk for a young child and the lower cabinet will make a practical toy box.
- When your baby is ready for 'big' changes, you can transform the 70x140 crib into a bed for a young child.

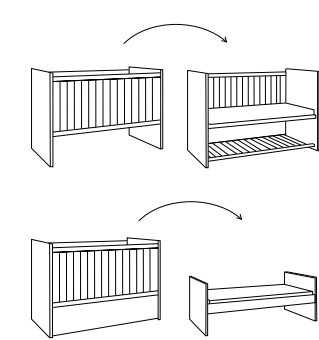

YOUNG USERS COLLECTION

Together with a group of experts in the field of psychology, anthropology and sociology, we have conducted a series of research into the needs of children, teenagers and their parents. Based on the results, we have created a collection that follows the age, needs and interests of your child.

CHARACTERISTICS:

- Thanks to the removable fronts you can create a colourful room
- The 60x120 crib can be converted into a sofa seat for comfortable reading and resting
- When your baby is ready for 'big' changes, you can transform the 70x140 crib into a bed for a young child.

MATCH COLLECTION

The baby tables from the Match collection can move around the whole house following their users. Thanks to their universal colours they will fit right into your interior. And when your children grow up, the table will make a perfect stool or plant stand.

TULI COLLECTION

A Tuli room is a place where the child can discover the world on its own. Everything is adjusted to the little hands and constantly developing mobility.

Tuli tables and stools can move with you around the whole house to make playing together easier. The Tuli collection, designed by Joanna Leciejewska, was awarded the Must have 2018 title.

Tuli was designed also for public spaces. It can be an alternative for traditional children's corners in cafes, shops or museums. The simple, modern design will match any interior and the light, handy furniture can be quickly rearranged or put aside. By stacking the stools and tables on one another you will get more space for storing things. By putting the stool under the table, you will save space and keep your child's room tidy.

UPHOLSTERED FURNITURE

For many of us, furniture constituting our leisure zone is the most important. Sofas, armchairs, pouffes, footstools, chaise longues - we love them because they let us catch a breath and have a moment just for ourselves. Everyone has their own way of resting so we made sure that almost all of our upholstered furniture models are available in dozens of colours and textures. Choose one that matches the style of your interior and will prove most functional in your everyday usage.

