### ABOUT

Supreme is our signature espresso blend enjoyed all across New Zealand. This coffee is our most complex in terms of blend makeup and contains a range of origins, varietals, and processing methods. Supreme displays a full-bodied richness, a crisp, cradling acidity, and lingering cocoa finish. The blend is based around a combination of Central American coffees which provide the core flavour elements and refined acidity. To this we add from a seasonal selection of coffees to keep Supreme tasting great year round.
