HSM®

Great Products, Great People.

Transform waste economically and sustainably in high quality packaging material

The packaging machines HSM ProfiPack C400 and P425 turn used cardboard into universal packaging material that meets the highest demands – in the blink of an eye. You can do without plastic and are independent. You can save yourself expensive filling material - no storage, no handling, no costs!

**HSM ProfiPack turns
your old cardboard
into high quality
packaging material!**

Creating your own packaging material from cardboard is economical and ecological!

Used cardboard boxes are cut and padded in just one time-saving step.

The packaging material can be used wherever required – as padding mats, padded packaging or to fill up empty spaces.

Packing a wide variety of products is quick and easy. Objects are optimally protected!

The HSM ProfiPack advantages at a glance

- Solid, robust and proven construction
- Easy commissioning, intuitive operation
- Fast production of filling material tailored to your needs
- Maximum flexibility and independence through your own production of packaging and filling material
- The hardened cutting rollers are manufactured from one piece of steel and are therefore completely impervious to staples and similar soft metals
- High level of user safety
- No maintenance intervals, no follow-up costs
- Compact design / small footprint
- 2 years warranty in the case of single-shift operation; in the case of multi-shift operation, the warranty period is 6 months
- On-site service by experienced HSM customer service
- The investment pays off after a short time

Immediately economical and profitable

Ecological and sustainable

High throughput capacity

User-friendly and safe

Filling material universally applicable

Short delivery time

“The HSM ProfiPack has been a great purchase for our business. We’ve saved money and boosted our green credentials. ... The machine paid for itself within months and will be doing so for years to come.”

Simon Mallord, Managing Director
MotorNuts Limited, United Kingdom

HSM ProfiPack is good for the environment. And good for you.

- Cardboard is a valuable raw material and should not just be thrown away
- Old cardboard boxes can be recycled and reused on site
- Sustainable action protects the environment and pays off
- There is no need for plastic filling material

The HSM ProfiPack packaging machines are robust and easy to use

Creation of compressed packaging material with a closed compression flap (HSM ProfiPack P425).

Specially hardened cutting rollers for precision cutting.

Infinitely adjustable working width for cushioning material made to measure.

Available as tabletop and stand-alone device.

HSM ProfiPack – the perfect solution for every requirement

12 x

HSM ProfiPack C400

For commercial use

- Integrated turbo-function resolves blockages
- Non-slip stand of the packaging machine
- Intuitive operation with LED indicators on a robust keypad

Example for comparison: 50/80/120 kg padding mats made of BC-wave, 1000 mm cutting length with 415 mm input width = packing quantity for approx. 12/25/37 moving boxes (external dimensions W x D x H: 600 x 330 x 340 mm)

Throughput up to 110 lbs/h

25 x

HSM ProfiPack P425 (with alternating current)

For commercial or industrial use

- Fully flexible feed-in speed adjustment
- Integrated turbo-function resolves blockages
- Production of multi-layer packaging cushions
- User safety through emergency off switch
- Mobile on castors, with parking brake
- HSM DE 1-8 dust extractor for HSM ProfiPack P425 incl. dust extraction kit (optional)

Throughput up to 176 lbs/h

37 x

HSM ProfiPack P425 (with three-phase current)

For intensive commercial or industrial use

- Maximum cutting speed for highest throughput
- Production of multi-layer packaging cushions
- User safety through emergency off switch
- Mobile on castors, with parking brake
- HSM DE 1-8 dust extractor for HSM ProfiPack P425 incl. dust extraction kit (optional)

Throughput up to 264 lbs/h