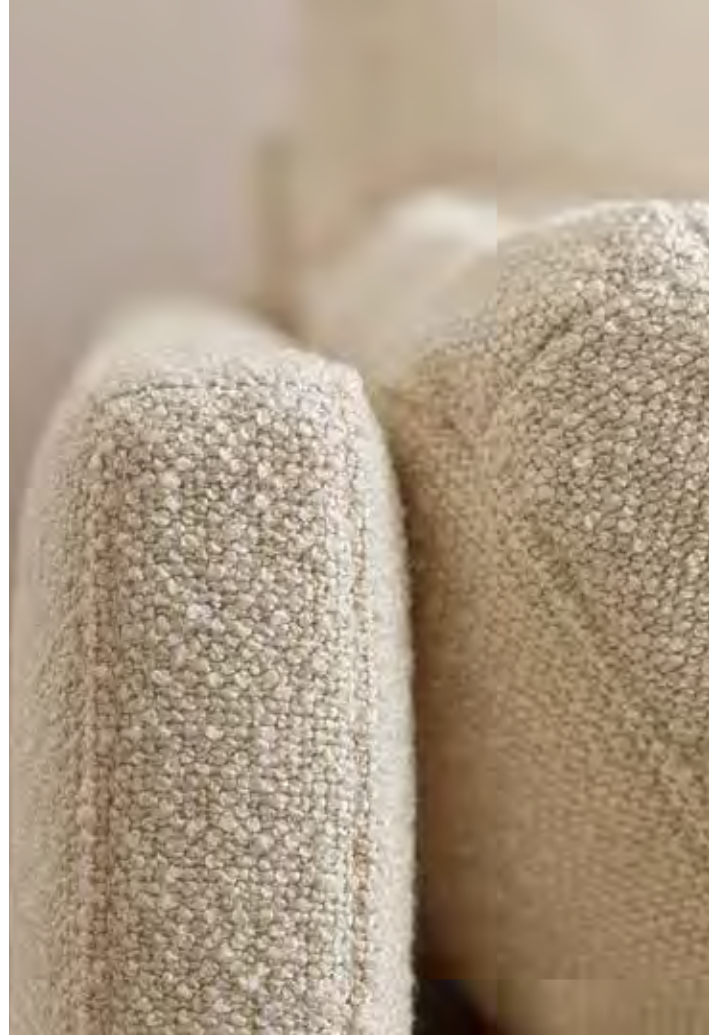

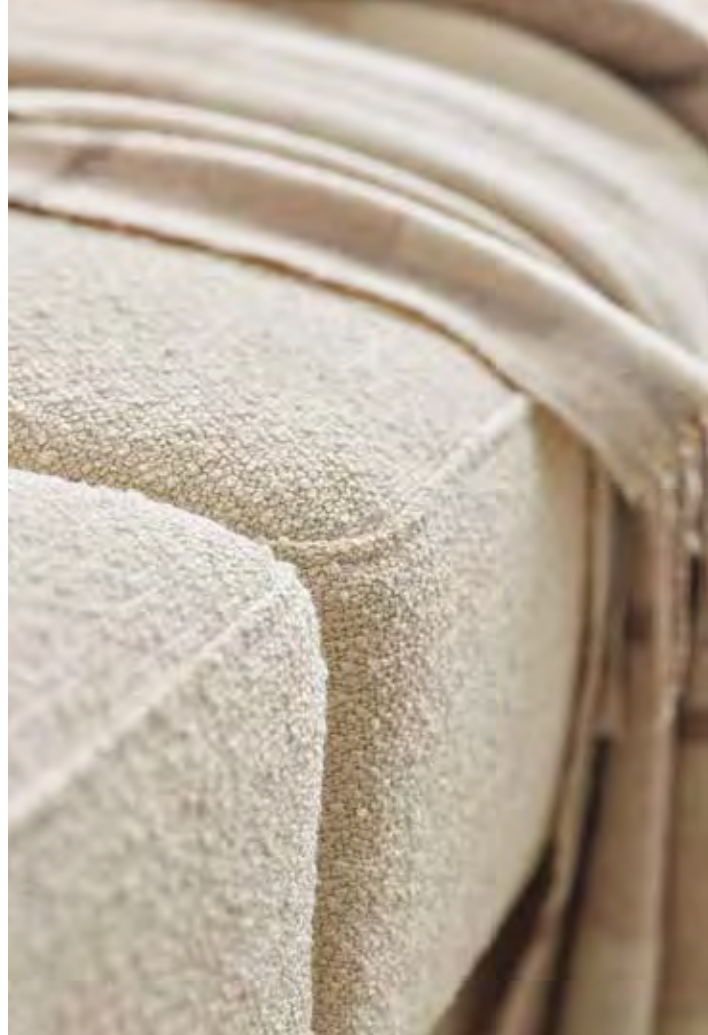

At VOX showroom stores we have prepared testers of all the fabric used in our upholstered furniture. You will also find out about their availability for certain collections.

NEW **ESTAR**

Lightness and comfort - these two words best describe the character of the Estar collection. Compact sofas and armchairs thanks to their solid but delicate black legs make a very gentle impression. The slender armrests give the furniture an elegant look. The sofa also hides the practical sleep function.

NEW CHILL

Modular furniture is a great choice for everyone who appreciates the freedom of choice. The independent elements of the Chill collection can be put together to build a royal rest zone or moved around to arrange a comfortable space for your guests. Go with Chill and freely create your leisure area.

SLIDE

Our preferences and needs change as do we and our living space. This is why the Slide sofa can adjust to many situations. The sofa was designed by Marta Krupińska. The collection contains a sofa with two storage units and two types of pouffes: large and small, both with storage units, matching the size of the sofa seat.

The Slide Sofa can be a classic couch or a double-sided couch if you want to sit separately but still close to each other. Thanks to the two independently sliding seats, you can easily convert to two chaise lounges. Or just one, if the others still prefer to sit on a classic couch. And when your guests stay late - a few moves, and extra sleeping space is ready.

The Slide Sofa, designed by Marta Krupińska, has been awarded the prestigious Must Have title. Must have is a competition organised by Łódź Design Festival for the best Polish innovations by Polish designers and producers. This year's competition was organised for the 10th time.

HARMONIC

This upholstered bed was designed by Joanna Leciejewska. Its grey or beige colours will harmoniously fit in with any bedroom decor. The fabric-coated base will make the room more cosy. The soft headboard will foster your lazy Sunday mornings with a book, coffee and breakfast in bed. The upholstered bed is available in two fabric options: hamilton 2805 (grey) and lecco 27 (beige).

PELO

These simple, light and modern modules will let you create sofas and corner sofas perfectly matching your interior. The base of the collection consists of three modules: a single module, a corner module and a pouffe that can be easily configured in many ways.

SOPHIE

The sofas, corner sofas, armchairs and pouffes have been created for beauty and comfort. Feel their velvet elegance and rounded shapes, nice to the touch. The collection contains sofas: 2-seat, 2.5-seat, 3-seat, 3.5-seat, an armchair and a footstool pouffe.

PELUSA

This grand, lordly corner sofa is a true king of the living room. Thanks to its remarkable size, it will focus the attention of all guests. The filling from natural feathers makes resting on it top quality pleasure. The collection allows for individual configuration of sofas and corner sofas.

