

Custom Logo Requirement

In order to print the custom logo correctly for you, please provide the information below:

1. Provide the Vector file of the Logo (e.g: CDR, AI or EPS)

Raster Images can't be applied when printing

2. Color of the logo, Pantone color number is necessary.

Pantone color number will help us to control color deviation and achieve the highest accuracy.

3. Please confirm laser-engraved image or printing full-colored.

For laser-engraved logo, color number doesn't need to be provided because it is gray entirely, not full-colored.

4. Logo dimension and position on the enclosure.

You can provide a simple picture or drawing to us. Like below picture.
