This highly concentrated sewer tracing dye is formulated for use in all types of sewer flow studies and pollution investigations. It creates an intense fluorescent yellow/green color for maximum visibility under a wide variety of conditions.

This dye contains biodegradable, non-toxic ingredients. When used at the proper dilutions, it is harmless to wildlife, and will not affect the operation of sewer treatment processes. Non-natural fluorescent color promotes safe use and aids in controlling public reactions.

- ★ **Flow origination studies**
- ★ **Infiltration studies**
- ★ **Septic system inspection**
- ★ **Time-of-use studies**
- ★ **Pollution investigations**
- ★ **Maintenance analysis**

DIRECTIONS

Apply dye as required for proper study of flow. 1 to 2 gallons will impart visible color to approximately 12,000 gallons of water.

WARNING

Harmful if swallowed. Avoid contact with skin, eyes or mucous membranes. In case of contact, flush eyes with plenty of cool water. If irritation persists, obtain medical attention. If swallowed, give person several glasses of water and obtain immediate medical attention.
