HARD DRIVE
Destruction Solutions

The NSA requires the use of an APPROVED degausser for the sanitization of CLASSIFIED hard drives and magnetic tape media.

After using an APPROVED degausser, the NSA recommends that "...classified hard drives be physically damaged prior to release."

Whitaker Brothers has combined both operations into ONE UNIT with the . . .

Datastroyer® "One Touch"

A Dual Hard Drive Destruction Unit that is virtually Hands-Free!

Sanitizes and Deforms Magnetic Media in ONE STEP, simply place hard drive in top slot and push START - the drive is degaussed and automatically crushed and deposited in the collection bin at the bottom.

There's no handling of destroyed media between degaussing & crushing!

Custom Wheeled Cart (with collection bin) allows for easy relocation to other departments or storage when not in use.

Please Call for Pricing

"ONE TOUCH" Components Include . . .

Datastroyer® 105 Hard Drive® Degausser

NSA/CSS Evaluated and Listed for destruction of 0.65 inch, 1 inch, and 1.65 inch high drives and 2.5" high laptop hard drives

- **APPROVED for degaussing of CLASSIFIED hard drives up to 5,000 Oe and tape media up to 3,000 Oe**
- Utilizes unique reverse polarity EMP (Electromagnetic Pulse)technology
- Produces 20,000 Gauss positive pulse and 20,000 Gauss negtive pulse
- Includes internal gaussmeter and counter for audit preparation
- Dual voltage (110V/220V) power
- GSA Price if purchased separately: $15,997.00

Datastroyer® ACD-HS Automatic Crushing Device

NSA/CSS Evaluated and Listed for destruction of 1-inch, .65-inch, 1.65-inch, & Laptop Hard Drives

- **Automatic operation for hands free hard drive destruction**
- Manual crank can continue destruction if power goes out
- Media size: standard 0.65" - 1.65" drives and laptop drives
- Render a hard drive unreadable in less than 10 seconds
- Compact and transportable
- GSA Price if purchased separately: $5,224.86

Custom Cart

- Best-in-class casters for easy transportation
- Ergonomically designed
- 38"H x 17"W x 38.5"D

Please Call for Pricing

The Datastroyer® 105 Hard Drive® line of hard drive destruction equipment provides several solutions to the challenge of sanitizing hard drives before physically destroying them. Combining a degausser with a crusher or shredder is one way to meet your Top Secret/Classified destruction requirements.

Datastroyer® 105 Hard Drive® Degausser

With Built-In Magnetic Field Verification System

Listed on NSA Degausser EPL - capable of erasing perpendicular and longitudinal hard drives up to 5,000 Oersteds and magnetic tape media up to 3,000 Oersteds!

Duty Cycle	Continuous
Cycle Time	45 - 60 seconds
Degausser System	Capacitive Discharge, Single Pass Bi-Directional
Media Size	Accommodates all magnetic media within 1" x 6" x 4.3"
Field Strength	20,000 Gauss positive (+2 Tesla) & 20,000 Gauss negative (-2 Tesla). **Manufacturer Guaranteed up to 8 TB!**
Weight	128 lbs
Power	Dual Voltage - Automatically converts between 110V and 220V; 60/50 Hz; single phase
Altitude	Operates at up to 25,000 feet (7,620 meters)
Size (H x W x D)	19" x 10" x 26"
GSA Price	$15,997.00

Produces a bi-directional field that provides a 20,000 Gauss positive field and a 20,000 Gauss negative field using a unique, patented "Reverse Polarity" technology. This creates the HIGHEST flux field of any degausser available! The 105 HD Degausser will degauss the highest coercivity media available today and is projected to sanitize future media coercivities for years to come.

- Fully automatic - no drawer to open and close. Insert media into top slot and push start.
- Patented "Reverse Polarity" Electro Magnetic Pulse (EMP) technology.
- The built-in magnetic field verification system guarantees consistent performance by reporting the magnetic field strength of every cycle numerically on a blue LCD display. It also has a digital cycle counter and status display.

Datastroyer® 105 Hard Drive® Drawer Degausser

An automatic, drawerstyle degausser that destroys data on longitudinal and perpendicular hard drives.

