

Side By Side Comparison of the new SPV Fog Triple Kit vs the Baja Designs Fog Triple Kit for the 2021+ Raptor

	Baja Dsigns S2 Fog Pocket Replacement	SPV Fog Pocket Replacement with S2 Fogs
		
Lights Included/Available Pro Kit	2 X Squadron Pro Spot #497801 & 2 X Squadron Pro Driving/Combo #497803 & 2 X S1's in Wide Cornering #387805	Choice of ANY combination of -Baja Squadron Lights, Baja S2 lights, Baja S1 lights in Sport OR Pro, Including the same lights in any of the Baja Lights in the 4 available kits to the left can be configured with our 21 Raptor Mounts. We also have 14 preconfigured kits with all 3 Pairs in Squadron, not just S1. In both Sport, Pro & Racer. Out of those 14, all 4 of the combos to the left are covered plus 10 additional, or pick any S1, S2 or Squadron Pairs you'd like and make your own.
Lights Included/Available SAE Kit	2 X Squadron Sport Spot #557801 & 2 X Squadron SAE Wide Cornering #257805 & 2 X S1's in Wide Cornering #387805	
Lights Included/Available Sport Kit	2 X Squadron Sport Spot #557801 & 2 X Squadron Sport Driving/Combo #557803 & 2 X S1's in Wide Cornering #387805	
Lights Included/Available Unlimited Kit	2 X Squadron Racers Spot #727801 & 2 X Squadron Pro Driving/Combo #497803 & 2 X S1's in Wide Cornering #387805	
Are Amber Lights Available?	Not in the Baja Pre Fab kit, but the swapable lenses are for \$14.95	Pick & choose from any combination of Clear or Amber Sport or Pro Lights, & you can purchase separate Clear/Amber Swapable lenses for \$14.95 each anytime
Are brackets available separately?	No	Yes
Will Brackets work with other lights should you ever decide to swap?	No	Yes, Vitrually any standard size Pod light from many brands and future lights
Can you get all 3 pairs in Squadrons?	No, 2 Pairs of Squadrons & 1 pair of S1's	Yes. Any combination of Squadrons, S2's S1's
Are Plug N Play Adapters for the factory fog connections included? Or Wiring?	Includes 2 adapters for the factory fog switch or Aux 1 switch only, with a splitter to put 2 lights on one. Then a wire harness for one pair optional on another Aux switch.	Includes 3 full sets of wiring included for 3 separate connections to switches. Optional: 2 or 4 Plug N Play Adapters, or our New Plug N Play Relocation harness to get all 7 switch connections back together in one location so that you can have all 3 pairs on separate switches. Our Optional ONE Piece Plug N Play Triple Harness connects easier than anything in any combination you like.
Are plastic covers included?	No, but optional for \$9.95 ea #668001	No, but optional for \$9.95 ea #668001
How much does each kit cost?	<p>Retail Price on the pro kit is \$1,394.95</p> <p>Retail price on the SAE kit is \$1,109.95</p> <p>Retail Price on the Sport kit is \$1,054.95</p> <p>Retail Price on the Unlimited kit is \$1,539.95</p>	Since you can pick and choose any combination of lights with the SPV brackets, including the ones in the 4 Baja Kits, it can vary. However, Apples to apples, if we select the same 3 lights as the Pro Baja Kit, of Squadron Driving Combo \$399.95, Spot \$399.95 and S1 Wide cornering \$208.95, Our Brackets \$149.99, and 4 Plug N Play adapters \$6.99 ea, the Retail Price is \$1,186.80 about \$200 less for the same lights, but with the SPV mounts. However, if you choose one of our 14 Preconfigured variations with 3 pairs of full size squadrons instead of 1 pair of S1's, you get more light output and the MSRP of that kit is \$1,339.84 with a current sale price of \$1,179.87
Which is better?	Both kits offer at the least, the same lights from Baja Designs. So you get the same quality & warranty in either case, however, the SPV parts kit/Brackets add a lot more versatility & flexibility, both in features & choice of Squadron, S2, or S1 lights. So the choice is really yours. At SPV Parts, we sell, stock & offer both kits. So you can get either one. We like to offer a more custom offering than most vendors, giving more choice and flexibility. A note on our brackets. We designed our brackets to offer the most precise positioning & versatility for adjustments possible. Not only are they adjustable, but for ease, we created a template you can simply lay on them, put your 3 lights where marked, & they will be perfectly positioned & straight. No guessing.	

Note: Prices & availability are subject to change. Sale and retail prices were correct at the time of this comparison, 11/15/2021
