

TRIBE OF TWO

COLLECTION

Tribe of Two proudly presents our exotic handbag collection. Each bag is handmade in Italy with proprietary skin painting techniques, colors and treatments. Tribe of Two handbags are simultaneously, fun and chic- Classic and Rock and Roll.

Tribe of Two was started by Jeannine McCann and Brenda Schad. After years of experience in the fashion industry as models, and more years of frustration at not being able to find handbags they loved, they created their own line of luxurious handbags that were hip enough and light enough to be carried all the time.

Tribe's primary focus is to create a luxury brand that is accessible, appealing to all ages, and unique. Each bag is handmade in Italy with proprietary skin painting techniques, colors and treatments. Tribe of Two handbags are simultaneously, Fun and Chic,- Classic, and Rock and Roll.

Only recently available to the public, Tribe of Two can be found in exclusive stores and high end retail boutiques and the Aman hotels.

If you have any questions or would like to schedule an appointment to see the collection at our NYC Gramercy showroom, please feel free to contact us: info@tribetwo.com or call us at 1-401-287-4232.
