PUTTING STROKE:

STROKE STYLE: Straight Back & Straight Thru Shallow Arc Pronounced Arc

PUTTING STANCE:

Open Stance Square Stance to Target Line

This is another detail that will aid in my build when it comes to the flow of the putter. It is my personal theory that stance will have an effect on the best weight balance on the putter you are choosing.

DOMINANT EYE (if you know):

Left Right

Knowing this will help me to suggest offset or understand your choice in that area. If you are not sure of your dominant eye, simply choose a single mark on the wall, approximately six feet away. Place your index finger directly beneath that point, while looking at it with both eyes. Close each eye, one at a time. Which eye shows you the same point, with your finger directly below the point? THAT is your dominant eye.

NOTE: DO NOT DO THIS WHILE DRIVING OR OPEATING HEAVY MACHINERY.....IT COULD BE HAZARDOUS TO YOUR HEALTH AND THAT OF OTHERS NEARBY. :-)

NAME: _____

CELL PHONE (for pictures): _____

EMAIL ADDRESS: _____

SHIPPING ADDRESS (for putter delivery): _____

In furnishing this information, I have the sincere hopes of building you the closest to your “dream putter” that I can. Look for contact from me in the coming days to go over details and determine how soon I will have a billet on the bench with your name Sharpie'd on it. Play well, live life and treat those around you will respect.
