

HOW TO MEASURE YOUR WIG SIZE

Before beginning, flatten your hair. Use a tape measure to ensure accuracy. Start at your natural hairline for all of the measurements.

Circumference

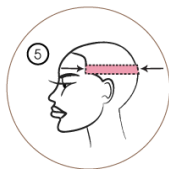

Front to nape

Ear to ear across forehead

Ear to ear over top

Temple to temple round back

Nape of neck

Please enter these measurements into the instructions box when placing your order

Please number them 1-6 in the same order as shown above.

Thank you! We look forward to receiving your order and supplying you with one of the best real human hair extension wigs on the market.
