

# III E MARY ESSES

## Ring Size Chart

Print this chart to determine the size of your ring.  
Page scaling must be set to "none" on your printer dialog box and you must  
print at 100% - full size.

Please, verify the correct size of your print out.

If you have a ring that fits the finger to be sized, place it over the circles below, matching the  
inside edge of the ring to the drawing. If the ringer falls between two sizes, choose the larger size.
