**PREAMBLE**

The **State of Turkey** study was prepared by the Country Studies Division of the **ICDM** with the contribution of the following areas of expertise:

**LÉPAC**

The **Laboratoire d'études prospectives et d'analyses cartographiques** (Laboratory of prospective studies and cartographic analysis) is a private and independent research centre specialised in international, geopolitical and forward-looking issues. Founded in 1992, and based in Paris, **LÉPAC** stands out in terms of the multi-disciplinarity of its team, the transversal nature of its analyses, its data visualisation know-how and its map expertise.

**TAC ECONOMICS**

Founded 25 years ago, **TAC ECONOMICS** is a group of experts which makes diagnoses and metrics based on scientific models in the field of economic and financial risks. **TAC ECONOMICS** provides analysis and expertise for large groups and major international banks.

ICDM is a partner of **ADIT**, Europe's largest strategic intelligence group.