Duty Cycle	Continuous
Drawer Opening	1" x 4.3" x 6"
Degausser System	Electromagnetic Pulse technology via capacitive discharge
Erasure Cycle Time	Less than 5 seconds
Erasure Capabilities	Manufacturer guaranteed up to 4 TB hard drives
Weight	48 lbs
Power	Dual voltage switches between 120V or 240V (60/50 Hz)
Effective Magnetic Field	15,000 G (1.5 Tesla)
Size (H x W x D)	12" x 12" x 20"
GSA Price	$5,825.00

Model 1100 Degaussing Wand

Degausses longitudinal and perpendicular media up to 5,000 Oe.

NSA evaluated and meets or exceeds the specifications for secure erasure of hard disk drives and other magnetic media as established by the U.S. DEPARTMENT OF DEFENSE & the NATIONAL SECURITY AGENCY.

- Comes with magnetic shield to ensure safe degaussing wand storage
- No Power Required (Fixed High Energy Magnetic Field)
- 5,000 Oersted mag field intensity
- Weight: 4 oz / Size: 7.5"L x 0.2"H x 1.5"W
- Please Call for Pricing

HARD DRIVE CRUSHERS

For "SECOND STAGE DESTRUCTION" (after the use of an approved degausser) the NSA "highly recommends that CLASSIFIED hard drives be physically damaged prior to release."

Datastroyer® ACD-HS

Automatic Hard Drive Crusher

NSA/CSS Evaluated and Listed for destruction of 0.65", 1", 1.65" and Laptop Hard Drives

Power	100 to 250 VAC, 50 or 60 Hz (specify when ordering)
Weight	63 lbs. (shipping weight: 84 lbs.)
Size (H x W x D)	21" x 7.25" x 11.625"
GSA Price	$ 5,224.86

The ACD-HS provides an automatic, motor driven operation - simply insert the hard drive and sensors will automatically start the destruction cycle. A unique feature of the ACD-HS is its ability to operate manually if power is ever interrupted or unavailable. Simply grab the crank handle to continue securely destroying hard drives. No stoppage or setup necessary!

- **Tested and used by NSA and DoD for destroying hard drives.**
- Handles all 3.5" Form Factor Drives including 0.65", 1" and 1.65" high drives. Destroys 2.5" laptop hard drives with included laptop carrier. Also handles SSDs (not NSA evaluated for SSDs) in 3.5" Form Factor and 2.5" Form Factor with the laptop carrier.
- Automatic cycle provides fast, safe and reliable hard drive destruction in 10 seconds or less (60 Hz); with hand crank it's 8 seconds or less.
- Generates 12,000 lbs. of force to bend/crush each drive.
- Can operate with or without power (manually for emergency situations).
- Hard drives are bent approximately 90 degrees, which bends/breaks the platters and damages the heads, motor and circuit board.
- Maintenance free and completely self-contained. No messy fluids or external components to deal with and no adjustments or calibration necessary.
- Ask about options to customize your ACD-HS.

Datastroyer® MCD-HS

Manual Hard Drive Crusher

NSA/CSS Evaluated and Listed for destruction of 0.65", 1", 1.65" and Laptop Hard Drives

Weight	49 lbs. (shipping weight: 64 lbs.)
Size (H x W x D)	16.5"x 7.25"x 9.25"
GSA Price	$ 4,247.13

The MCD-HS is designed to physically destroy all standard hard drives without the use of power in 8 seconds or less. Insert the hard drive into the slot and crank the handle 8 rotations to destroy the drive. After the process is finished the hard drive is ejected into the front debris drawer; an optional rear output chute is also available.

- **Tested and used by the NSA and DoD for destroying hard drives.**
- Compact and rugged design is portable and easily deployable.
- Less than 8 second cycle time.
- Media Destroyed: handles all 3.5" Form Factor Drives including 0.65", 1" and 1.65" high drives. Destroys 2.5" laptop hard drives with included laptop carrier. Also handles SSDs (not NSA evaluated for SSDs) in 3.5" Form Factor and 2.5" Form Factor with the laptop carrier.
- Specifically designed for emergency situations where power may not be available.
- Provides a "green" energy saving solution for hard drive destruction.
- Hard drives are bent approximately 90 degrees, which bends/breaks the platters and damages the heads, motor and circuit board
- Maintenance free and completely self-contained. No messy fluids or external components to deal with and no adjustments or calibration necessary.
- Ask about options to customize your MCD-HS.

