

## Who are we?

Innovative Water Solutions Inc. is a 100% Filipino owned corporation, registered under Philippine laws. Our office is located in Lapu Lapu City, Cebu, Philippines with distributor offices in Manila, Davao and Ilo-Ilo City.

**Date of Founding: October 2013**

**Date of Establishment: May 2019**

Water is essential to life. But having clean water is now getting harder each day. Therefore, we are always on a lookout on how to make water treatment plants and systems more efficient. Our range of products are economically and environmentally sustainable, most of them requiring only retrofit. We have a dedicated team researching new ways from domestic and international links to find solutions to local problems. Once the problem is solved, we share it with other water treatment specialists around the world. And the cycle continues.

## Corporate Philosophy

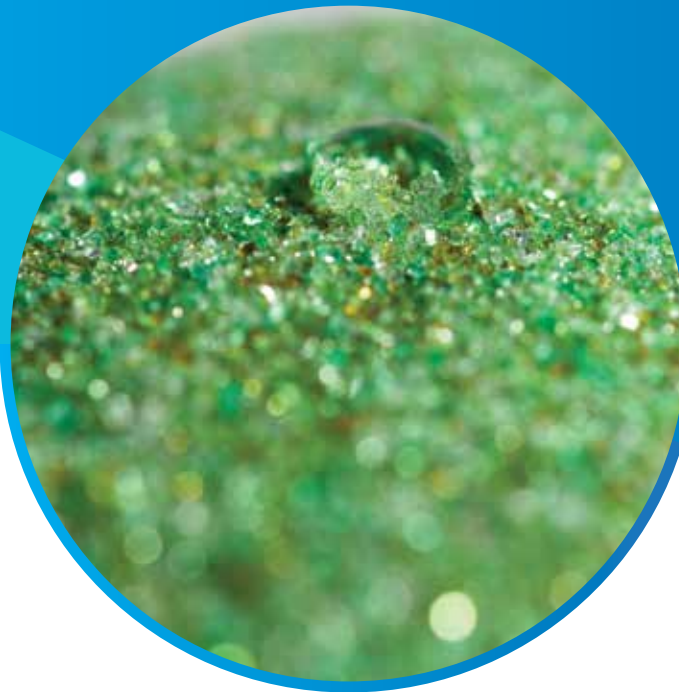

We find ways to provide value in every little way we can. And this overflows to every facet of decision we make.

## Mission

To introduce new ways of filtering water and help expedite the implementation of new technologies introduced to the Philippines.

## Vision

Our vision is to give every person in the Philippines the access to clean, drinkable water without spending a fortune.

## Our Products:

- Filter Media ( AFM® , Silica Sand, Anthracite, Activated Carbon, Catalytic Media, Cationic and Anionic Resin)
- Air Diffusers by Dryden Aqua
- CFA 3726 Coagulant for water and wastewater filtration
- AFA 3725 Flocculant for water and wastewater filtration
- Salt Tablets
- Zeta Potential Mixers by Dryden Aqua
- Desalination Systems (Min. 1MLD)
- Mobile Electro-Mechanical Wastewater Systems by RT Pure (Pay per litre model)
- Seawater On-site Sodium Hypo Generator
- Filter Under drains
- Chlorine Dioxide Powder and Tablets
- Bespoke Mild Steel Filter Tanks
- Calplas Filters
- Besgo Valves
- Ductile Iron Pipes
- Manhole Covers
- Electromagnetic and Analog Flowmeters
- Variable Frequency Pumps by Speck Pumps
- Submersible Pumps by Varuna
- Peristaltic Pumps by Stenner
- Oxygen Probes by Dryden Aqua
- Resin

## Our Services:

- Water Filtration Consultancy - Pressure & Rapid Gravity Filters - Filtration Media.
- Bulk Water Supply - Surface Water, Ground Water or Sea Water.
- Surface Water Treatment Plant - Design and build
- Ground Water Treatment Plant - Design and build.
- Iron and Manganese Removal Systems.
- Arsenic Removal Systems.
- Heavy Turbidity Removal Systems (up to 10,000 NTU).
- Taste and Odor Improval/Removal Systems.
- Retrofitting of Rapid Gravity Filters.
- Aeration Tanks Design.
- Turnkey Water Treatment Systems.
- Water Softening Systems.

## Completed Projects:

- Amkor Technology Philippines - Supply of AFM® for RO pre-filtration - 2020
- Sofitel Philippine Plaza Manila - Supply of AFM® for wastewater system - 2020
- Fresenius Medical Care Phils Inc. - Mactan Doctors Hospital - Supply of AFM® for RO pre-filtration - 2020
- Fresenius Medical Care Phils Inc. - Cebu Doctors University Hospital - Supply of AFM® for RO pre-filtration - 2020
- Fresenius Medical Care Phils Inc. - South General Hospital - Supply of AFM® for RO pre-filtration - 2020
- Fresenius Medical Care Phils Inc. - North General Hospital - Supply of AFM® for RO pre-filtration - 2020
- Fresenius Medical Care Phils Inc. - San Carlos Doctors - Supply of AFM® for RO pre-filtration - 2020
- Fresenius Medical Care Phils Inc. - Ormoc Doctor Hospital - Supply of AFM® for RO pre-filtration - 2020
- Taiyo Yuden - Silica Sand, GAC & Anthracite Supply for potable water – 2020
- Jardin De Busay - Supply of AFM® and Chemical supply - 2020
- Golden Sands Destination Resort - Supply of AFM® and Chemical supply - 2020
- Metro Roxas Water District - Retrofit of two (2), 40sqm filter beds leading to increased production from 30MLD to 38MLD – 2019
- Amkor Technology Philippines - Supply of AFM® - 2019
- Taiyo Yuden - Silica Sand, GAC & Anthracite Supply for potable water – 2019
- Koronadal Water District - AFM® and GAC supply for Iron and Manganese system -2019
- Cabanatuan Water District - AFM® Supply for Iron and Manganese System - 2019
- Shangrila's Mactan Resort & Spa - Retrofit of AFM® in Ocean Filters for Ocean pool – 2019
- Sablayan Water District - AFM® Supply for Tannin Removal -2018
- Koronadal Water District - AFM® Supply for Iron and Manganese System - 2018
- Shangrila's Mactan Resort & Spa - Pre-Treatment by AFM® Filters for Desalination – 2018
- Taiyo Yuden - GAC & Anthracite Supply for potable water – 2018
- Fresenius Medical Care Phils Inc. - AFM® Retrofit in all of their RO Systems - 2018
- Boracay Tubi System Inc. - AFM® Supply for Potable Water System - 2017
- City of Dreams - AFM® supply for swimming pool - 2017
- Metro Cebu Water District - AFM Supply for turbidity removal - 2017
- Perfection Packaging Solution Services Corporation - AFM and Anthracite Supply - 2017
- Fresenius Medical Company - RO System Supply for Dialysis - 2017
- Novel Ventures - Waterwater system SBR - 2017
