Protocol: Support Intestinal Barrier Function

Developed in collaboration with Britta Nevitt, ND

Disclaimer: The Pendulum team has created these protocols in collaboration with practitioners to help healthcare partners make decisions when building treatment plans. When using this protocol, you understand and accept that the recommendations in the protocol are for educational guidance and need to be adapted to meet individual patient needs. This may not be appropriate for every patient.

Description

Akkermansia muciniphila has appeared in over 800 scientific publications, and abundance has been associated with maintaining intestinal integrity¹. The primary function of *Akkermansia muciniphila* is to support healthy mucin layer turnover in the intestines, and thus strengthen the intestinal lining. Furthermore, this process releases short chain fatty acids such as acetate and propionate, that support the abundance and diversity of other health-promoting microorganisms in the gut, including the butyrate-producing strain *Clostridium butyricum*. *Clostridium butyricum* is shown to improve gut barrier function by increasing mucosal layer thickness and increasing expression of tight junction proteins, making it another beneficial strain for supporting intestinal barrier function².

To optimize the presence of *Akkermansia muciniphila*, polyphenol-rich prebiotic foods are not only beneficial antioxidants, but have also been shown to increase *Akkermansia* population in the gut³.

Top Polyphenol-containing Foods				
Seasonings	Fruit	Vegetables	Nuts + seeds	Extras
Cloves	Blueberries	Black olives	Flaxseeds	Dark chocolate
Peppermint	Pomegranate	Green olives	Hazelnuts	Red wine
Oregano	Cranberries	Artichokes	Pecans	Coffee
Sage	Cherries	Red onions	Almonds	Black tea
Rosemary	Blackberries	Spinach	Walnuts	Green tea

Support your supplement plan with this polyphenol-rich prebiotic food list.

Supplement Plan

Pendulum Akkermansia: 1 capsule, once daily with food

Pendulum GI Repair: 1 capsule, once daily with food

Pendulum Polyphenol Booster: *optional add on to boost Akkermansia which may further enhance the benefits
