

## DIY Pin the Eyes on the Spooky Spider

## What you'll need

### Construction paper

Black, Orange, Blue, Pink, Yellow and White  
(or you can use your own favorite colors!)

### Scissors

### Pencil or pen

### Glue Stick

### Tape

### Blindfold

### Banana

(or snack of your choice, optional)

## Friends to play the game with!

## Here wee go!

### Step 1

Print the worksheet, cut out the templates, trace onto construction paper, and cut out the pieces as directed.

### Step 2

Tape all body pieces together, using the image on the cover as a guide. Tape the tabs of each leg onto the back of the body.

### Step 3

Glue the stripes, mouth and fangs onto the spider body. Glue the spider eyes together, but don't put them on the spider body yet.

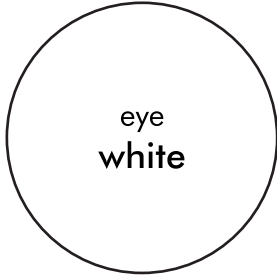

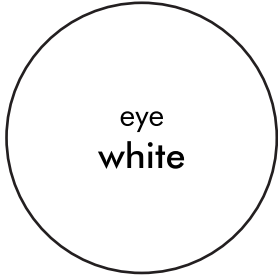

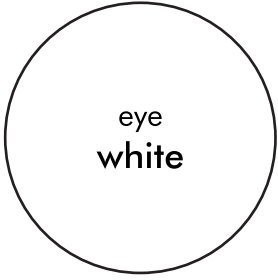

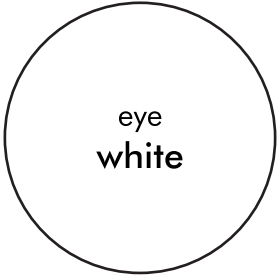

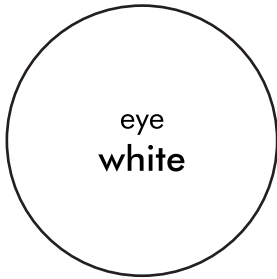

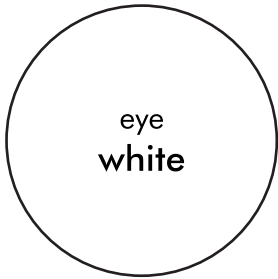

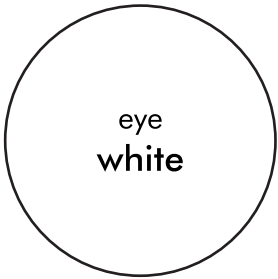

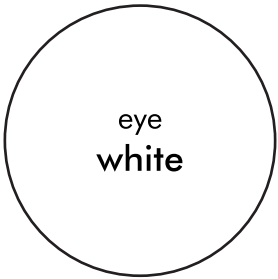

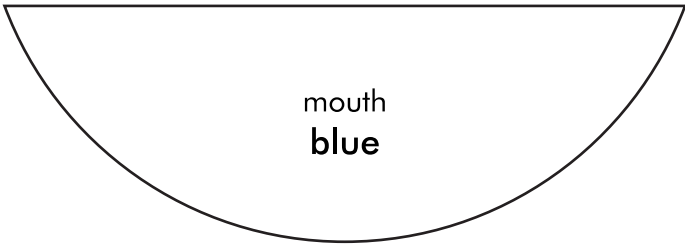

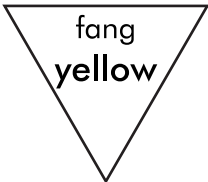

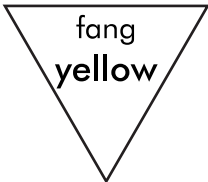

(Make sure to make enough eyes for all your friends to play!)

