

MAKE S'MORES @ HOME

In this activity, you'll learn how to make s'mores at home! This simple and fun activity allows you to enjoy s'mores from the comfort of your own home and you can use your favorite type of chocolate. Make sure a parent is close by to help you!

YOU'LL NEED:

- ▶ Mesh Hardware Cloth
- ▶ Mug or Pot
- ▶ Marshmallows
- ▶ Sterno Can
- ▶ Graham Crackers
- ▶ Lighter
- ▶ Skewers
- ▶ Chocolate

1

Prep s'mores ingredients (as many as you like!) We recommend using a variety of chocolates: peanut butter cups, milk chocolate, dark chocolate, the possibilities are endless!

2

Assemble the mini grill. The sterno goes in the mug or pot. The mesh will go on top of the mug or pot you're using. You can cut the mesh in the shape of the mug or pot if you like.

3

Before putting the mesh on top, light the sterno can. (Remember to do this with a parent's help!)

4

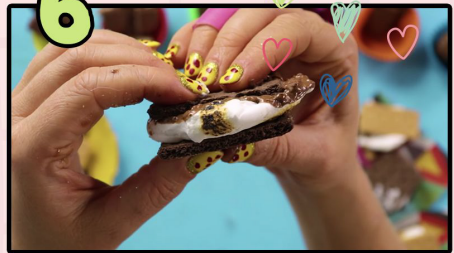

Put the graham crackers with pieces of chocolate on the corners of the mesh so they can get toasty. Put marshmallows on skewers and toast them over the fire.

5

Once the marshmallow and graham crackers are fully toasted, remove them from the fire. You can then put the marshmallow on the chocolate and graham cracker.
