

For who you are & what you need...

Lightweight Rollators

For who you are & what you need.

At any age, we need to feel good and stay active. Knowing that we can get up and go anywhere, at any time, is vital to your independence and enjoying life to its full potential.

With this in mind, we developed our **Airgo®** rollators. Offering more than just support, they provide convenience, comfort, stability and security. We take great care to create distinct models that offer unique features so that you can choose one that's right for you.

The joy of walking is that it is a safe, easy and effective exercise. An **Airgo®** rollator can help you improve your health and may even increase your energy level over time, as you walk.

There's an **Airgo®** rollator for you. Try one today and feel the difference with every step!

Our exclusive features make a difference!

Handles

Only **Airgo®** features **Ergo-form Handgrips** that fit much more comfortably and place your hand at a natural angle for better brake access. They allow you to reach and grip the brakes without shifting, allowing for better control and added safety.

Feather-touch brakes offer easy manoeuvrability.

Available on: eXcursion™, Fusion™, Lightweight Rollator, Adventure 8, Comfort-Plus, Comfort-Plus XWD and Ultra-Light 6.

Backrests

Our large **Contoured Backrest** provides full back support thanks to its unique profile design. It comfortably encompasses your entire back while providing improved support for your posture.

Available on: eXcursion™, Fusion™ and Vista™.

The **Ergo-Back** is simply the most comfortable rigid rollator backrest available today. It features an ergonomically shaped soft padded cushion made from high density foam.

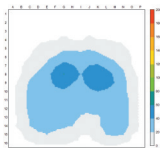

Available on: Comfort-Plus and Comfort-Plus XWD.

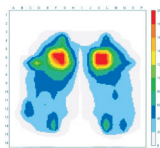

Seats

The **Ergo-Seat**'s ergonomic shape and high density foam cushion with laminated memory foam on top provides unrivalled seating comfort. Its unique design distributes weight effectively across the entire surface, reducing average pressure measurements by as much as 70% over standard rollator seats.

Available on: Comfort-Plus and Comfort-Plus XWD.

Ergo-Seat™
Pressure map with Piezo resistive technology

Normal Hard Seat

Footrests

Our new **Swing n' Lock Footrests** secure to the frame when folded, allowing for a hassle free experience. Converting from a rollator to transport chair has never been easier!

Available on: Fusion™.

Basket

Soft Basket (underseat) that does not need to be removed when folding the rollator. With convenient compartments and zipper closure, it is opaque and located under the seat for stability, keeping valuables organized and accessible to the user yet safely out of sight.

Available on: Adventure 8, Comfort-Plus, Comfort-Plus XWD and Ultra-Light 6.

Our covered **Soft Basket (side-fold)** with reflective stitching doesn't need to be removed when folding your rollator. In addition, it is machine washable and dryable for easy cleaning.

Available on: eXcursion™, Fusion™ and Vista™.

Wheels

Comfort-grip™ Indoor/Outdoor Wheels are non-marring and offer better grip on carpet along with superior braking action. Solid mags for easy maintenance.

Available on: Comfort-Plus and Comfort-Plus XWD.

Our new **Low-Profile Comfort-Grip™ Wheels** feature a sport tire design that offers better stability, with low rolling resistance on smooth indoor surfaces. Once outdoors, the outer treads grip in to provide superior control.

Available on: eXcursion™ and Fusion™

Brakes

Our new **Tool-Free Brake Adjustment** makes adjusting your brake cables a breeze. The large knob is senior friendly and FAQ videos are available on our website.

Available on: eXcursion™, Fusion™ and Vista™.

Height options

We're not all created the same. Our Multi-Height Frames allows comfort and safety to fit even more people by offering our rollators at the seat height that's right for you.

Available on: Adventure 8, Comfort-Plus, Comfort-Plus XWD, Ultra-Light 6, eXcursion™ and Fusion™.

Real Life Engineering

Your Airgo® Rollator is guaranteed to be free from defects in materials and workmanship. This commitment demands that our products are engineered to last, but more importantly, it allows you the confidence and freedom to get up and go, anywhere, anytime!

We also appreciate your feedback so we can learn how to continuously improve our rollators. We call this “Real Life Engineering”.
