SMK-Link Electronics

RemotePoint®

Emerald Navigator SE

The new Emerald Navigator SE carries on the RemotePoint® tradition of performance and ease of use. Its aluminum case seems to disappear in your hand, where large keys control PowerPoint® and Keynote® slides, a bright green laser pointer stands ready to focus all eyes, and a slide blank key waits to toggle your visual content.

Best of all, the Emerald Navigator SE has 'no learning curve.' Just insert the AAA batteries, plug in the USB receiver, and you're ready to get down to business– from up to 75 feet away.

Large Slide Control Keys

Bright Green Laser Pointer

Screen Blank Switch

Windows® & OS X® Compatible

Up to 75' wireless range

Emerald Navigator SE

For Teachers

Command your lecture slides while you interact with students from anywhere in the room. Emerald Navigator SE's large slide keys, bright green laser pointer and screen blank key put you in complete control.

For Executives

When technology is really good, it all but disappears: leaving you free to focus on the matters at hand. The Emerald Navigator SE does just that. Just plug in the USB receiver and you're ready to get down to business.

With Confidence

With Emerald Navigator SE's stylish aluminum case nestled comfortably in your hand, present with confidence and poise: engaging your audience, communicating effectively and winning the day.
