FILTER ROAST

COLOMBIA SWISS WATER DECAF

PRODUCER	Swiss Water
REGION	Varias
VARIETAL	Castillo, Cattura, Colombia
PROCESSING	Washed
ALTITUDE	1600–1800 masl
ABOUT	Select coffee regions of Colombia have blended together and then decaffeinated by the Swiss Water decaffeination process which is a 100% chemical-free decaffeination method. Using pure water, the caffeine in coffee beans is gently removed until they are 99.9% caffeine-free, without compromising the coffee's unique body, flavour, and aroma characteristics.