### Step 4

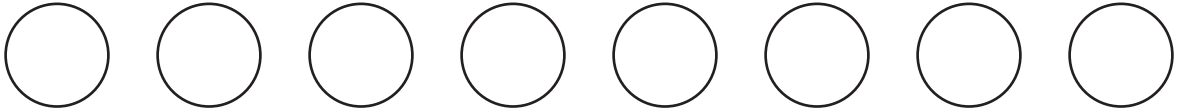

### Time to play!

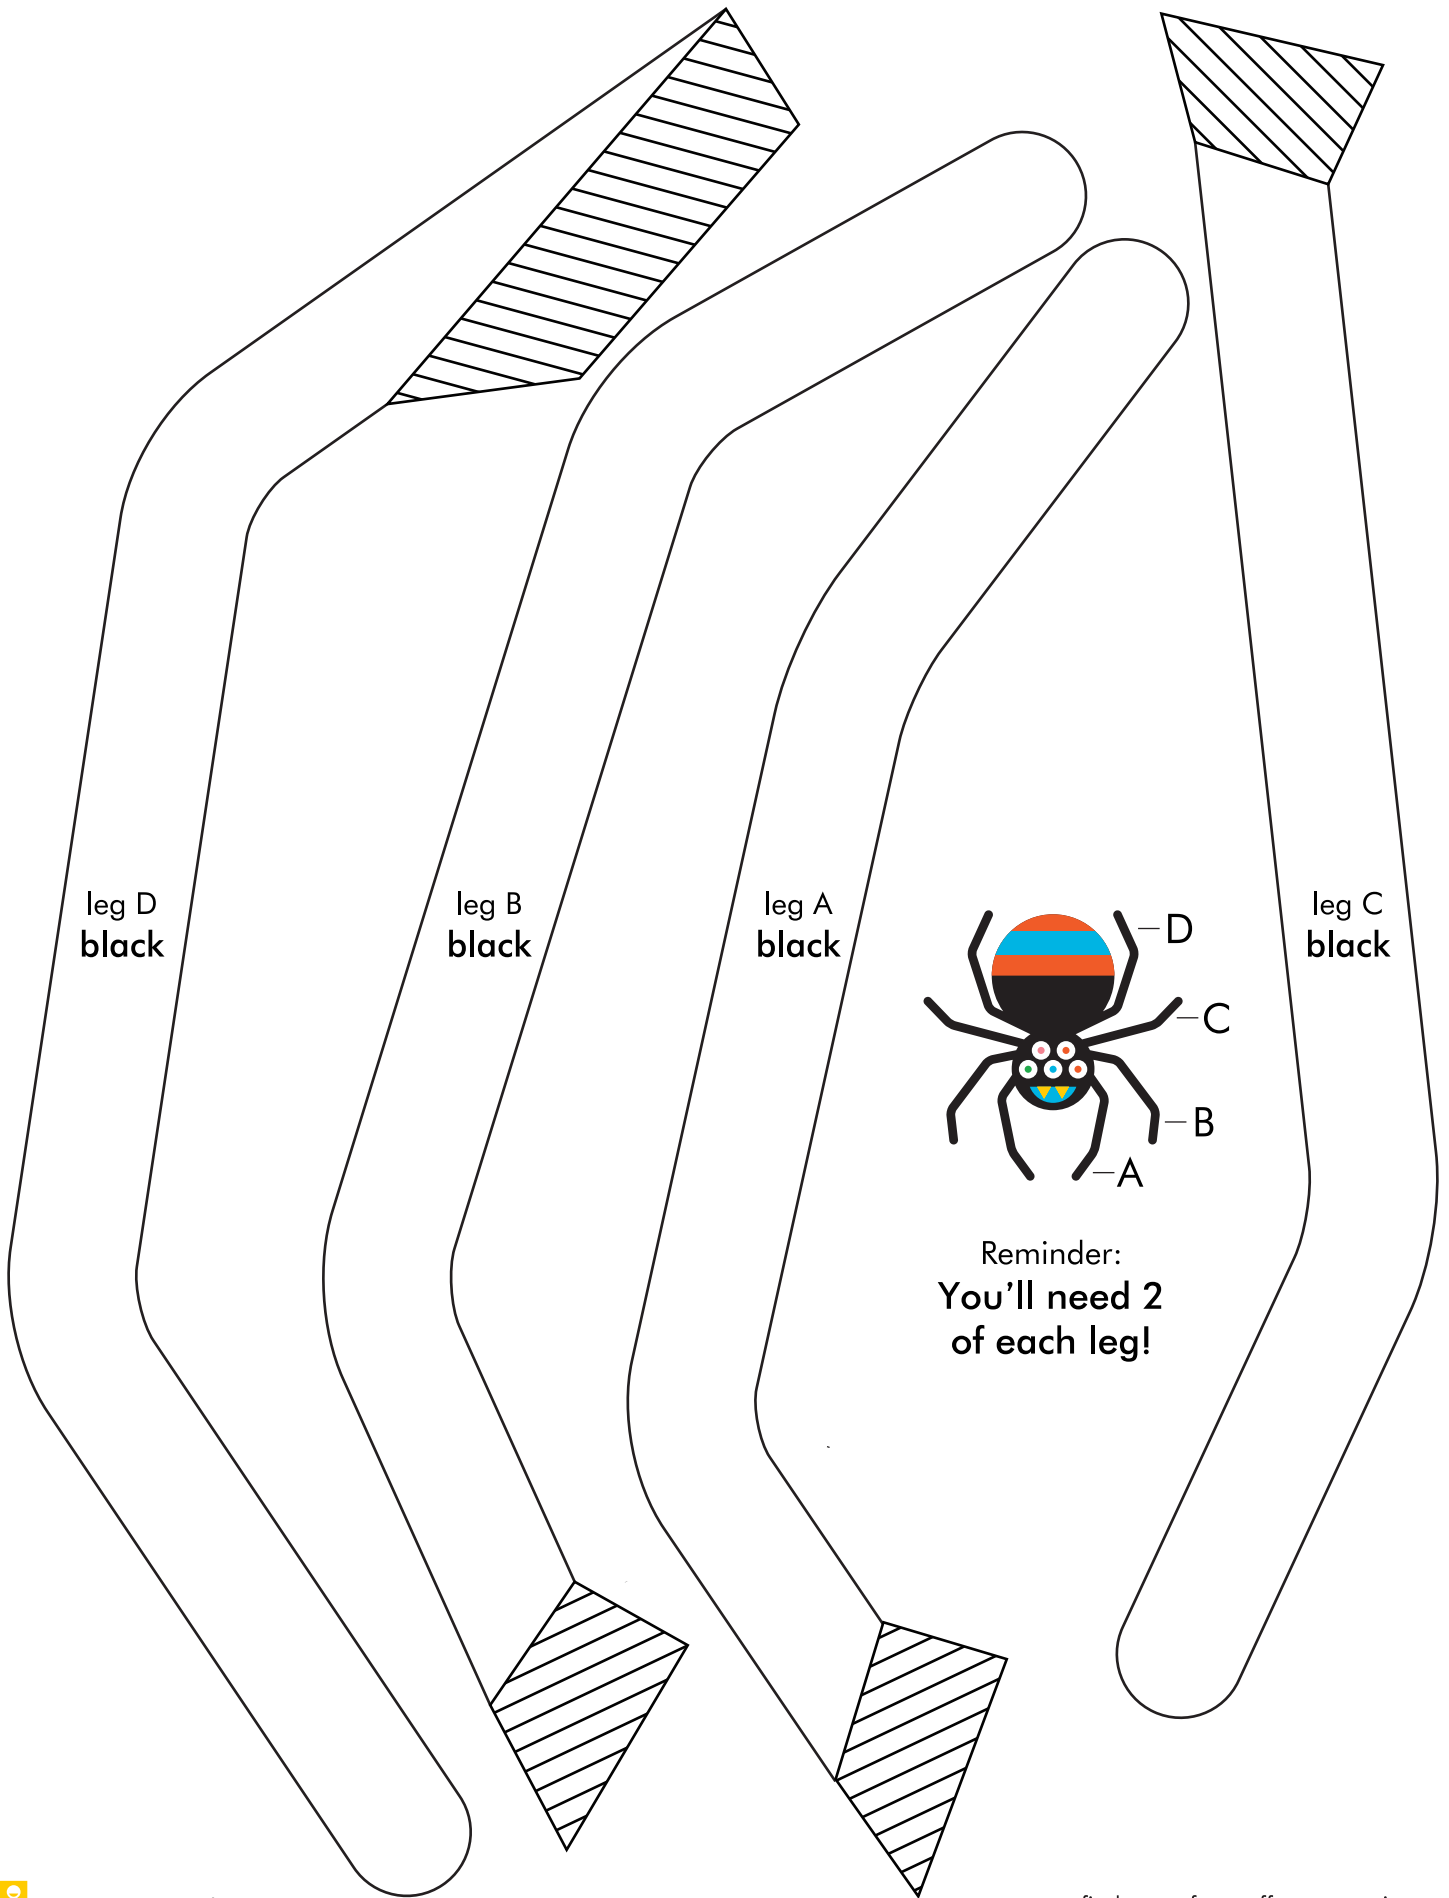

Hang your spooky spider on the wall and take turns being blindfolded and spun in a web (or a circle) and then stick the eyes on the spider. A loop of tape on the back of the eyes works great. The player(s) who land on the spider's face win! (Remember that spiders have eight eyes.)

