

Pendulum Metabolic Daily

Improve metabolism*

Metabolic Daily is a live multi-strain probiotic that naturally replenishes the gut microbiome, optimizing metabolism to support a healthy weight.

This targeted formula also helps break down fiber and increases beneficial postbiotics and hormones, such as butyrate and GLP-1, which help maintain blood sugar levels. The result? Less sugar cravings and crashes—just balanced, sustained energy throughout the day.

Good to know

- ✓ Adults take 1 capsule daily with food
- ✓ Refrigerate for optimal quality
- ✓ Pendulum products do not contain any of the 9 major allergens nor does our manufacturing process create allergens, therefore we are confident that our product is allergen free. Products are produced in a facility that manufactures milk, egg, fish, shellfish, tree nuts, peanuts, wheat, sesame, and soybean-containing products

Reduces sugar
cravings

Breaks down carbs

The powerful ingredients in Metabolic Daily

 <p><i>Clostridium butyricum</i></p> <p>Naturally found in the human gastrointestinal tract, this strain is named for its ability to produce high amounts of the short-chain fatty acid, butyrate. It's been associated with digestion support and immune health.</p>	 <p>Pendulum EXCLUSIVE</p> <p><i>Clostridium beijerinckii</i></p> <p>This novel strain produces the short-chain fatty acid, butyrate, which helps the body process sugar and nourish the lining of the gut.</p>	 <p>Pendulum EXCLUSIVE</p> <p><i>Anaerobutyricum hallii</i></p> <p>This is another strain known to produce the short-chain fatty acid, butyrate, to help the body process sugar and nourish the lining of the gut.</p>
 <p>Pendulum EXCLUSIVE</p> <p><i>Akkermansia muciniphila</i></p> <p>A highly targeted live strain that can only be found in Pendulum products. People with type 2 diabetes are shown to be deficient in Akkermansia, a keystone beneficial strain for gut barrier function and also associated with healthy weight management.</p>	 <p><i>Bifidobacterium infantis</i></p> <p>This strain breaks down a range of foods and produces the intermediate molecules that are used by the three butyrate-producing strains. It also helps maintain a healthy gastrointestinal tract and alleviates digestive issues.</p>	 <p>State of the art delivery capsule</p> <p>Metabolic Daily is encased in a plant-based, acid-resistant, delayed release capsule, so that the strain gets through the stomach acid and to the gut microbiome where it can do its job.</p>

Bring this innovative approach into your practice

Help your patients find optimal health by harnessing the power of the gut microbiome with Pendulum's clinically-studied strains. Create an account to access education, resources, and special healthcare pricing.
