TRIUMPH® 4305

Features

TRANSPARENT SAFETY GUARD

A cut can only be executed if the hinged safety guard is in the closed position and the blade safety catch is released.

HAND CRANK

The calibrated hand crank and side guide measurement scale ensure precise back gauge positioning.

PATENTED FAST-ACTION CLAMP

After inserting the paper stack, throw the lever on the fast-action clamp to tighten—then cut.

PRECISION BACK GAUGE

The cast aluminum back gauge and side guide with measurement scale allows precise paper alignment.

SAFE BLADE CHANGES

Blade changes can be made without removing the machine covers. The handy blade changing device covers the cutting edge of blade.

EASY CUTTING STICK CHANGE

Cutting sticks can be turned or changed easily from the outside of the machine—no tools are required.
