

TRIPLE THREAT

SELECTIVE WEED KILER

**CONTROLS MORE THAN 130
BROADLEAF WEEDS**

DIRECTIONS

This product contains a foam which marks the spot where the weed killer has been applied.

1. Shake can just before using and occasionally during use.
2. Invert can, hold at arm's length, and point can at weed as you press button. Do not press button when can is in upright position.
3. Stand close to weed (1 to 2 feet) with can aimed at weed and away from face.
4. Push down briefly on button. Spray to cover center of weed, do not over-spray. The spray's foaming action will make it easy for you to see coverage.
5. One application will kill most weeds listed. If certain tough weeds are not dead within 3 weeks, repeat application

After applying this product, many broadleaf weeds will begin to show visible signs of leaf curl within a few days. Some hard-to-control broadleaf weeds may require an additional treatment in 3 to 4 weeks