# Let's do this!

pupils (cut out or use a 1/2" hole punch)  
pink, blue, green, orange

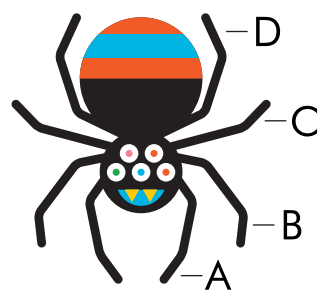

leg D  
black

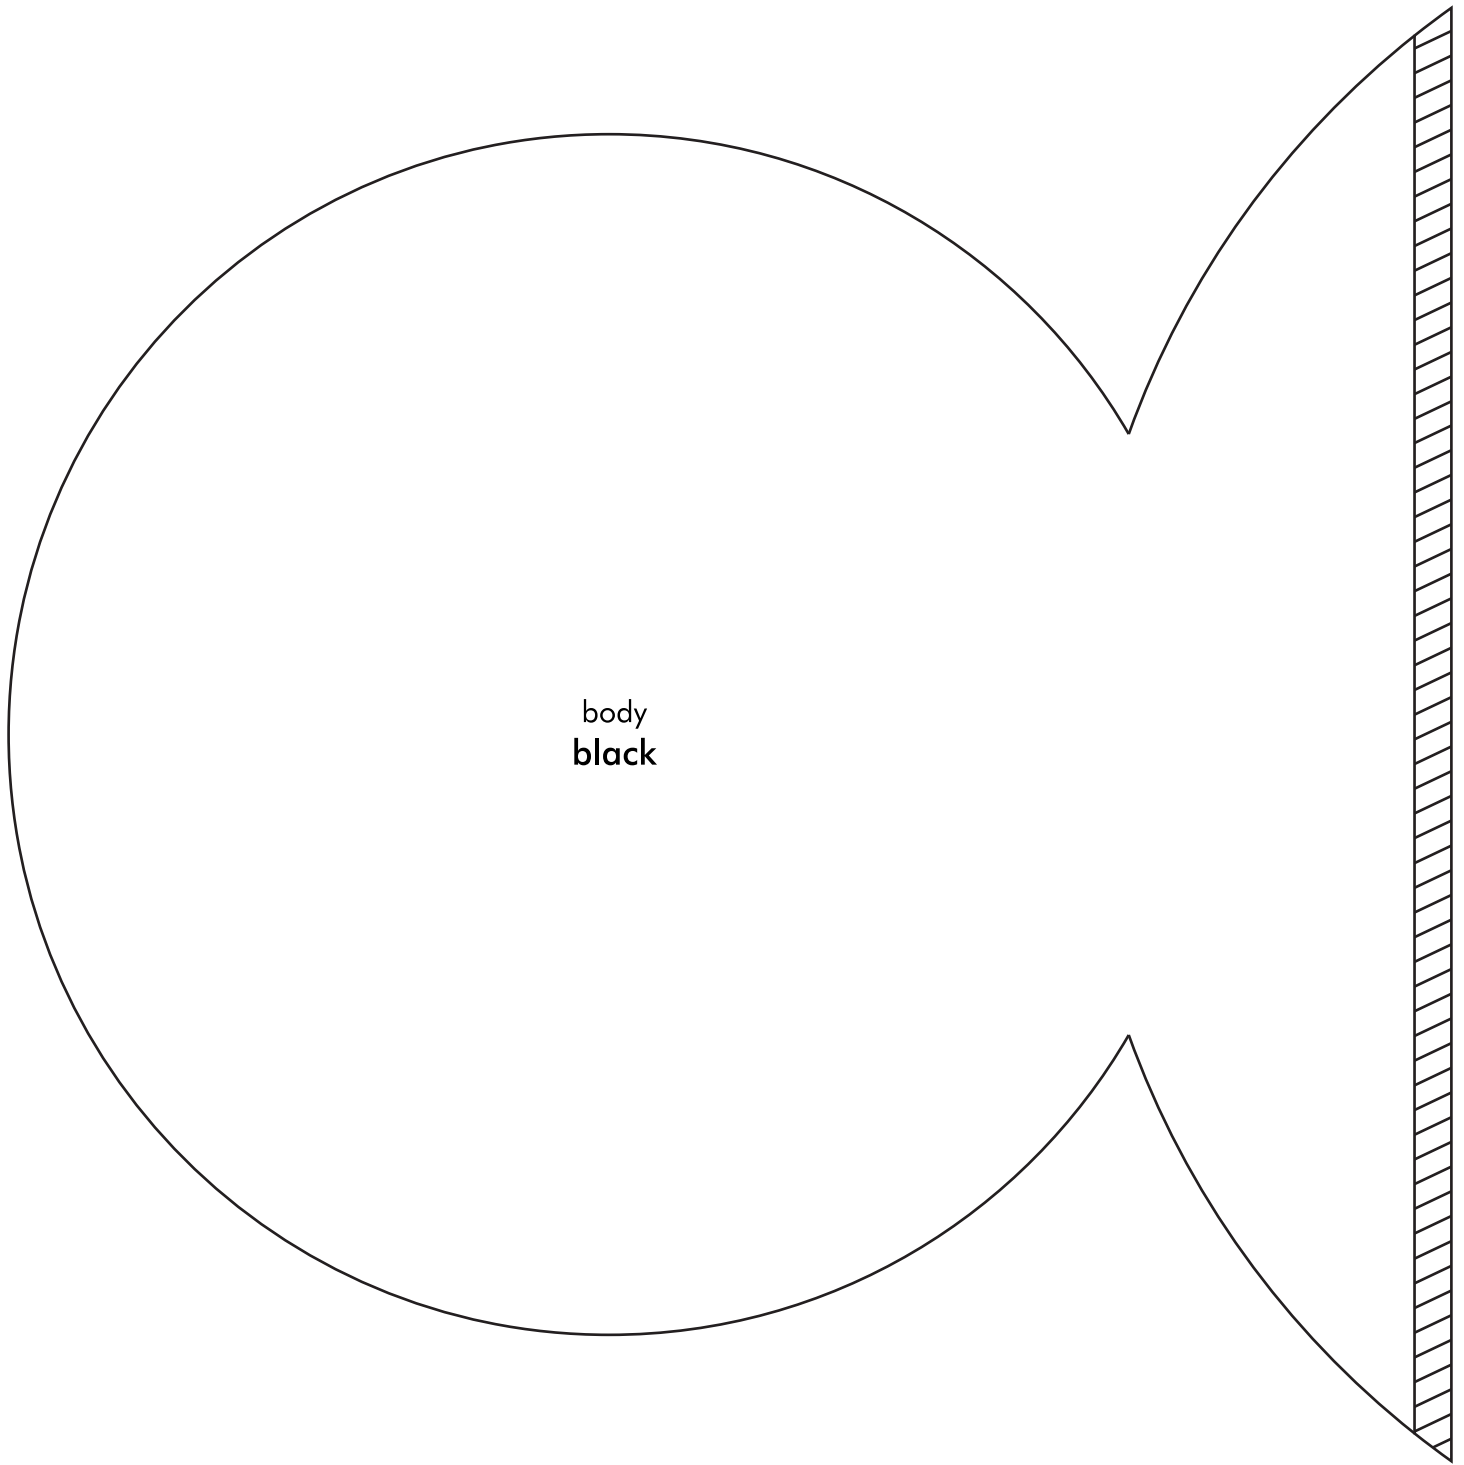

leg B  
black

leg A  
black

