

SMK-Link Electronics

Blu-Link™

NFC Speaker System 80

Take your music anywhere with powerful treble and resonant bass. Simply tap your Samsung® Galaxy® or other NFC-enabled smartphone or tablet to the top of the Blu-Link™ NFC speaker and let the music play. Connect to the Apple® iPhone®, iPad® and other non-NFC-enabled mobile devices directly via Bluetooth® for the same great sound and performance.

Take calls anywhere with the press of a button. The Blu-Link™ NFC Speaker System 80 doubles as a portable speakerphone. Receive incoming calls by pressing the “phone” icon on the speaker touch control panel. When your call is completed, tap the button and your music automatically returns.

- **Connect Instantly with NFC technology**
- **Supports all Bluetooth-enabled computers, tablets and smartphones**
- **Provides up to 18 hours of continuous portable music**
- **iPad® and iPhone® compatible**

SMK-Link Electronics

Blu-Link™

NFC Speaker System 80

Tap to Connect

The Blu-Link™ NFC Speaker System 80 uses NFC (Near Field Communication) technology to simplify connecting to Bluetooth devices. Simply tap the top of the speaker with your NFC-enabled tablet or smartphone, and you're connected--instantly!

Play Music and Take Calls

While playing music through the Blu-Link™ NFC Speaker System 80 from your iPhone or other smartphone, take calls simply by pressing the 'Phone' button on the speaker control panel. When the call is completed, press the button again and the music returns.

Take Your Music Anywhere

With its powerful treble and deep resonant bass response, the Blu-Link™ NFC Speaker System 80 lets you take your music anywhere. And the NFC speaker's rechargeable battery keeps the tunes coming with up to 18 hours of non-stop operation.
