

■ PELICAN R40 RUCK CASE

When it comes to safeguarding sensitive and valuable gear and equipment, Pelican cases have earned their reputation as one of the ultimate solutions for trusted protection. Rugged and durable but surprisingly lightweight, the R40 Ruck Case features a dual-pivot latch, rubberized exo-skeleton, and ABS outer shell. This IP68-rated, watertight, and dustproof case features a flexible lid organizer, removable main interior tray and a built-in purge valve. The base cavity has a cushioned lining for extra protection. Carry the case by hand, easily pack in a duffel, or attach to a backpack with multiple external attachment points. Available in orange, OD green, tan, and black.

Exterior dimensions: 9.84" x 6.12" x 2.89" MSRP \$67.95

The R40 is a compact solution to safeguard your phone, wallet, and other essentials.

■ TURTLEBOX GEN 2

Built out of necessity in a garage in South-Central Texas, Turtlebox is a leading manufacturer of portable stereos built to withstand the harshest environments. Just like the original Turtlebox, the second generation is loud (up to 120dB), portable and entirely waterproof. The new version has a beefier grill and bigger tweeter, stronger handle, and 20+ hours of play time per charge. The power panel was moved to the front and includes larger illuminated buttons along the rubber control pad including volume control, play/pause and track skip. The power and charging ports were relocated to the rear, and along with a USB-C port that can charge a smartphone. Gen 2 also has a mic input. Our favorite feature is the ability to pair two Turtleboxes for stereo surround sound (Gen 2 only). Set them 30 feet apart and turn up the volume! Available in 5 speaker colors and 14 handle colors. MSRP starts at \$399.
