

DESCRIPTION

A naturally green, inorganic compound that is a non-corrosive liquid, quickly penetrates to dissolve frost, snow and ice accumulations from a wide variety of surfaces. Its melting action does not generate any heat, and it will not cause damage to the surface or leave a residue. Is non-burning to surrounding grass areas. Can be used prior to or after ice and snow accumulation.

Use for ice and snow removal agent on highways, bridges, and other roadways. This product may also be used as a prewetting agent for granular deicers, where it acts to reduce the tendency of these products being swept off the road before deicing begins.
