LOOKBOOK

CLIC by Suzanne

I'm proud to present to you the new lookbook of my collection.

We expand our collection periodically with great new designs.

Our jewelry is classified by colour so you see at a glance which models are available in your favorite colour.

Also view our new colours dark green and orange. Or choose a gold silver combination. And who knows, you might keep it simple basic.

We combine our colours with matt and gloss, but also surprise you with new shapes and small golden and silver accents.

You will find the complete overview of all the beauty in this lookbook. Be inspired by our collection!

I started making jewelry as a hobby while studying Financial Economics in Amsterdam. After a while I followed my heart and started a formal goldsmith training at the renowned Goldsmith school in Schoonhoven, The Netherlands.

After graduating I went to the U.S. where I worked as jewelry designer and goldsmith. After my return to the Netherlands I developed my first CLIC collection.

It is my passion to develop new shapes and combinations.

It is very special to see how my designs surprise people over and over again...

Jewelry is always connected with memories and emotions... it's great to hear the stories people tell me about their jewelry.

I would love to hear your stories!

Stylish basic

The designs of CLIC by Suzanne distinguish themselves by their simplicity and their strong geometric shapes. Two principles are the base of every design: wear ability and the invisible clasp. Every piece is designed with passion and hand crafted in our studio in The Netherlands. The jewelry is timeless and continues to captivate through their simplicity and clean lines. Acknowledgeable by simple shapes and subtle combinations of matt and high gloss polishing.

You can wear our jewelry on special occasions as well as in your everyday outfit. The comfort of wearing is further assured by the use of the light and allergy free aluminium. In addition, the magnetic lock is invisible placed in the ornament of the necklace and easily opens in the front ornament.

A deep special colour with more layers than you suspect at first glance. Orange is a mix of red and gold, yellow and makes it subtly combine energy, happiness and wisdom.

This colour stands out and at the same time adapts easily to your choice of clothing. A beloved, royal colour that opts for victory with a warm appearance. Enjoy the jewelry we designed for you in this colour.

Gold

The colour of wisdom and knowing from within. Questions are superfluous when you wear this colour. You radiate a deep knowing that reflects your wisdom. Gold is beautiful, rich and gives you a feeling of abundance and luxury. Wonderful to wear and to combine with the silver matte touch that we often add to our collection because we love nuances.

We hope you too!

Green

A colour that makes you shine in a subtle way and fits beautifully with the autumn colours.

Which season is this versatile colour not suitable for? We have selected a beautiful dark green colour. This colour green symbolises our natural development and trust in our inner strength. Green is also the colour of the more thoughtful type, who first takes in the situation from a distance and intuitively feels the different influences, and then deliberately takes the next step in life.

A number of proven classics of the collection are now executed in this special green.

Blue

A clear, bright, subtly striking colour that goes beyond your understanding and at the same time gives a sense of control, structure and overview. It makes you goal-oriented without coercion and gives you a clear view of the situation.

Blue radiates peace, tranquility, space and freedom. Beautiful with multiple other shades of blue, but also as a contrasting colour, blue is never of place for anyone.

Purple

Mystical and special perhaps only for the elite? Not everyone feels comfortable with this pronounced colour. It's not everyone's friend but radiates respect for the world. I has a special, almost enchanting, appearance. Yet it is surprisingly easy to combine subtly and outspoken at the same time.

It is precisely this combination of blue and red that will often adapt to add an extra defining touch.
