To use our sizing chart:

Measure your foot while wearing your socks. Then add 0.75" to both the width and the length of your foot to account for the stitching (e.g., if your foot is 4" wide and 11" long with your socks on, the measurements you would look for on the chart would be 4.75" wide and 11.75" long. This would give you a Liner Size of 11/12). Please note the sizing in the chart is approximate and may have a +/- 0.25" tolerance.
