# Get more out of every test.

BACtrack Vio makes it easy to be smart about drinking. Test, track, and learn about your BAC results to gain a better understanding of how alcohol affects you.

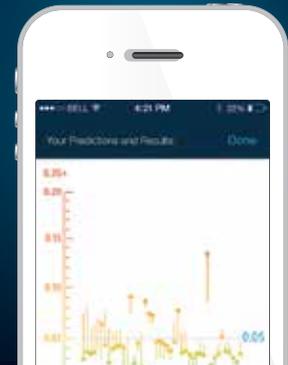

## Test

Blow into the BACtrack Vio Smartphone Breathalyzer and your estimated Blood Alcohol Content (BAC) results are transmitted wirelessly via Bluetooth® to your iOS or Android device.

## Track

Track your BAC over time, and track what you drank and where. Log drinks and attach a note or photo to your BAC result.

## Learn

Gain insight about your drinking habits. With each test, guess your BAC and see how it compares to your result, and with ZeroLine®, get an estimate of when your BAC will return to 0.00%.
