PROCESSING	Washed
ALTITUDE	1000 masl
ABOUT	<p>Hailing from the mountains of Northern Sumatra is, Indonesia Sibalanga, a coffee that is carefully hand-picked, sorted and wet-hulled by local producers. Wet-hulling is a typical process in Indonesia where the coffee skins and most of the flesh is removed almost immediately after harvesting. This process kickstarts the fermentation straightaway implementing big, bold and juicy flavours.</p>
