

A new and updated type system. Available in 6 styles + 3 variable fonts. Now available on wisetype.nl
Supports 33 Latin languages. Designed by Jacob Wise in collaboration with Céline Hurka, 2021.

Zaft² comes in 3 separate variable fonts which each offer a unique axis of control as well as various unique characteristics!

- Variable A shifts weight from bottom-heavy to top.
- Variable B symmetrically affects the serifs in relation to the counter-space.
- Variable C asymmetrically adjusts the serifs.

Zaft² A1 & A2 include a wide range of contextual alternatives which can be activated to create a more compact fit. This feature seamlessly swaps in un-serifed alternatives where applicable to achieve a tighter word-image and make the most of a tight space!

Cattle are large domesticated
cloven-hooved herbivores.
They are a prominent
modern member of the
subfamily Bovinae, are the
most widespread species
of the genus Bos, and are
most commonly classified
collectively as Bos taurus.

Alongside the contextual alternatives unique to A1 & A2, the full family includes a stylistic set [ss02] which removes particular serifs to create an even more compact fit.

AT

BE

The first westbound Pony Express trip left St. Joseph on April 3, 1860, and arrived 10 days later in Sacramento, California, on April 14.

These letters were sent under cover from the east to St. Joseph, and never directly entered the U.S. mail system. Today, only a single letter is known to exist from the westbound trip from St. Joseph to Sacramento.
