

# CONFIGURA BARIATRIC

Distributed By:

Configura® Bariatric brings Configura® technology to bariatric seating. This offers unprecedented adjustability, flexibility and peace of mind for the prescriber.

It is also available with a full width alternating air cushion to meet the needs of users at high risk of pressure damage.

- **EASY ADJUSTMENT** before and after delivery to suit varied and changing needs
- **QUICK** and easy to recycle via removable, washable covers
- **AFFORDABLE** providing more consistent budget management and significant savings on special chairs

### Tilt-in-space (with independent legrest)

Tilt-in-space improves pelvic stability and posture, pressure distribution, circulation, makes hoisting easier and reduces the tendency to slip forward in the chair.

### Dual Motor

Configura® Bariatric's Dual Motor operation allows independent adjustment of the legrest elevation and backrest recline.

### Width adjustment

The Configura® Bariatric range makes selecting the chair width easy and trouble-free via removable armrests.

127kg weight capacity on legrest

Breathable, wipeable fabric on seat base and backrest.

Supportive armrests for easy transfers.

\*TIS = Tilt in space model.
