Integrated CAC Reader

TAA COMPLIANT

TAA Ergonomic Keyboard with CAC Reader

FCC Statement

This equipment has been tested and found to comply with the limits for a class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Re-orient or relocate the receiving antenna
- Increase the separation between the equipment and receiver
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected
- Consult the dealer or an experienced radio/TV technician for help

In order to maintain compliance with FCC regulations, use only cables and connectors supplied with this equipment. Operation with non-approved equipment or cables is likely to result in interference to radio and TV reception. The user is cautioned that changes and modifications made to the equipment without the approval of manufacturer could void the user's authority to operate this equipment.

Thank You

Thank you for choosing the TAA Ergonomic Keyboard with CAC Reader (*Model VP3827*). Providing 105 membrane-switch keys, 13 hotkeys and an integrated CAC reader, the VP3827 is an ideal choice to help relieve the wrist strain associated with spreadsheet, word processing or other typing-intensive applications.