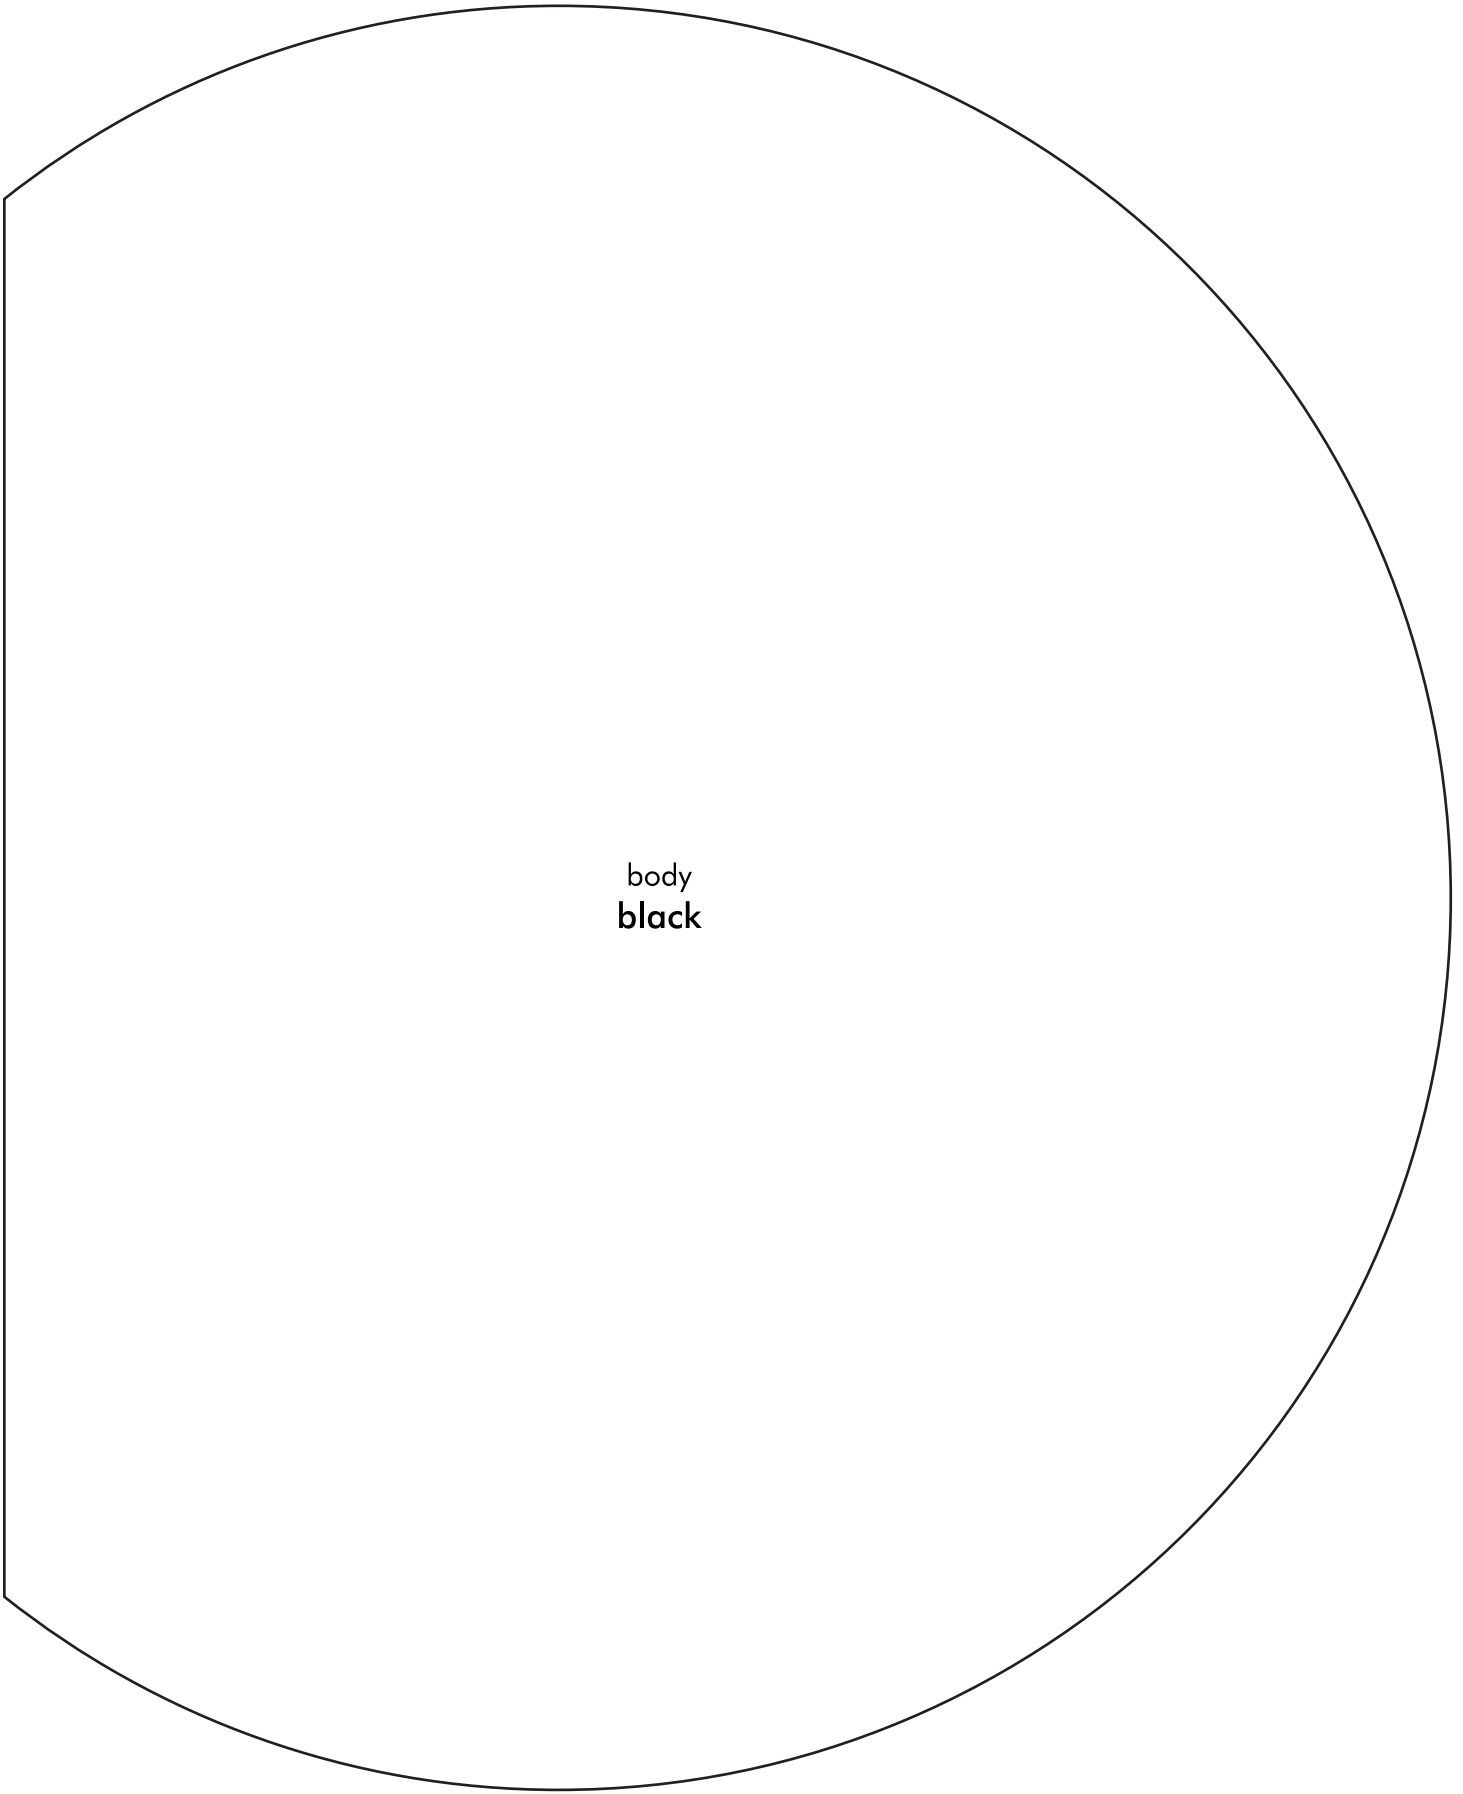

leg C  
black