DUVET

The sofas, corner sofa and armchair from this collection are characterized by comfort and elegance in every detail. The cushions - both backrest and decorative - give this furniture exceptional softness that will change your living room into a cosy rest zone. The collection contains: a 2, 2.5 and 3-seat sofa, a corner sofa (left or right) and an armchair.

LIAM

The Liam sofa and pouffe are comfortable spacious pieces of furniture, perfect for resting. Thanks to their rounded edges, they look exceptionally slender. Liam is also cleaning-friendly. The high legs make reaching under the sofa easier.

MODUS

It's a modular system which allows you to choose the final shape of the corner sofa along with its functions. The discrete fixing system has been hidden underneath. The collection contains the following modules: a corner sofa, a 2 and 3.5-seat sofa, a 1.5-seat sofa module, a chaise longue module, a single module with a side finish, a corner module and a large pouffe.

COTTA

The soft, deeply quilted corner sofa from the Cotta collection is the perfect solution for small flats with no separate bedroom. The collection contains: a corner sofa, a large corner sofa - both available in the left and right option - a 3-seat sofa, an armchair and a pouffe with storage.

NEW **BANCO**

If you dream of a place where you can get lost in thoughts for hours, read books or listen to music, the Bancó armchair is your perfect choice. Thanks to the slender swivel stand, the armchair will not overwhelm smaller spaces. And the footstool? Who wouldn't want it, especially for long, autumn evenings.

NEW **FINT**

For many of us, home is mostly a place of rest. The Fint armchair is a candidate for the favourite furniture piece for everyone who after an intensive day needs a moment of relaxation. Two positions of the backrest allow to adjust it to your current needs. The back of the chair has a place to hang the blanket and put away e.g. a cushion. Add the footstool and your perfect spot is ready.

VOLT

In this deep, comfortable ergonomic armchair, you will not only rest and read but also have a great nap. Its timeless form is a guarantee of comfort. The armchair is available in two versions: with legs or a swivel stand.

LOFT

The armchair and pouffe from the Loft collection are so stylish that every epoque would like to claim them. It's absolutely timeless furniture. The collection contains: a sofa, an armchair, a pouffe.

GRANT

The natural woolen upholstery and cozy shape make the Grant armchair the perfect spot for your afternoon nap. The stable wooden legs, the slightly slanted seat and the footstool right under your feet guarantee relaxation as good as deep sleep. The collection contains: an armchair and a footstool.

VOXBOX INTERIOR DESIGN DIGITAL TOOL

The VOXBOX App is an intuitive tool for interior design. Its realistic visualisations will make the choice between certain products easier.

In 2020, VOXBOX won the 'Dobry Wzór' award. The jury pointed out the practicality and usefulness of the app that helps design dream interiors directly in an Internet browser. Also, its interface, friendly even to an unexperienced user, has been appreciated by the jury.

VOX DESIGNERS

We know that the more talented people, the more great ideas. That's why we work on our collections as a team and invite talented designers to join. This way, thoughts and needs materialize as beautiful and useful objects.

OUR DESIGNERS

TABANDA: MEGI, FILIP I TOMEK

Three is already a gang, to be more precise it's the Tabanda gang. The authors of the Nature collection: Megi, Filip and Tomek create furniture based on subtle contrasts and unconventional pairings. They complement modern geometric shapes with nature-based motives and combine raw industrial accents with lively colour palettes. Their designs have won approval among design experts. In 2016, the Nature table won the 'Must have' label and in 2017, the whole Nature collection won 'Design of the Year'.

JOANNA LECIEJEWSKA PIOTR KUCHCIŃSKI

Joanna Leciejewska - everything she puts her hands on, changes into a little work of art: furniture, packaging, lighting, graphics. Her works, presented at exhibitions all over the world, you will also find in our stores. Piotr Kuchciński - architect and designer. Honors graduate of Poznań University of Technology. Author of many urban and civic projects. Joanna and Piotr co-designed the 4 You collection.

MARTA KRUPIŃSKA

What does Marta Krupińska think about while designing? About everything that is most important here, at VOX. About functionality, simplicity, ergonomics, precision, aesthetics, universality. But first and foremost she thinks about the human. That kind of thinking always brings good effects, e.g. the Simple and Young Users collections or the Creative system.

ŁUKASZ STAWARSKI BARTŁOMIEJ PAWLAK

Two talented brains mean numerous brilliant ideas. Łukasz and Bartłomiej are a designer duo working at the Pawlak & Stwarski studio since 2014. They differ in their work approach but have one thing in common - they are both exceptionally talented. They design furniture, lamps, crockery and even medical equipment, collecting awards down the road.

WIKTORIA LENART

The world appreciates her! Wiktoria's bed design for the Spot collection was awarded one of the most prestigious European awards: the IF Design Award.