Shredding alone will NOT SANITIZE magnetic and/or solid-state storage devices - for complete high security destruction use the machines on this page, or the crushers on page 4, in conjunction with degaussing (see our solutions on page 3).

105 Hard Drive® Shredders

Feature	• Multi-functional display for continuous and reverse operation • All metal feed chute with plexiglass safety inspection window • Protective cover over feed opening • Lockable casters
Throughput	2,000 items per hour* (single cut); 2,500 items per hour* (cross cut)
Sound Rating	65 - 70 dB (extremely quiet operation!)
Cutting Sizes	3/4" x random (single cut); 2/5" x 1-1/5" (cross cut)
Voltage	220V/3 Ph/50-60 Hz
Size (H x W x D)	67"x 41"x 72"approx
GSA Price	Single Cut Price: $24,997.00; Cross Cut Price: $38,999.00

High performance single cut and cross cut hard drive/magnetic tape shredders that can handle CDs, DVDs, flash sticks, cell phones, and more!

104/2 Hard Drive Shredder

Feature	• Cutting rollers made of hardened solid steel • Integrated hour meter • Bin full signal and shut off • Low Power Consumption Energy savings mode after 5 minutes of idle running • Energy-saving power unit for long periods of operation at low noise level • Casters for complete mobility • Model 104/2 (requires 20 Amp line) destroys 750 disks/hour • Model 104/3 (requires 30 Amp line) destroys 1250 disks/hour		
Shred Width	6.5" x 11.5" x 2.4"	Weight	1,646 lbs.
Throughput	1.5"	Size (H x W x D)	3.5"x 46.8"x 31.3"
Sound Rating	57 dB	GSA Price	104/2: $19,999.00; 104/3: $20,999.00
Motor (HP)	2 HP		

COMPACT durable mixed media destroyers that can handle hard drives, CDs, DVDs, solid state drives, USB sticks, credit/store cards, magnetic tapes up to 3.5" and other media storage devices.

5

Datastroyer® 108 Solid State Drive Shredder

Feature	7" feed opening
Capacity/hour	75 - 80 SSDs (approx.); 500 USB sticks/drives; 100 Cell Phones; 1500 CDs/DVDs
Sound Rating	Particle Size
Motor	2.6 HP
Power	120 V/60 Hz/20 Amps or 220 V/50 Hz
Weight	260 lbs.
Size (H x W x D)	37.5" x 22.6" x 24"

Shred smartphones, mini tablets, SSD drives, and USB sticks into small, variable sized particles. Performs like an industrial shredder but with a small, office sized footprint!

MIXED MEDIA
DESTRUCTION

The term "Optical Media" includes CDs and DVDs but the more general term "Mixed Media" can include other non-paper storage devices such as phones, tablets, thumb drives, credit cards, ID badges, SIM cards, and other general access cards. All of these items can contain vast amounts of data and even a small fragment can put your security at risk.

DCS 36/6

Paper &
CD/DVD Shredder

NSA Evaluated and meets NSA/CSS Specification 02-01 for paper and 04-02 for CD & DVD destruction.
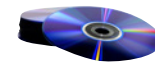

NSA Rated at 15reams/hour & 7 sheets/pass, 2000 disks/hour.

Residue Size	1mm x 5mm
Capacity	16 sheets/pass or 2,500 discs/hr
Throat	13" (paper) • 5" (CDs/DVDs)
Power	Standard 115V/60 Hz
Bin Volume	39 gallons
Size (H x W x D)	36.9"x 22.8" x 21.7"
Weight	163 lbs
GSA Price	$3,497.00

Equipped with Smart Operator Interface drive & operating concept that offers "silent", "standard", and "performance" modes for destroying data.

Separate slot, cutting system and residue collection bins for paper & CDs/DVDs; "JamStop Anti-Jam Technology"; Energy Management Control System for up to 90% reduction in energy use; Continuous motor operation & base with casters.

Includes Integrated
Automatic Oiler!

6

OPTICAL MEDIA
DESTRUCTION

The NSA requires that all Optical Media (CDs and DVDs) be destroyed to a particle no larger than 2.2mm x 4mm (reference NSA/CSS Specification 04-02).

