

ABACUS ROW

Find your bracelet size.

To determine your bracelet size, print this page exactly. Make sure to print this page at 100%. Do not scale to fit. Use the outlined box below to confirm that the page printed at 100%. If it matches perfectly, you're set to move on.

- 1 Cut along the dotted line to separate the ruler from the page. Cut a slit in the ruler as marked.
- 2 Wrap the ruler around the smallest part of your wrist, just above your wrist bone. Slide the pointed end of the ruler through the slit and find which of our standard bracelet sizes (6.0", 6.5", or 7.0") offers you the best fit. We recommend allowing enough room to comfortably place your index finger between your wrist and the bracelet sizer.
- 3 Read the measurement where the ends overlap—that's your bracelet size. If you need a size that is smaller or larger than the standard lengths that we offer, please note the measurement and email us at info@abacusrow.com to request a custom order.

Place a credit or ID card here to confirm that the ruler printed at 100%.