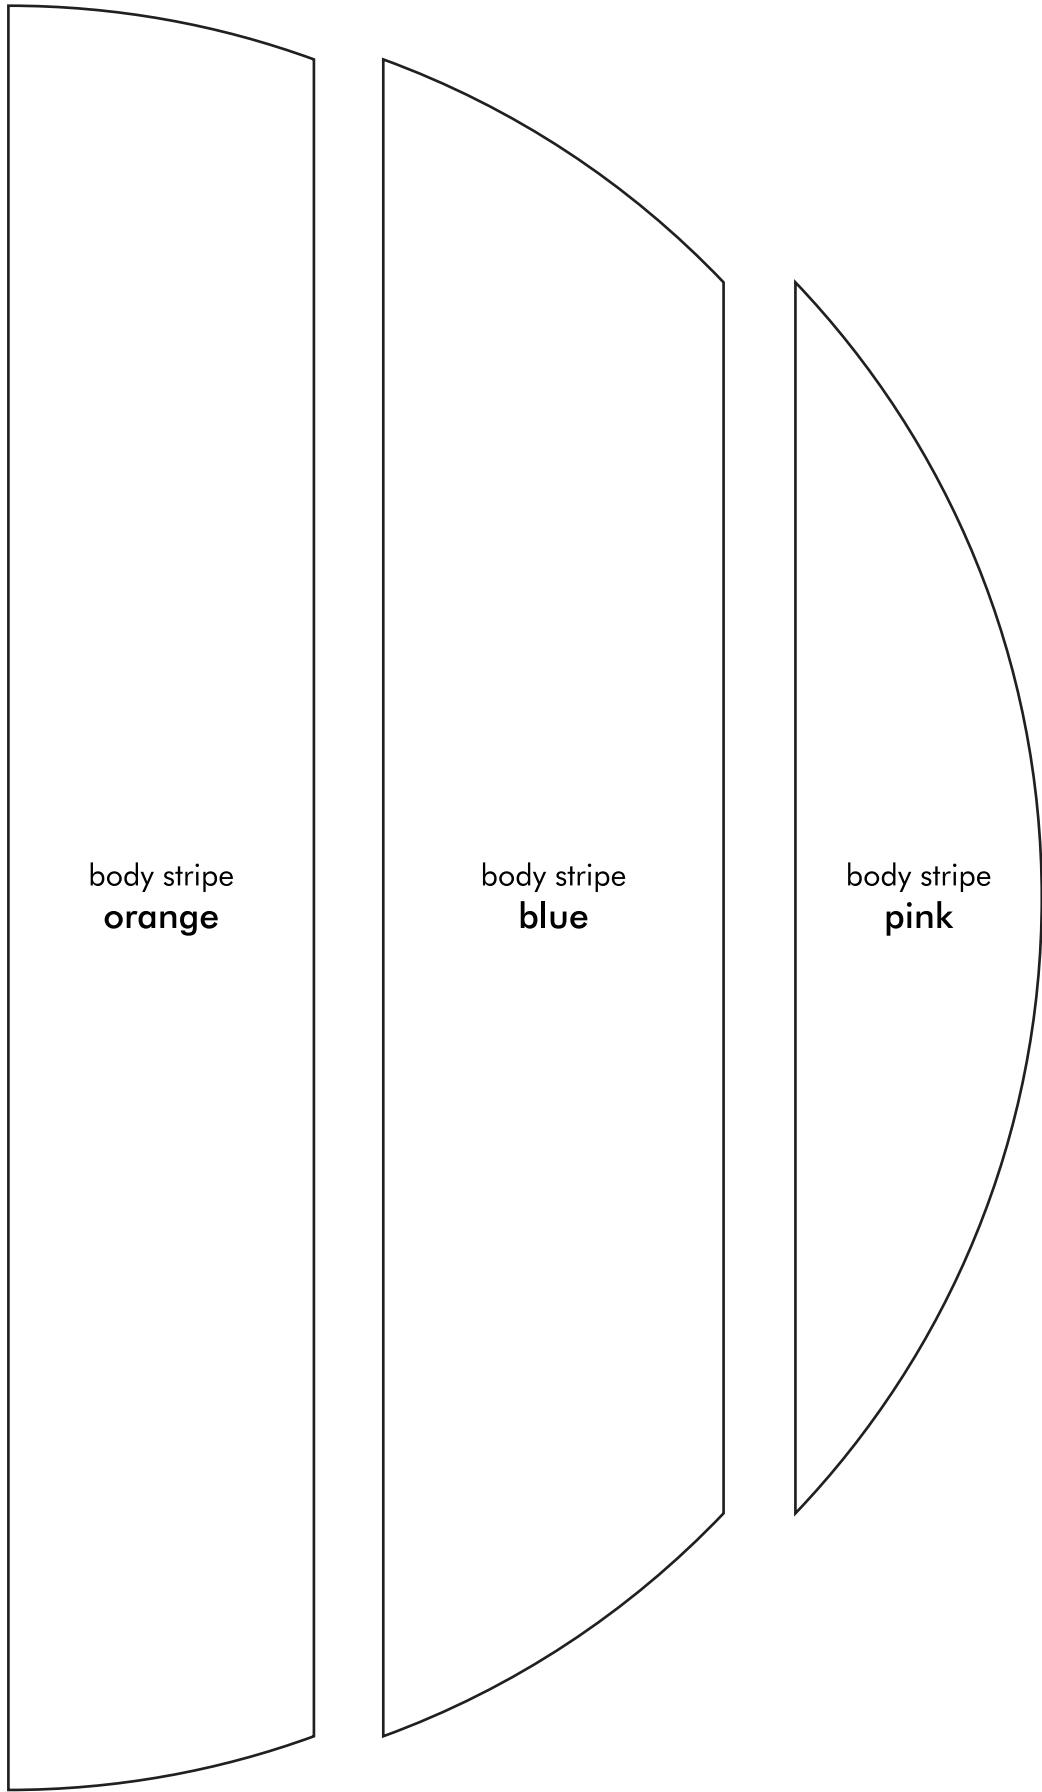

Reminder:  
You'll need 2  
of each leg!