Datastroyer® 103-DVD

CD/DVD Shredder

NSA Evaluated and meets NSA/CSS Specification 04-02 for Optical Media (CDs and DVDs) destruction.

NSA Rated at 1500 disks/hour.

Residue Size	2.2mm x 4mm
Capacity	Up to 2,500 discs/hr
Throat	16"
Power	Standard 115V/60 Hz
Bin Volume	39 gallons
Size (H x W x D)	39"x 23.4" x 18.5"
Weight	230 lbs
GSA Price	$3,132.47

Also designed for General Destruction of credit cards, ID badges, etc. Keypad for constant operation and reverse with auto stop for full residue bag or open door.

Specially adjusted thermally protected motor and standby operation for power savings. Convenient pull-out system for residue bag.

No Oiler Required!

MULTIMEDIA OFFICE
SHREDDER/DISINTEGRATORS

Datastroyer® DCS 300
Heavy Duty Office Disintegrator
with Crosscut Pre-Shredder

MADE IN USA

NSA Rated: 100 lbs/hr DOD with 3/32" screen

3 Rotor / 2 Bed Knives

2 HP Motor (4 HP Peak)

Crosscut Pre-Shredder

3,500 CDs/DVDs per hour

High Capacity Vacuum

Quiet operation

46-3/8"H x 23-7/8"W x 28"D

GSA Price: $12,796.30

Datastroyer® DCS 600
Heavy Duty Office Disintegrator
with One Micron Filter

MADE IN USA

NSA Rated: 100 lbs/hr DOD with 3/32" screen

3 Rotor / 2 Bed Knives

Fan Cyclone & Feed Rate Meter included

Crosscut Pre-Shredder for high production

Media feed slot for GENERAL destruction credit cards, memory sticks, ID cards, etc.

Large 55 gallon collection capacity

72.5"H x 48"W x 28"D (includes micron filter)

Price: $18,589.00

Whitaker Brothers Datastroyer® Disintegrators are NSA Evaluated and meet or exceed the requirements for destruction of CDs, DVDs, paper and keytape to NSA/CSS Specification 02-02 for High Security Disintegrators, 04-02 for Optical Media (CDs & DVDs), and 04-01 (keytape).

HIGH VOLUME
MIXED MEDIA DESTRUCTION

**Don't see the system you need?
Ask about our other models!**

Only Datastroyer® Disintegrators provide the following value-added standard features: Solid Steel, Open Rotor Design for greater airflow, cooler operation & efficient destruction • High Chrome/High Carbon D2 Steel Knives for greater durability • NEMA 12 Controls (the highest rating for operator safety & equipment protection) • Reversible Bed Knives which reduce resharpening costs • Welded Plate Construction inside the hopper with Multiple Safety Flaps to reduce noise and provide operator safety. **All of these models are MADE IN THE USA**

7

Datastroyer® 120
(Includes Evacuation System)

Optional Screen Sizes
3/32", 1/8", 3/16",1/4" and more

Datastroyer® 240
(Includes Evacuation System)

Datastroyer® 310
(Includes Evacuation System)

BASIC SPECIFICATIONS

120
Up to 450 lbs/hr DOD (1,100 lbs/hr general)

10" x 12" throat

5 blades (3 rotor/2 bed)

10 HP motor (options avail.)

240
Up to 850 lbs/hr DOD (1,300 lbs/hr general)

12" x 20" throat

7 blades (5 rotor/2 bed)

20 HP motor (options avail.)

310
Up to 1,050 lbs/hr DOD (1,400 lbs/hr general)

14" x 24" throat

7 blades (5 rotor/2 bed)

25 HP motor (options avail.)

HIGH SECURITY PAPER SHREDDERS

All Whitaker Brothers High Security shredders are NSA Evaluated and Meet or Exceed NSA/CSS Specification 02-01 (Level6/P-7, DIN66399) for High Security Crosscut Shredders.

Shredder features may includes: "SPS" Safety Protection System, "ECC" Electronic Control Capacity monitoring, "Easy Switch" Control element, "ESM" Energy Savings Mode, "Jam Stop" anti-jam technology, enclosed cabinet on casters, auto start/stop via phone cell, "Whisper quiet" design, i-control Operational Center, "DLS" Dynamic Load Sensor, etc.
