## New Style Snowmen Fringe Instructions

There are two two types of fringe. The first is closed loop fringe which is when you cut the bobbin thread of the satin stitch that is to be the fringe. The second is when you cut the loops so the ends of the fringe thread can become fuzzy as they start to unwind.

The fringre for the Snowmen is the satin stitch on the ends of the scarfs.

### Closed loop fringe.

1. On the back side of the design carefully cut the bobbin thread of the satin stitch that is going to be the fringe. Try to stay between the bobbin thread and the stablizer. Use care not to cut through your fabric

2. Turn design to the front side and using your finger or tweezers gently rub the stitches to bring them to the front side.

### Cut loop fringe

There is two ways to make the cut loop fringe. One way is to follow the steps for the closed loop fringe then after pulling the thread to the front of the design (step 2) just trim the ends of the loops with your scissors. Another way is to use a trimmer I have a remington model WPG-4020.

1. Using the trimmer cut the edge of the satin stitch try to stay on top of the stablizer so you won't cut through you fabric. When you have the trimmer at the right angle it will easly cut the thread.

2. Turn design to the front side and using your finger or tweezers gently rub the stitches to bring them to the front side. The picture below shows the difference between closed fringe in red and cut fringe in orange.
