SECTION 4: First aid measures		
4.1. Description of first aid measures		
First-aid measures general	:	If you feel unwell, seek medical advice (show the label where possible).
First-aid measures after inhalation	:	Remove person to fresh air and keep comfortable for breathing. If breathing is difficult, give oxygen. Artificial respiration and/or oxygen if necessary. Respiratory problems: consult a doctor/medical service.
First-aid measures after skin contact	:	Wash with plenty of soap and water. If skin irritation or rash occurs: Get medical advice/attention. Take off contaminated clothing and wash it before reuse.
First-aid measures after eye contact	:	Rinse immediately with plenty of water. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention.
First-aid measures after ingestion	:	Do NOT induce vomiting. Immediately call a poison center or doctor/physician. Never give anything by mouth to an unconscious person.
4.2. Most important symptoms and eff	ects,	
Symptoms/injuries	:	Extremely flammable. Contents under pressure. Depression of the central nervous system. May be fatal if swallowed and enters airways. Causes damage to organs (central nervous system, cardiovascular system, eyes, Skin). Toxic if swallowed, in contact with skin or if inhaled.
Symptoms/injuries after inhalation	:	Central nervous system depression. Repeated exposure by inhalation or skin absorption may cause systemic poisoning, brain disorders, and blindness. Toxic if inhaled. May cause drowsiness or dizziness. Headache.
Symptoms/injuries after skin contact	:	Toxic in contact with skin. May cause irritation to skin.
Symptoms/injuries after eye contact	:	May cause severe irritation.
Symptoms/injuries after ingestion	:	May be fatal if swallowed and enters airways. MAY BE FATAL IF SWALLOWED. May be harmful if swallowed. Swallowing a small quantity of this material will result in serious health hazard. This material contains methanol, which, when ingested, has cards acidosis, ocular toxicity ranging from diminished visual capacity to complete blindness, and death.
