

PONI COLLECTION

CHARACTERISTICS:

Also known as “hair-on hide,” Poni is a natural cowhide without its hair removed, bleached and then dyed to perfection in a dazzling array of colors. After immersion in aniline dyes, the hairs are shaved to a uniform pleasingly short length. Poni is produced on half hides for upholstery, or available on request in full hides to use as a rug.

SPECIFICATIONS:

Average Hide Size:	30 square feet
Average Thickness:	1.2 mm
Finish:	Aniline-dyed
Grain Character:	Hair-on
Grain:	Hair-on
Flammability Testing:	CA-117, NFPA-260

COLORWAYS:

Off-White

CARE & CLEANING:

Hair-on-hide wears best with as little maintenance as possible. Dirt and dust should be removed gently by vacuuming with a soft bristly brush attachment. Fresh stains should be gently wiped or blotted immediately with a lightly damp cloth. If stain persists, use mild soap and water and dry any excess moisture with a clean, dry cloth.

For difficult stains, it is always best to contact a specialist as damage can easily occur due to improper cleaning.

For optimum performance and longevity, do not place hair-on-hide within twelve inches of a heating source or in sustained direct sunlight.
