

Notes

NOTICES & WARNINGS

- Please read this user manual and the user manual of your compatible mobile device before using this product.
- This product may contain small parts. Keep out of the reach of small children.
- Battery Charging Hazards:
 - Only charge the battery in accordance with the user instructions supplied.
 - Do not dispose of your speaker in fire. The battery could explode causing severe injury or death.
 - Do not attempt to disassemble the speaker charger or force open the built-in battery as it may result in electric shock.
 - Do not charge the speaker in damp areas or in extremely high or low temperatures as this may result in electric shock.
 - Do not clean the speaker when it is being charged or used.

FCC Statement

This equipment has been tested and found to comply with the limits for a class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

In order to maintain compliance with FCC regulations, shielded cables must be used with this equipment. Operation with non-approved equipment or unshielded cables is likely to result in interference to radio and TV reception. The user is cautioned that changes and modifications made to the equipment without the approval of manufacturer could void the user's authority to operate this equipment.

Blu-Link™ NFC Speaker System 80

User's Guide

Congratulations on your purchase of the Blu-Link™ NFC Speaker System 80. Whether you're using an Apple® iPhone®, iPad®, Samsung® Galaxy S® or other popular Bluetooth®-enabled smartphone or tablet, the Blu-Link™ NFC Speaker will put your favorite music just a touch away.

Pairing With Your Phone or Tablet - NFC Enabled Devices

Pairing with NFC-enabled devices such as the Samsung® Galaxy S® and other smartphones and tablets is easy. Simply tap the top of the speaker with your device to instantly pair the Blu-Link™ NFC Speaker.

- 1. Powering On**
Turn speaker on by pressing and holding the Power Button on the back of the speaker until the audio indicator light flashes.
- 2. Pairing**
After turning on your device's NFC setting, tap your device's NFC tag with the speaker's NFC area (Top side of the speaker).
- 3. Controlling Volume Or Play / Pause**
While playing music, you can control the volume or play/pause with either the speaker or the device.
- 4. Use Your Blu-Link™ Nfc Speaker As A Speakerphone**
Press the phone icon on the control panel to receive or end a call.
- 5. Disconnecting And Turning Off The Speaker**
Tap the device's NFC tag with the speaker's NFC tag again to disconnect. When turning off the speaker, press and hold the power button for 5 seconds. You will then hear the indication sound and the LED light will turn off.

Pairing With Your Bluetooth® Phone or Tablet

Pairing with Bluetooth®-enabled devices such as the Apple® iPhone® and iPad® just takes seconds:

1. Turn speaker on by pressing and holding the Power Button on the back of the speaker until the audio indicator light flashes.

2. Press and hold the Pairing Button until the speaker “beeps.”
3. Turn on your device’s Bluetooth® wireless.
4. Search for “NFC Speaker 80” and connect.
5. Control your music volume or play/pause using either the speaker controls or those on your device.
6. To disconnect the Blu-Link™ NFC Speaker from your phone or tablet, simply disable the Bluetooth® connection on your device or manually turn the speaker off by pressing and holding the power button for 5 seconds.

Using the Audio Input Jack

To establish a wired connection with the Blu-Link™ NFC Speaker, connect a standard mini 3.5mm stereo audio cable from the audio input jack on the back of the speaker to your device .

Charging The Battery

1. Plug the USB charging cable into your mobile device’s USB/AC adaptor and the adaptor into an AC outlet. Connect the other end of the USB cable to your speaker’s Micro USB Charging Connector.
2. When the battery is fully charged and the charger indicator has gone off, disconnect the charger from the speaker before you remove the AC adaptor from the wall outlet.

You can also use a compatible USB cable to charge the battery by connecting to a powered USB hub.

*When the Blu-Link™ NFC Speaker battery is running low, the speaker will quickly beep 4 times. Charge the battery using the steps above.
