

Dust Proof

Product # 288D

Dust Proof is used to help control dust on dirt and gravel roads, construction sites, or other commonly dusty areas. By absorbing moisture from the air, it helps to keep dust down and productivity up. Dust Proof is one of the few products on the market to incorporate three different active ingredients.

Use on:

- Parking Lots
- Fairgrounds
- Gravel Roads
- Construction Sites
- Driveways
- Dirt Roads

Features and Benefits

- Fast and easy to use
- Suppresses dust on gravel & dirt roads in the summer

Properties

Appearance..... Aqua
Fragrance..... None
pH..... 9 - 10

Directions

 Complete directions on product label

USE 0.25-0.45 gallons per square yard to suppress dust on gravel and dirt roads. This use rate will draw moisture from the air to keep road surface constantly damp, even in arid environments. The moisture creates a hard and compact road surface, and because it penetrates into the road base, it will also contribute to road stability. By depressing the freezing point of the moisture in the road surface, it will help minimize frost heave damage in the winter.

	CAS Number
Water.....	7732-18-5
Calcium chloride.....	10043-52-4
